

AGI Greenpac

AGI Greenpac Limited is a focused packaging products company that manufactures and markets various packaging items, including glass containers, polyethylene terephthalate (PET) bottles and products, as well as security caps and closures. The company has seven plants in India, located across Telangana, Uttarakhand, and Karnataka.

With a focus on quality, innovation, and customer service, AGI Greenpac is a trusted partner for over 500 institutional clients seeking sustainable and reliable packaging.

AGI Glaspac

The company offers a diverse range of commercial and speciality glass bottles, including premium bottles for sectors such as cosmetics, perfumery, and candles. AGI Glaspac caters to both B2B and B2C markets, offering products under the AGI Glaspac brand for B2B, and Sand Dunes for B2C. The company's three state-of-the-art manufacturing plants in India have a combined daily capacity of over 1,754 tonnes, producing glass containers ranging in size from 2.5 ml to 5,000 ml.

The company offers a comprehensive solution by integrating the moulding, bottling, and decoration processes under one roof, ensuring customer confidentiality and offering a one-stop shop for all their requirements. Recognising the crucial role of appealing packaging in brand storytelling, AGI's design team collaborates closely with clients throughout the design-to-decoration journey.

With a full spectrum of decorating capabilities, AGI Glaspac's decoration unit is equipped with premium glass decorating techniques, including printing, hot-foil stamping, coating, frosting, decals, fitment gluing, and metallisation. The company's diverse portfolio showcases pre-designed options, easily customisable to meet the unique requirements of any brand.

AGI Clozures

AGI Clozures specialises in producing high-quality, counterfeit-resistant security caps and closures for the alcoholic beverage industry. The company's team of experienced professionals leverages cutting-edge technology to deliver innovative packaging solutions that protect brands from counterfeiting and safeguard consumers. The products incorporate advanced security features such as holographic elements, tamper-evident seals, RFID/NFC tags, and unique identifiers. This multi-layered approach ensures robust product authentication and traceability throughout the supply chain.

The state-of-the-art manufacturing plant and focus on research and development enable it to stay ahead of emerging threats and provide its customers with the most advanced security solutions. The plant produces over 1,057 million caps and closures annually, including both large and small sizes.

AGI Plastek

AGI Plastek is a leading supplier of high-quality PET packaging solutions, catering to a wide

range of industries, including pharmaceuticals, alcoholic beverages, food and soft drinks, personal care, agrochemicals, and dairy. The company provides customised and innovative PET packaging bottles and products, particularly for the soft drinks, water, edible oils, and personal care sectors. With three strategically located plants in India and an annual capacity of 11,892 tonnes, AGI Plastek is well-equipped to meet the diverse needs of its customers.
