INNOVATIVE TREATMENT – FOR HEALTHY HAIR

# An innovative treatment which strengthens hair and prevent it from falling out.

- High effectiveness – **91%** of subjects confirm the strengthening of hair
- The result proven by research apparatus: hair volume **+19%**, thickness of hair **+12%**  
(apparatus test – hair density measurement (number of hair / cm<sup>2</sup>) by Aramo SG ASG 200 F device. Before treatment, after 4 weeks and after 8 weeks (full treatment)).
- Spectacular effects are observable after just 28 days of the treatment.
- A modern formula – biotin with multivitamins, 7-herb extract and the richness of proteins.
- New generation of components–procapil and tricrorexin hinder hair loss.
- The treatment is safe for every kind of hair, men's as well as women's.
- Does not contain parabens. Does not weigh hair down. It leaves no oily sheen on the scalp.
- Comfort of use – Ampoules equipped with easy to use applicator.

# ANTI HAIR LOSS TREATMENT

## THE INGREDIENTS

- **Procapil** – a composition of 3 active ingredients that have been studied in clinical studies in the French dermatologic and cosmetic laboratory Sesderma Pharma.
- **Tricorexin** – a composition of plant extracts from the Italian dermatologic and cosmetic laboratory RES PHARMA
- Pantenol – **pro vitamin B5**

## THE ACTION

- Decreases an adverse influence of hormones on hair.
- Anchors a hair in the dermal papilla.
- Improves microcirculation in the scalp
- Boosts the production of keratin

## THE RESULT

- Hair loss is prevented significantly
- An acceleration of the rate of hair growth “baby hair”
- A discernable thickening of hair.
- An extension of hair growth cycle
- Strengthening, moisturising, smoothing of hair.

# HAIR HEALTH STARTS WITH THE SKIN

The scalp visible under a trichological microscope:

poorly cleaned

clean and healthy

Healthy scalp – an emerging  
hair care trend

Hair growth is related to the multiplication of cells in the bulb, which are pushed upwards to form the stem.

A clean scalp is a healthy skin - it provides the hair bulbs with oxygen and nutrients.

Systematic cleansing and strengthening of the scalp and hair structure is essential for hair growth.
