## EDITOR'S SAY

If you often experiencing swelling under your eyes, notice decreased skin elasticity, and are concerned about increasing wrinkles, use this massager to enhance the effectiveness of your eye care routine. Younique i is an LED massager that quickly reduces under-eye swelling by stimulating collagen production and soothing the area around the eyes. Using a face serum that contains ceramides and niacinamide in conjunction with this can maximize the synergy effects of enhanced brightness and improved elasticity.

POINT  
1

### LED Mask that aids in collagen production for the under-eye area

The 633nm red light stimulates the dermal layer under the eyes, inducing natural collagen production to firm up the area and reduce the appearance of wrinkles. Using Younique i after applying D&You Face Serum, which is formulated for whitening and wrinkle improvement, can maximize collagen production. This combination enhances the anti-aging active ingredients in the serum, delivering a synergistic effect for brighter and clearer under-eye skin.

POINT  
2

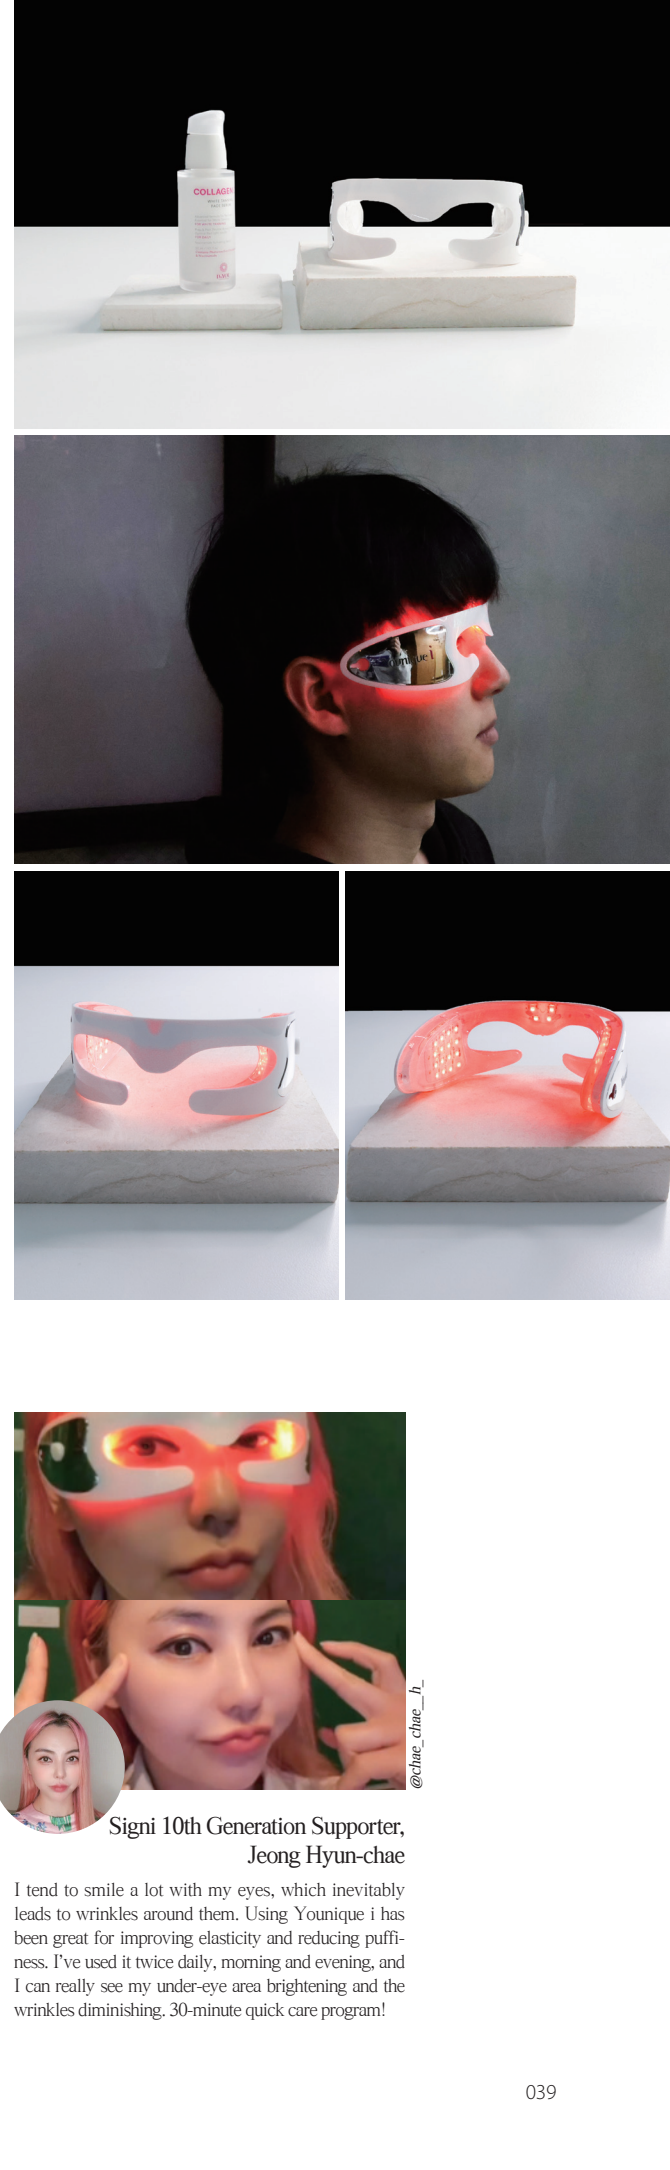

### Zero Swelling in Just 9 Minutes a Day with Quick Eye Massager

Investing just up to 9 minutes a day can address various concerns around the eyes instantly, making it perfect for quick eye care. You can naturally alleviate under-eye swelling in about 3 minutes while preparing for work, simply by wearing it.

**HOW TO** After applying your face serum, wear the Younique i and press the power button. One touch activates the collagen function, two touches the massage function, and three touches a combination of both collagen and massage functions. It automatically shuts off after 3 minutes.

#### TARGET

- ✓ Those concerned with decreased elasticity and wrinkles around the eyes
- ✓ Those who want to quickly reduce morning under-eye swelling
- ✓ Those troubled by dark circles and dull under-eye areas

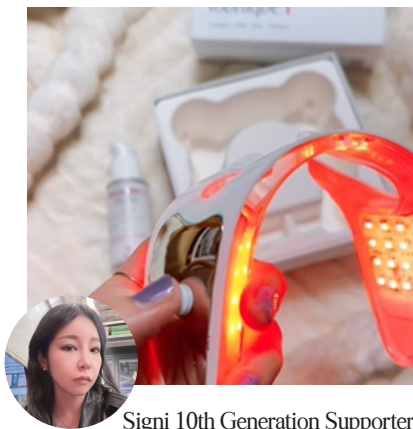

## SIGNI'S REAL REVIEW

Even for someone as lazy as me, this device makes home care so easy with just the push of a button. It's perfect for intensive dry skin and whitening care in the evening, and quickly takes care of under-eye puffiness in the morning. Try moisturizing home care for the eye area during dry seasons.

I tend to smile a lot with my eyes, which inevitably leads to wrinkles around them. Using Younique i has been great for improving elasticity and reducing puffiness. I've used it twice daily, morning and evening, and I can really see my under-eye area brightening and the wrinkles diminishing. 30-minute quick care program!
