# Smart Classroom & Interactive Conference Room solutions

# Smart Classroom Education Display System

# Interactive Conference Display

## Conference Scenario Solution

### Writing White Board

Four basic functions: write, wipe, save and transfer.  
Write without borders, wipe by palm, save in one click,  
code scanning to take away.  
Make meeting minutes easily create and freely take.

### Wireless Screen Mirroring

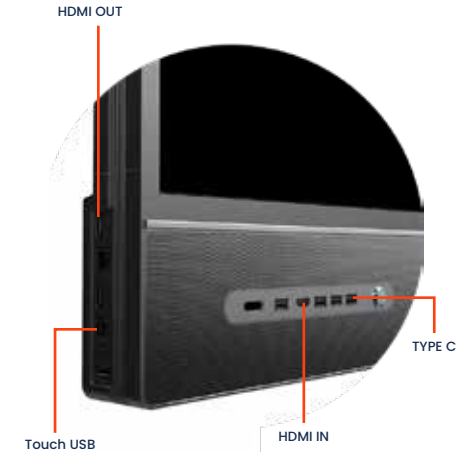

Rapid screen sharing across operating systems.  
Up to 16 split screens mirroring at the same time.  
Reverse screen mirroring for bidirectional operation.

### Document Management

Support mobile upload and USB Stick reading.  
Automatically classified management for multi-format  
diverse documents. Easily display, efficiently access.

### Video Conferencing

Applicable for all mainstream cloud meeting platforms.  
Allow for cross-platform and multi-terminal access,  
seamless connection and remote collaboration.  
Meeting recording, not missing every detail, let the meeting  
break the time and space limitations.

**Built-in Android,  
Windows Dual System**

# Glass LED & Transparent Film LED

# Glass LED & Transparent Film LED

## Glass LED

- High Transparency: Maintains clarity and visibility.
- Brightness achievable up to 6500 nits – 8000 nits
- Energy Efficiency: Low power consumption.
- Flexibility: Can be applied to curved glass surfaces.
- Durability: Resistant to physical damage and scratches.
- High Brightness: Visible in direct sunlight.
- AestheticallyPleasing: Provides a sleek and modern appearance.

## Film LED

- Flexibility: Can be applied to curved or irregular surfaces.
- Lightweight: Easy to install and transport.
- Energy Efficiency: Low power consumption.
- Durability : Resistant to weather conditions and physical damage.
- High Brightness: Visible in direct sunlight.
- Customizable: Can be cut to size and shape.
- Easy Installation : Simple to apply and remove.
- Better heat disipation

A woman with long braids, wearing a white crop top, is DJing from a white, boat-shaped booth. The booth is situated on a large digital floor screen displaying a blue, wavy water pattern. In the background, a wall of yellow shelves is filled with various sneakers. Several people are standing around the booth, some looking at their phones. The scene is set in a modern, brightly lit indoor space.

