## ULTRA PLUMP LIP GLOSS – A New Dimension for Lips

ERRE DUE presents the new ULTRA PLUMP LIP GLOSS, a product set to redefine the lip plumper category. An innovative formula that combines active ingredients with a unique application experience, offering lips volume, hydration and dazzling shine.

The specially designed vegan composition of ULTRA PLUMP LIP GLOSS is enriched with a new-generation peptide that deeply moisturizes and supports collagen restoration, improving lip hydration and elasticity while enhancing volume and definition. Infused with menthol, it provides a pleasant cooling sensation that stimulates microcirculation for an immediate and visible plumping effect lasting up to \*2 hours after application, leaving lips fuller and healthier-looking.

Its texture is luxuriously rich, soft and comfortable, without any stickiness. The specially designed applicator perfectly hugs the lips, ensuring precision and ease of use. The result: smooth, plump lips with a subtle touch of color and a mirror-like shine that beautifully reflects the light.

ULTRA PLUMP LIP GLOSS is more than just a make-up product — it is a complete beauty experience. It hydrates, refreshes, enhances and transforms the lips, making them more radiant than ever. A true must-have for every woman seeking the perfect balance of care and aesthetics, aligned with the vegan philosophy.

With ULTRA PLUMP LIP GLOSS, lips take on a new dimension, and shine becomes the ultimate statement. A plumping lip gloss that doesn't just promise, but delivers a new experience of luxury, radiance and instant results.
