# ABOUT US

Established in Qatar in 2011, Beyond Lighting embarked on a journey to enhance the experience of lighting. In 2020, we evolved from a trusted solution provider to a manufacturer with global aspirations, specializing in innovative and sustainable lighting solutions. We believe that lighting has the power to create immersive environments, enhance well-being, and contribute to a sustainable future for all. Driven by this belief, our company has gained a reputation for delivering top-quality products and engineering services in the lighting domain, by utilizing the best components, cutting-edge technologies, and the highest grades of materials.

At Beyond Lighting, we are deeply committed to offering reliable, imaginative, efficient, and sustainable products at competitive prices. We recognize the importance of using advanced optical techniques, as well as high-quality materials and components from leading trusted brands, as they form the foundation of reliable and robust lighting solutions when integrated with our innovative and talented engineering. To that end, we strive to unlock the hidden potential of light and cater to clients' needs by delivering clean and mesmerizing lighting experiences.

A handwritten signature in black ink, appearing to read 'Nizar', with a stylized flourish extending to the right.

Nizar Nasreddine  
General Manager

# BRAND Manifesto

The right  
Light

A hand is shown reaching upwards, palm facing up, towards a bright beam of light that descends from the top right corner of the frame. The background is dark, and the light beam creates a strong contrast, highlighting the hand and the text.

That's where Beyond Lighting steps in. From the moment someone discovers our offerings, they enter a world of enchantment, innovation, and endless possibilities. Our sustainable, captivating light experiences transform spaces, elevating every corner of life while championing social and environmental responsibility. Because at Beyond Lighting, we are redefining perception of light experience.

After;

- 11 years of experience and technical know-how.
- Illuminating more than 150 projects in Qatar.
- Being well recognized in the Market as a solution provider.
- Engineering & Developing several innovative products for some of the most well-known projects.
- Assembling several products that stand out in iconic projects in Qatar.

We have started our own factory , Beyond Lighting Factory, a 3500 square meter premises in industrial area, zone 81 street 11.

## DO BUSINESS WITH US

At Beyond Lighting, we pride ourselves on offering competitive yet reasonable prices for high-quality, robust, and reliable products, constructed using the highest material greatest and finest electrical components from leading brands. Our outstanding customer service, coupled with our responsibility, commitment and after sales services, Ensures complete customer satisfaction.

We provide comprehensive design and engineering solutions tailored to meet specific project requirements and offer extensive support to our clients. Sustainability remains at the core of our mission, as we prioritize energy efficiency, environmentally friendly practices, and contribute to a sustainable future. With a strong foundation in the Qatari market and global aspirations, we have a proven track record of illuminating high-profile projects, meeting highest world-class standards, and achieving highest grade GSAS certification.

With a strong foundation in the Qatari market, Beyond Lighting has illuminated more than 150 projects in Qatar and the Middle East, including projects for the FIFA World Cup held in Qatar. We provided lighting solutions that met the highest world standards for prestigious undertakings such as Al Bayt Stadium, Ahmed Bin Ali Stadium, and Doha Port, which achieved the highest grades of GSAS (Global Sustainability Assessment System) certification. Our expertise in delivering top-quality, sustainable lighting for such high-profile projects further showcases our capabilities to deliver to world-class standards.

As Beyond Lighting expands its global reach, we maintain our focus on sustainability, energy efficiency, and environmentally friendly practices. Our team of lighting specialists shares a passion and inspiration for lighting, staying ahead of the curve with the latest technologies and advancements in the industry. This dedication to innovation sets us apart from the competition and fuels our mission to create captivating lighting experiences that transform spaces by seamlessly combining innovation, reliability, and sustainability.

By promoting ourselves as a manufacturer that harnesses the power of the finest components, ground breaking technologies, and creative solutions, we aim to revolutionize the lighting industry and cast a positive impact across the world. Our rich history and achievements serve as the foundation upon which we continue to build, as we strive to meet and exceed the needs and expectations of clients worldwide.