## Floor Rolling Display

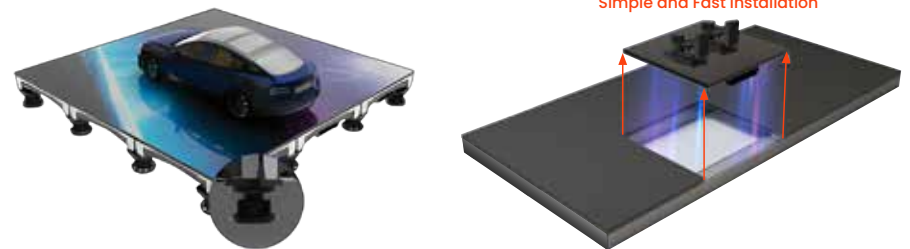

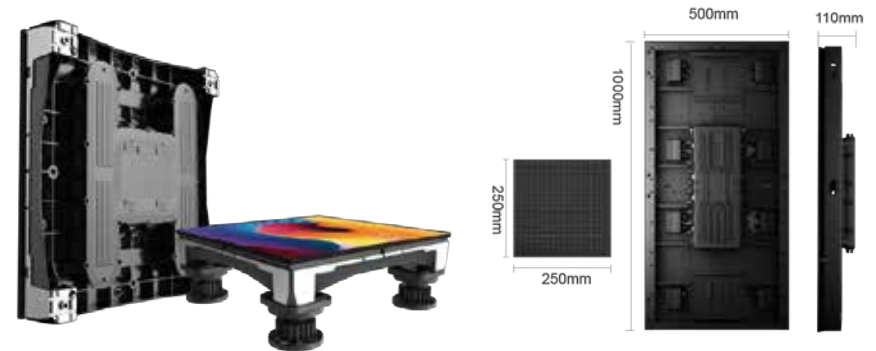

LED Rolling Floor

### Features

- Pixel Pitch option: P0.9, P1.2, P1.5, P1.9, P2.6, P3.9
- High precision seamless splicing
- Top protection GOB HD display
- Ultra wide viewing angle
- Low voltage 24V/DC input ensure safer use
- Exquisite structure ensures to bear more than 2.5 tons

## Floor Screen

### Features

- Interactive LED screen will bring users more realistic scene experience
- Smart Interaction: Advanced sensor chips create an immersive, dynamic experience space, offering a high-level, interactive adventure for tourists.
- Highest Protection Grade IP65
- High-Performance Load-Bearing
- Intelligent Control

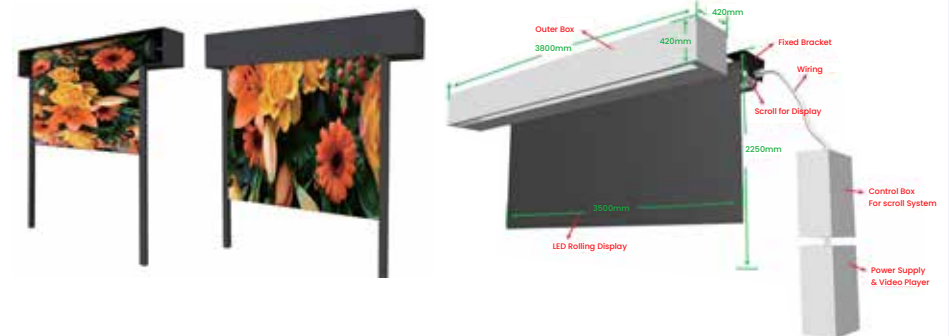

# Hanging Display

## Rolling Display

## Hanging Rolling Display

### Features

- Pixel Pitch option: P1.2, P1.5, P1.9, P2.6, P3.9
- One-key lifting system
- GOB technology, IK10 and IP63 (front) proof
- DC24V input for screen part, safety use
- Universal size can be customized

A large outdoor event stage at night. The stage is framed by a metal truss structure. A large central screen displays a desert landscape with palm trees and mountains. Two smaller screens on the sides show abstract purple and pink patterns. The stage is lit with blue spotlights from above. Palm trees are visible on either side of the stage. The foreground shows a dark, reflective surface.

# Indoor & Outdoor Rental Screen

# Rental Screen

## Pixel Pitch:

2.5mm / 2.6mm / 2.9mm / 3.9mm / 4mm

## Features

- Easy Installation & Packing
- Seamless Splicing, Super Wide Viewing Angle, Highly Accurate Brightness & Color Consistency
- Super High Refresh Rate, High Frame Frequency, No Ghosting & Twisting or Smear

