SOLUTIONS

OUR *philosophy*

◆ MORE IS MORE

We didn't want to make a single compromise when creating L'Abelâge Solutions skincare. Our principles are high-quality results and the utmost attention to luxury. We don't believe there are such things as taking care of your skin too much or pampering yourself too often. Therefore, in choosing luxurious active ingredients or selecting packaging made of brushed Milanese glass, we have avoided the principle, "less is more". Rather, we created scientific and consistently perfective beautifiers that you and your skin will simply fall in love with.

◆ EXTREME POTENCY

We are committed to solving skin irregularities and signs of aging with more than only one potent ingredient at once. For that reason, our formulas are the summary of synergistic ingredients that approach the same problems in various ways. The diversity and uniqueness of women inspire us to invent potent elixirs that meet all the demands of a modern woman.

◆ TECHNOLOGICAL UNIQUENESS

Despite all the exceptional progress in technology, our body will remain the most astonishing machine on this planet. Therefore, it is important to deliver indispensable ingredients to it in such a way that they can be used and integrated in the best way possible. The topmost knowledge acquired in a developmental laboratory allows all the exceptional ingredients to come to you in their most potent yet safe forms, taking effect as soon as possible.

OUR ingredients

The synthesis of luxurious gifts of nature and a perfective science that captures their full potential become the beautiful results on your skin. Aside from **24-carat gold**, **pearl powder**, and **black caviar**, our experts have also combined other quintessential ingredients such as **hyaluronate (hyaluronic acid)**, **dead sea minerals**, **snail slime extract (helix aspersa)**, **plant stem cell extract**, and several other essences from nature's verdant treasure trove, including **Brazilian cress**, **immortelle**, **hibiscus**, **cucumber**, **aloe vera**, **chamomile**, **calendula**, **pomegranate**, **apples**, **peach**, **raspberries**, **green tea**, **scotch thistle** and **ivy**, among others.

◆ VITAMIN CAPSULES

Vitamins acting as antioxidants lose much of their effectiveness when they come in contact with oxygen. That is why we have enriched the L'Abelâge Diamond Edition line with additional capsule-protected vitamins. They represent a unique and extremely advanced technology for maintaining the effectiveness of our products once the packaging has been opened.

Once you open your L'Abelâge Cream, the vitamins will not be in contact with the air since they are held in special capsules that release the active ingredients only when applied. This is how we manage to provide your skin with the essential vitamins and antioxidants it needs.

Evidence

◆ HIGH-QUALITY RESULTS AND THE UTMOST ATTENTION TO LUXURY

*Top performance skincare that leaves a dramatic impression
even after first-time use.*

To ensure the efficiency and performance of our products and the satisfaction and safety of our users, the products of the L'Abelâge Solutions Diamond Edition line have been thoroughly and scientifically tested by an independent and internationally certified laboratory. There, users confirmed that wrinkles are less visible, and the skin is more firm, supple, soft, smooth, younger, and glowing.
