OUR DETAILS ARE BETTER

DIY Honeycomb Series

Above 8 standard curved modules are equipped with a rigid light source, can be connected with straight profile for various shapes. With a small set of modules, create an uninterrupted lighting plan anytime, anywhere, integrated with the space design. Standard profile Size: W48xH80mm

CS01-04 modules can function as independent lighting fixture, also can be connected with each other for various circular shapes, or connected with straight profile to extend. R3 R4 means the radius is 300mm and 400mm, others radius could be customized.
Standard profile Size: W48xH80mm