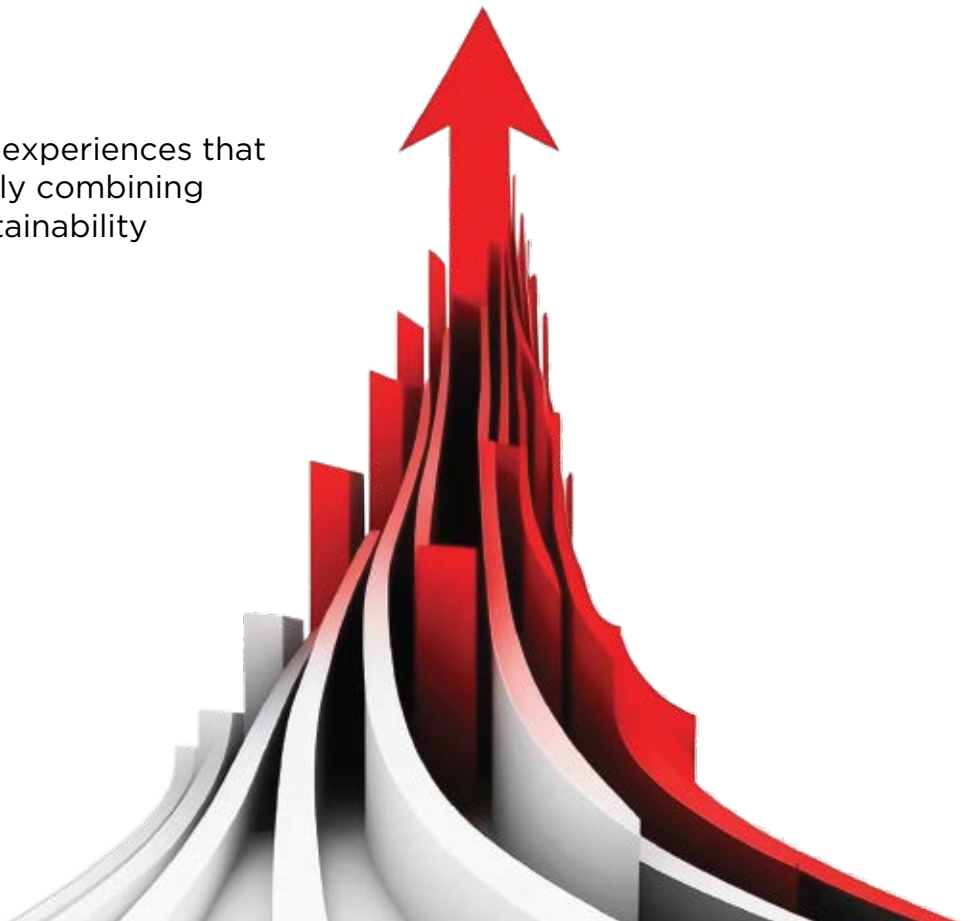

# Vision

Reimagining the world of lighting by creating immersive environments, fostering well-being, and championing a sustainable future for all.

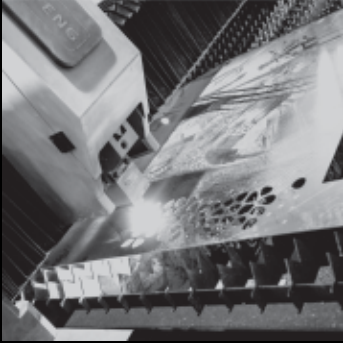

# Mission

To create captivating lighting experiences that transform spaces by seamlessly combining innovation, reliability, and sustainability

BEYOND LIGHTING FACTORY  
ISO 45001:2018

# Manufacturing & Quality Control Process

From design to production and distribution, Beyond Lighting monitors the product development process at every stage. The high-tech machines and sophisticated automation techniques are a component of an ambitious project that BL can be proud of.

Fully automated work phases that require the least amount of human participation, include high-tech laser cutting equipment, rolling machines, bending machines, metal rolling and cutting machines, and all forms of laboratory testing.

One Light lighting products

JoAnn Gregoli

# Engineering & Estimation

Dedicated team of professional engineers specialized in performing projects analysis and development of lighting solutions, through collaborative interaction with both the client and other departments to ensure optimum solution proposals in line with the projects requirements.

# Sales

A constantly active team of professional sales persons with passion for the lighting domain. The sales department is the main link between our clients and the company, that ensures all client needs and requirements are fulfilled to their satisfaction.

“A room is like a stage. If you see it without lighting,  
it can be the coldest place in the world.”

Paul Lynde

“There is one fundamental fact about lighting: Where there is no light, there is no beauty.”

Billy Baldwin

# Marketing

The marketing department works constantly to promote the image of Beyond Lighting in line with its vision of becoming the advocate of sustainable lighting in the Qatari market and the Middle East. They aim to introduce our services and brands to prospective clients.

