# ABOUT US

**"We make the world a happier and more colourful place with artificial flowers and plants that look just like the real thing."**

Our deep-rooted love for nature is in our DNA. In 1994, founder Hans van de Kerkhof disrupted the artificial flower and plant industry by launching Emerald Eternal Green, right from his own garage. What started as a small, ambitious venture quickly blossomed into a growing business with customers across the world.

We're proud to be a certified **B Corporation**<sup>™</sup>: a recognition of our commitment to balancing profit with purpose, and to making a positive impact on people and the planet.