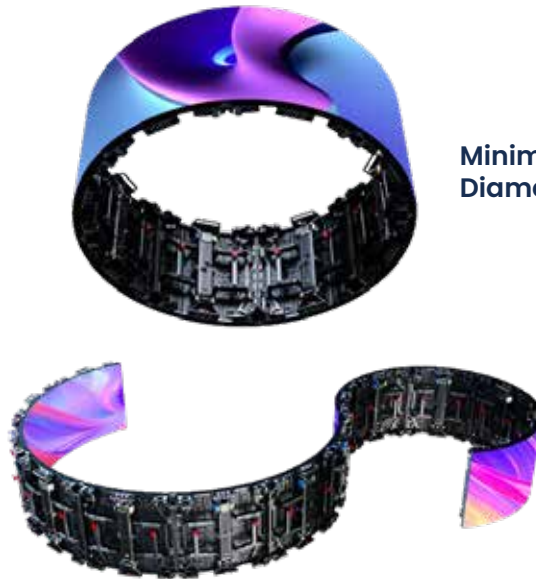

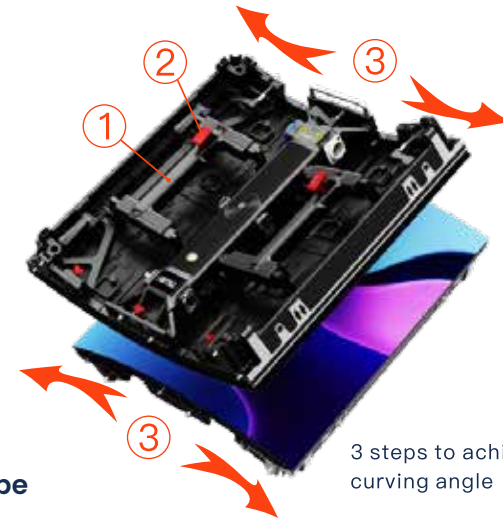

# Flexible Cabinet Screen

**Pixel Pitch:**

# Advertising Display

**Shelf LED Display**

**Taxi Display**

**Delivery Screen**

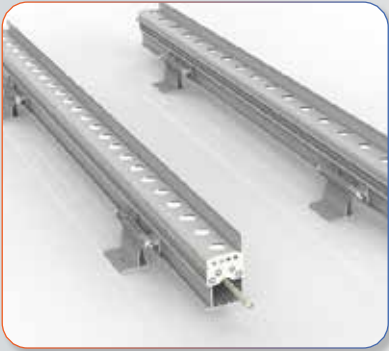

A large, ornate building with a prominent dome, illuminated at night. The building features classical architectural elements such as columns, arches, and a balcony. The lighting is warm and focused on the building's facade, highlighting its intricate details. The dome is the central focus, with a balcony and arched windows below it. The building is surrounded by trees, some of which are also illuminated. The overall scene is a nighttime architectural photograph.

**Elevator Screen**

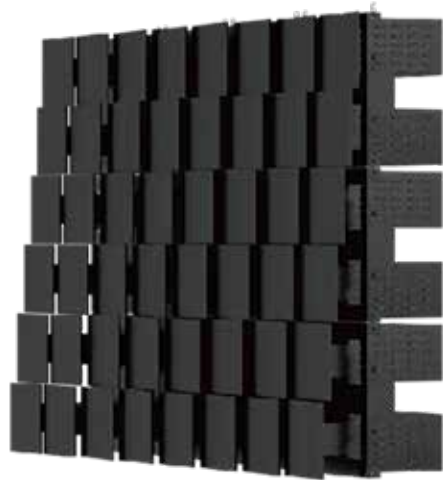

**Car Screen**

The background of the image is a dark, deep blue. It features a grid of glowing, semi-transparent blue squares that recede into the distance, creating a sense of depth. Overlaid on this grid is a pattern of white, stylized flowers or star-like shapes. Some of these shapes are larger and more prominent, while others are smaller and more numerous, creating a complex, layered visual effect. The overall aesthetic is high-tech and digital.

# **Specialized Display**

# Kinetic Screen

## Convenient Maintenance

## Modular Design

The indoor adopts the front maintenance which is convenient and quick. The outdoor adopts internal maintenance, which is safe and completely waterproof

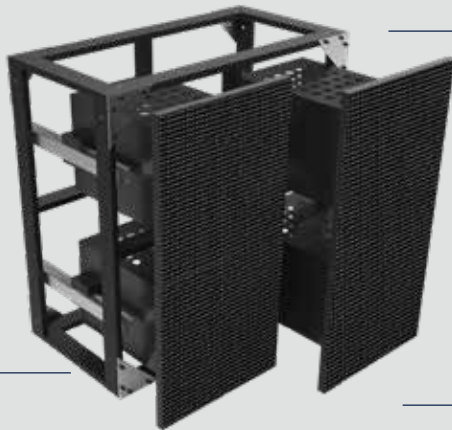

## Precision Machining Technology

Industrial-grade linear guide rails are used to ensure that the module gap is only 0.5mm

## Forward Stroke

The forward stroke can reach 300mm, which makes the 3D visual effect more realistic

## Modular Design

612mm x 257mm 8-in-1 independent die-casting aluminium cabinet, more accurate and faster installation

## Multiple Noise Reduction Design

Adopt closed-loop stepping drive system, effectively reduce 1/70 noise

## Front Maintenance Ultra-thin Design

Front maintenance ultra-thin design suitable for embedded compact installation