# Procurement & Logistics

A collaborative effort of supply and delivery. Our procurement teams works to ensure sourcing highest quality items from renowned brands, acquiring newest technologies, staying up-to-date with market research and development research and trends within reasonable costs, while the logistics team ensures the delivery of these items in collaboration with reliable Cargo companies and shipping agents, in addition to proper warehousing and delivery to site.

“Find beauty not only in the thing itself but in the pattern of the shadows, the light and dark which that thing provides.”

Katara Beach Club

## Our Projects

## Al Rayyan Stadium

The design of Al Rayyan Stadium is the story of Qatar. Its most striking feature is a glowing facade, made from patterns that characterize different aspects of the country; the importance of family, the beauty of the desert, the native flora and fauna, local and international trade. A seventh shape, that of a shield, brings together all the others and represents the strength and unity that is particularly relevant to the proud desert town of Al Rayyan. These patterns are geometric shapes of the type often found in Islamic architecture and their impressive intricacy also reflects the exquisite handicrafts produced in Qatar.

Client: Supreme committee for Delivery & Legacy

Consultant: AECOM

Contractor: Al Balagh – L&T Joint Venture

Scope of work: Designing & engineering services complying to GSAS standards (5 stars), supply & install all indoor (excluding pitch lighting) / outdoor lighting fixtures, landscape and exterior utilities.

# Doha Port Redevelopment Project

A US\$ 7.5 billion Doha mega port plan in Qatar, which was originally intended to be completed in 2030, has now been brought forward by 10 years and will be operational by 2020, and is expected to push the rate of growth for the country's shipping sector.

Sheikh Ali bin Jassim Al Thani, Chairman of Milaha Qatar Navigation, said: "By 2016, a state-of-the-art world class port will be completed. Qatar is offering what other GCC nations cannot provide simply because they lack the resources to do so.

"The new port will provide clients with readily available gas and electricity, customizable centers, multi-purpose warehouses, third part logistics (3PL), a modern and high-tech data center, an enormous container yard, and a transport service shop."

Client: Supreme Committee & Legacy

Scope of work: Design development, engineering, fabrication & installation of all the smart solar street lighting decorative poles.

# New Kahramaa Tower

This 20-storey tower will serve as new headquarters and will house the president of Kahramaa and heads of departments. It will also have a chamber for the Minister of Energy and Industry.

Client: Qatar General Electricity & Water Corporation (KAHRAMAA)

Lighting Fixtures

## Al Bayt Stadium bridge

## Al Bayt Stadium roof Lighting

# Design and Development of solar traditional bollard

Client: Aspire Zone Foundation – Al Bayt Stadium

Contractor: Beyond Lighting

Consultant: KEO International

Scope of Work: Design and customization, Fabrication, Supply of Solar Powered Bollards with LED Lights (SP/C/1703/21)

## Msheireb Downtown Project/ Phase 4

Msheireb Heart of Doha will transform the architectural center of the capital city, recreating a way of living rooted in Qatari culture.

Phase Four consists of a major public plaza and 12 mixed-use buildings. The proposed building uses include commercial office buildings, residential and retail spaces, a hotel and a group of medical office buildings containing clinical and administrative programs.

The design draws on Qatari aesthetic principles of simplicity, elegance, calm proportions and balance. Traditional architectural elements used across the development inform the sustainable design techniques. The design takes advantage of climatic conditions to provide cooling and shade. It also incorporates modern techniques such as solar energy.

Client: Msheireb Properties

Consultant: HOK

Contractor: Teyseer Contracting Company and  
Consolidated Contractors Company (CCC)

# Solar Cart

**Project:** Design and fabrication of HiTech solar tower light complying to Qatar climate challenges.

**Client:** Aspire Zone Foundation

# Aspire Academy - Football Performance Center

Client: Aspire Zone Foundation

Location: Aspire Zone, Doha, Qatar

Engineer: KEO International Consultants

Scope: Facade and indoor lighting (Design, Supply, Testing, Commissioning & Programming)

# Pedestrian Bridge

Client: Elan Group

Contractor: AUCC/PORR Qatar Construction WLL

Location: Al Matar Street, Doha, Qatar

Scope: Design, Supply, Testing, Commissioning and Programming

# Al Zubarah Hotel

Project: Al Zubarah Hotel

Client: Classical palace

Contractor: Classical Palace

Scope: Indoor Lighting

Zubarah Hotel and Resorts is owned by the Classical Palace Group, named after Al Zubarah city, an historic site which was once the gateway for Qatari international trade and cultural exchange.

