## New Service Overview

As you see, all data were increased dramatically nowadays.

Also, our customers demand much more accurate data and trading

data every day. As a result, we got to introduce the new system that enables us to serve customers with better data, called K.I.S.S( Kap Intranet Service System ).

The main function of the new system is to create "Easy communication" between customers and us.

In addition, this system was designed for one-to-one communication which allows customers to get the immediate response from us on every business matter.

We have put a lot of effort to device this system because we truly respect your business style with us and we must not miss a word from you.

## New Partnership

This new system that enables us to hear your needs 24 hours a day and 7 days a week will create a closer and firmer relationships between you (precious customers) and us. If Korea Autoparts Co.,Ltd. has been a good business partner with you before, we are very confident to say that we will become the "Better Partner" because of this new system. For this system, the I.D. and Password will be provided for you to access to KISS exclusively.

Undoubtedly, you can track your orders process such as prices, shipping schedule, choice of parts and claims immediately by your internet.

## New Warehouse in Anyang City

In 2004, we have moved our headquarter and warehouse from Seoul to Anyang City; the location is 40 minute from Airport and Seaport.

From now on, once we have decided to despatch your container in the morning, you will discover the container in Pusan port at the night.

Unlike the previous location where we had limited space, we now have virtually unlimited space where we can immediately serve the needs of our customers.
