

LOOK25™ Unveils Revolutionary Anti-Aging Skincare Technology at Beautyworld Middle East 2025

At this year's Beautyworld Middle East, LOOK25™ presents a new era in anti-aging skincare innovation with its patented HydrOxi™ Clear Technology a breakthrough fusion of science and luxury that delivers professional facial results in just 45 seconds.

Born in Japan and operated in the USA, LOOK25™ combines concentrated hydrogen and oxygen gases to create a nano-vapor that deeply hydrates, firms, and revitalizes the skin from within. The LOOK25™ Anti-Aging Device can be used on the face and any part of the body, effectively addressing fine lines, wrinkles, dullness, uneven tone, and loss of firmness. Complementing the device is HydroLux™ Liquid Serum, a pure distilled water formula infused with molecular hydrogen and oxygen designed exclusively for use with the device to enhance its performance and deliver long-lasting hydration and visible radiance.

Available in White, Black, and Limited-Edition Orange, the LOOK25™ device is rechargeable, refillable, and backed by a 1-year warranty, merging sustainability with sophistication. Trusted by dermatologists, medspas, and makeup artists worldwide, LOOK25™ is redefining the meaning of modern skincare where science meets simplicity, and beauty becomes effortless.