The lighting solutions provided by us has complemented the unique blend of warm traditional colors & eye-catching Arabic design combined with modern living amenities. It was a great privilege for Beyond Lighting that we supplied the complete indoor lights for this project.

# Katara Beach Club

Project: Katara Beach Club

Client: Katara

Consultant: Projacs- KEO

Contractor: Arabian MEP – Pat Engineering

Scope: Design & Supply (Outdoors) / Indoor Lighting Supply

Katara was born out of a long held vision to position the State Of Qatar as a cultural beacon a lighthouse of art, radiating in the Middle East through theatre, literature, music, visual art, conventions and exhibitions. This village shall be a glimpse of the future of a world where people of different cultural backgrounds overcome their national boundaries and embrace common causes to promote a united humanity. Katara is a place where people share cultures to nurture understanding and peace.

A sky of shining stars, it is the same if we see the Grand stair in Katara. Micro LED spots illuminating on the Grand stairs of Katara Cultural Village is a treat to your eyes even in the mid of the night. Everyone will love the warm ambiance of these lights. The precinct of Katara has an enhanced illumination and improved safety of the overall environment with a dramatic, astounding energy savings. It was a great challenge for us to find a micro LED spot which can withstand the high ambient temperature of Qatar & without spoiling the architectural and conceptual design. We tried many samples, but Beyond Lighting was successful to provide a customized solution for the project. The Grand stair was completed in 2014 and illuminated during the National Day celebrations for the State of Qatar.

Project: Katara Beach Club

Client: Katara

Consultant: Projacs, KEO

Scope: Design & Supply (Outdoors), Indoor Lighting Supply

Al Wajba Palace

Client: HE. Hassan Abdullah Ghanim

Consultant: Heritage Furniture & Interiors

Scope: Lighting Design Al Wajba Palace

Grand Heritage Hotel

Project: Grand Heritage

Client: Aspire

Consultant: Projacs International

Contractor: SEG Qatar

Scope: Outdoor Lighting

Grand Heritage Hotel is a luxurious 5 stars Business class hotel in the heart of Aspire.

## Aspetar

Aspetar – Qatar Orthopedic and Sports Medicine Hospital, Doha, an orthopedic and sports medicine hospital. Aspetar aims to set new standards in the diagnosis and treatment of sports injuries and research. Our scope was for the design and supply of indoor lighting in the first hospital in the Middle East equipped completely with LED fixtures and complying to the international healthcare lighting Standards.

All the LED fixtures were with the highest level of CRI, which can get the true color of the patient's skin. The ambiance of this world class healthcare facility itself is a factor for faster recovery from the physical weakness and disruptions.

Project: Aspetar North Expansion

Client: Aspire

Consultant: Projacs

Contractor: Mechel Engineering WLL (Electro Mechanical)

Scope: Indoor Lighting Design & Supply

## Golf Administration Building

In the directions of going more into green & sustainable energy solutions, MOYS (QOC-Qatar Olympic Committee) made their vision to upgrade the conventional Lighting Design of their new administration building for golf course with a complete LED lighting solution.

Beyond Lighting was given a scope of work to design and supply of this Lighting package matching the international lighting standards.

In conclusion, the brief was to see a confident & satisfied client who has accomplished his vision by improving light levels and reducing the energy consumption by 46%, saving 80 tonnes of CO<sub>2</sub> per year and achieving an ROI payback of 2.4 years. Our lighting solutions met the highest standards of the green building concept from an environmental and aesthetic standpoint.

Project: Golf Administration Building

Client: Ministry of Youth & Sports

Consultant: Dar Al Handasah

Contractor: Imperial Trading & Contracting Company

Scope: Indoor & Outdoor Lighting Design & Supply

# Joint Command & Staff College

Project: Joint Command & Staff College

Client: Qatari Armed Forces

Consultant: Qatari Emiri Corps of Engineers

Contractor: Bianco Trading & Contracting

Scope: Indoor Lighting supply package

Project Background: The Qatar Armed Forces are the military forces of Qatar. Qatar's Joaan Bin Jassim Joint Command and Staff College was established in 2013 and is located in Al Wakra, south of Doha.

# Mall Of Qatar

Project: Mall Of Qatar Sky Lights

Client: Client Mercure Hotel

Consultant: Erga Qatar

Contractor: UCC

Scope: Sky Lights for Mercure Hotel

# Theater Park

Client: ASHGHAL
