# Galbee: bringing emotion to life through exceptional perfumery

Paid program

September 15, 2025

Galbee transforms emotion into a sensory journey. A French perfume house of emotion and heart, it creates exceptional fragrances crafted in France with noble materials and artisanal expertise.

## A house born from the heart, shaped by people and materials

Founded in 2024 by a couple united by a shared passion for perfumery and beautiful materials, Galbee has established itself today as a French luxury perfume house dedicated to emotion. Its name unites two powerful symbols: " Galb ," meaning heart, and the bee , the universal muse of nature, an emblem of work well done and collective strength.

At Galbee, perfume is not simply a consumer product, but an intimate experience, capable of awakening memories and touching the soul. Each fragrance is designed as an exceptional scent, an olfactory signature crafted to speak to the heart and soul.

Developed in France, Galbee creations celebrate both humanity and nature. They draw inspiration from the values dear to the founders: sincerity, family work, authenticity, to give life to fragrances where noble materials, demanding craftsmanship, and poetry of the senses meet.

From the density of the scent to its longevity, every detail is designed to create a lasting emotion. " Each fragrance is a tribute to life and its subtleties, a sensitive dialogue between nature, creation, and identity ," the founders say.

Thus, Galbee stands out as a French perfume house of emotion, where each creation becomes a sensory journey and a universal memory.

## A first collection like a sensory manifesto

With its first line, La [Galb Collection](#) , Galbee unveils a strong vision of French perfumery: exceptional fragrances concentrated at 25%, close to an elixir, designed to bring emotion to life. Composed of six creations, the collection explores the richness of olfactory sensibilities, each asserting its own personality, like fragments of an inner story: *Note of Galb* offers a woody vanilla with a distinguished sweetness, while *Fromgalbee* envelops the skin in a tender and sensual musk. More dazzling, *Oh My Galb* plays the card of a luminous floral, while *Galbee is Woody* explores the depths of a woody amber with sophisticated accents. With *Bee Oud* , the House offers a solar and refined interpretation of this oriental essence, while *Galb Avenue* signs a chic and timeless trail, a tribute to Parisian elegance.

With this founding collection, Galbee addresses those seeking more than a fragrance: an emotion to experience and share. Beyond their compositions, these fragrances become presences, intimate signatures capable of conversing with the soul.

“ *Those who wear our creations tell us they recognize themselves in them, because they combine the precision of refinement with sincere humanity ,*” the founders confide.

## A committed and sustainable artisanal approach

Each Galbee creation is the result of meticulous work, carried out in close collaboration with perfumer Nejla Barbir. The formulas are built around noble raw materials, chosen as much for their quality as for their emotional power. Refined with patience, they embody the high standards of a French luxury perfume house.

*" We let each perfume find its truth, without rushing, because emotion takes time ,"* the founders confide.

This requirement is expressed even in the design. The bottle is not a simple container: it is an exclusive creation, conceived as an object of art. Its silhouette was the subject of extensive design work, from the drawing to the mold, as was the zamac cap, shaped like a precious piece. Hand-polished, it reflects the artisanal know-how that distinguishes Galbee in the world of exceptional perfumes.

*" We create without excess, always favoring durability and the accuracy of materials ,"* they add.

Guided by the rigor and poetry of the bee, the muse of the House, Galbee adopts a sincere ecological approach. No flashy speeches, but fair and coherent actions, inscribed in a logic of artisanal excellence and responsible commitment.

Finally, for Galbee, perfume is more than a luxury item: it's a treatment for the soul.

*" Each fragrance reveals a facet of oneself. In a world that's accelerating, we believe that perfume must become an intimate ritual, a personal interlude of meaning and balance ,"* conclude the founders.

## International recognition

This unique and demanding vision quickly allowed Galbee to cross borders. The House will be present at Beautyworld Middle East, from October 27 to 29, 2025, at the Dubai World Trade Center, the largest international event dedicated to beauty and perfumery. A unique opportunity to share its olfactory universe with an international audience and to affirm its place among the French luxury perfume houses shaping the future of perfumery.

The image shows the cover of the French edition of Forbes magazine. The cover features a portrait of Esteban Ocon, a Formula 1 driver, wearing a black turtleneck. The magazine title 'Forbes' is prominently displayed in white. Various headlines are visible, including 'LE TOP 20 DES PATRONS PRÉFÉRÉS FRANÇAIS' in a red box, 'PEOPLE ENTREPRENEURS', 'ZOOM SUR LE BOOTSTRAPPING', 'ENQUÊTE ÉCO : L'IRAN', and 'LA SAGA PACAUD'. At the bottom, a red box contains the word 'DOSSIER' followed by 'LE BUSINESS DE LA F1'. On the right side of the cover, the name 'Esteban Ocon' is written above the subtitle 'La revanche d'un outsider'.
