Vitamin C is beneficial during the day because it neutralizes free radicals and enhances the effects of sunscreen, says Dr. Ruth. She calls **Femmue's** Vitamin C perfect for summer because it delivers antioxidant protection against environmental stressors with minimal irritation. It brightens dark spots and refines texture, while vitamin E, safflower seed oil, and alpha-bisabolol boosts skin radiance. Meanwhile, a powerful combo of hyaluronic acid and vitamin B-5 hydrate your face. There's even centella asiatica, sometimes called tiger grass, which soothes irritated skin.
