NATURAL LOOK AUSTRALIA

Hair & Beauty Care

Natural Look Australia is Artav Australia's most influential brand and represents the best of our mission: to deliver the purest, high quality standard products, to be environmentally safe and cruelty free, at competitive prices, globally.

Natural Look Australia's passion and dedication is to create ranges with naturally derived bases that deliver quality beauty and hair care solutions along with the best service and support for salons, clients and businesses. This process includes a global network of distributors based over 20 countries worldwide.

Artav Australia's story started in Adelaide, Australia, in the 1950s.

Started in the 1950s by qualified hairdresser and beautician Arturo Taverna with a salon in the city of Adelaide - developing into a group of 30 salons throughout South Australia - Artav Australia is now firmly established as a respected manufacturer and supplier of professional hair care and beauty products developed to a consistently high standard, following a natural approach and a strong sustainability commitment.

NATURAL LOOK ETHOS

Natural Look has a proud history of being a South Australian owned and operated company, bringing with them over 60 years of industry knowledge and experience in hair care and beauty treatments.

Started in the early 1950s by qualified hairdresser and beautician Arturo Taverna with market-leading salons in the city of Adelaide, Australia, the business has grown to what it is today and is still family owned and run.

Natural Look products are made with natural, organic plant-based ingredients without the use of Parabens or Sodium Lauryl Sulphate (SLS) and they are formulated using only the finest ingredients including Pro-Vitamins, Quality Herbal Extracts and Essential Oils, making them not only a sheer pleasure to use but also sure to give results that will delight.

Natural Look believes that all life is precious. That's why we are against any form of animal testing and all Natural Look products are totally cruelty free, because innocent animals should never pay the price for our beauty and feeling good.

Natural Look do not use any animal derived ingredients in the manufacture of its products. The complete range is proudly cruelty free and vegan friendly.

Natural Look Australia is committed to reducing our impact on the environment. In 2020 we initiated a Clean Energy Project, installing a 200kW Solar System, powering through 4 Invertors.

Natural Look premises now proudly houses 600 Solar Panels to capitalize on the greatest, most sustainable energy resource on the planet, sunlight, providing the company with between 50-80% of its daily consumption of energy from renewable clean sources, greatly reducing our carbon footprint and in turn our overall impact on the environment.
