## Internationally patented PCT technology

Far-infrared light/heat technology based on single-atom-layer graphene crystal material, awarded the Nobel Prize in Physics and China's Outstanding Patent Award (2019)

## Revolutionary New Material-Release Power of “Life Light Waves”

Single-layer graphene membrane –emits 6-14μm far-infrared life light waves that perfectly match human body-wavelengths. These rays penetrate deep into scalp follicles, delivering energy and nutrients to revitalize dormant cells and stimulate hair growth.

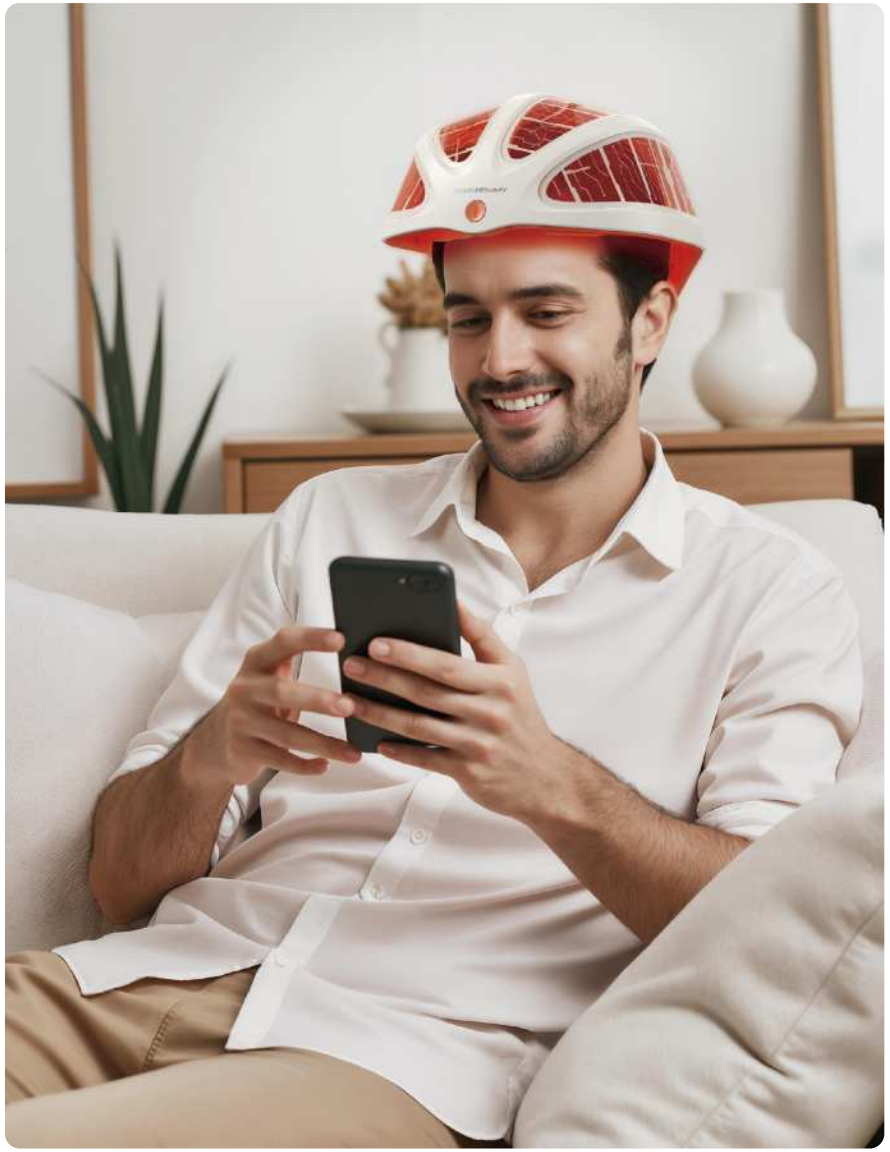

## Red light penetration activates cells

Red light at 640nm wavelength penetrates 1-6mm into the skin, promoting blood circulation and hair follicle cell metabolism to improve scalp microcirculation, thereby stimulating hair growth.

## 3D full-enclosure structure design

3D full-enclosure structure, five-zone even heating, full scalp coverage, and comprehensively promotes hair growth.

TB-2546

## Uniform heating with low energy loss

Hexagonal honeycomb structure enables even, long-lasting surface heating; ultra-thin flexible membrane achieves 99% far-infrared transmission efficiency.

## Instant thermal response with superior heat conduction

Instant heating in 3 seconds; 10 seconds Temperature rises to 42°C. Instant thermal response with superior heat conduction.

## Safe with No Side Effects

Low voltage, high heat –stable & reliable; Painless, non-Invasive, no side effects – safe & effective.

## Soft Silicone Touch

5 silicone contact points for comfortable wear, and replaceable pads fit various head sizes

| Product specifications | |
|---|---|
| **Input Voltage** | AC100-240V |
| **Charging mode** | The power plug |
| **Product dimensions** (approx.) | 273*218*153mm |
| **Product weight**(approx.) | 445.5g |
| **Heating Plate** | Graphene Far-Infrared Integrated Heating Plate |
| **Temperature Control** | 3-level adjustable temperatur |
| **Heating & Light Timer Function** | 30±2 Minutes with Non-Reset Timer |
| **LED Red Light Specifications** | Wavelength: 640nm，Power Output: 5-50mW |
| **Product components** | Device, Charging Cable, Extension Cable (Device End），User Manual /Power Adapter, Head Circumference Adjustment Silicone Pads： High Profilex2, Low Profilex2. |
