Eunsung Advantages

RESEARCH & DEVELOPMENT

- Multiple patents
- Continuous investment in technology R&D
- Development of various new products
- 2 R&D Centers

PRODUCTION MANAGEMENT

- Capacity for mass production
- Ability to produce diverse technology of devices
- Efficient inventory management

CUSTOMER SERVICE

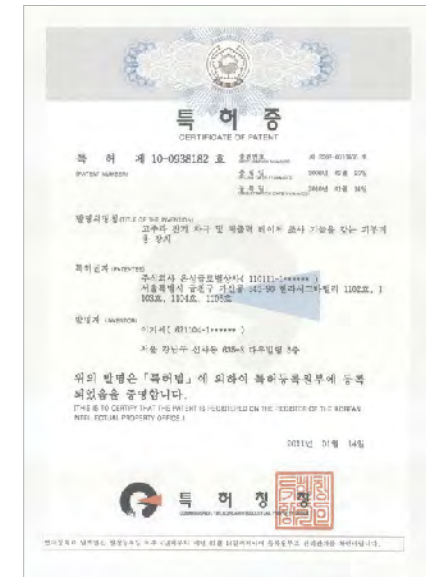

- Two-way communication with customers
- Provide customized service
- Exceptional follow-up support and services

Patents *As Sep 2022

Eunsung Global manufactures a variety of aesthetic and medical devices, holding numerous patents that suit it.

Even at this time, we are striving to develop new technologies in order to secure unique know-how and preoccupy global technologies.

Classification	Application			Registration
