

**Automotive
Care & Equipment**
Prepared for every journey

Be road ready

100 YEARS
OSRAM
AUTOMOTIVE

Be road ready For every moment

Discover our wide range of products to help you stay moving, no matter what. From inspection lights to tyre and battery maintenance products, our automotive care & equipment range helps you to be well equipped for any journey.

1

Inspection lights

The LEDinspect® range includes a variety of handheld, wearable, and mounted LED inspection lights.

2

Tyre care

Get the optimum performance from tyres, even in tough conditions. With our devices you can check, inflate and seal tyres, wherever and whenever you need to.

3

Battery care

With a wide range of battery care and maintenance products to choose from, all your battery needs are taken care of.

4

Power inverters

Stay powered up on the road with our modified sine wave inverters.

5

Car accessories

Engineered for tough winter conditions, this powerful electric ice scraper clears windshields effortlessly with a rotating disc and touch activation. This rechargeable tool makes winter mornings a breeze.

6

Warning, safety and reading lights

Be ready for any roadside repair with the LEDguardian® warning and safety light range, and illuminate the vehicle interior with our reading lights.

High power:
OSRAM lamps provide a brighter, uniform wide angle light output compared with conventional LEDs.

1 Inspection lights

Directing light exactly where needed

LEDinspect® inspection lights are purpose-built for repairs and routine maintenance. Available in a variety of sizes and styles, from handheld and wearable to magnetic and hook-mounted lights, the range offers innovative solutions for every application. High-performance, long-lasting LEDs produce powerful cool-white light. And our ergonomic designs ensure light is delivered precisely where it's needed, illuminating the darkest corners and hard-to-reach areas.

IK09 Shock resistant:
IK09 is the maximum classification for protection provided by enclosures for electrical equipment against external impacts.

Multi-Positioning:
Allows you to easily direct light output exactly where you need it.

Hands-free:
Position light perfectly and easily using magnets, clips and hooks.

LEDinspect® WIRE-FREE PRO 600

LEDIL421

A bright inspection light with the possibility to simplify recharging via a magnetic charging pad.

Features

- Brightness: up to 600 lm (high), 100 lm (torch)
- Cool-white colour (up to 5 700 K)
- Multi-angle positioning: 180° flex
- Magnetic base, back and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP65, IK08

Benefits

- Battery charge status indicator, USB-C cable included
- Battery life: up to 10 h on torch, 3 h on high, 2 h charging time
- Magnetic "Wire-Free" charging via charging pad
- 2-year guarantee¹

LEDinspect® WIRE-FREE SLIM 600

LEDIL422

A bright inspection light with the possibility to simplify recharging via a magnetic charging pad.

Features

- Brightness: up to 600 lm (high), 100 lm (torch)
- Cool-white colour (up to 5 700 K)
- Multi-angle positioning: 180° flex and 270° twist
- Magnetic base, back and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP65, IK08

Benefits

- Battery charge status indicator, USB-C cable included
- Battery life: up to 10 h on torch, 3 h on high, 2 h charging time
- Magnetic "Wire-Free" charging via charging pad
- 2-year guarantee¹

LEDinspect® SINGLE CHARGE PAD

LEDIL423

A magnetic charging pad with one charge point to effortlessly charge one individual inspection light.

Features

- Wire-Free charging capability
- "Daisy Chain" function
- Different mounting options
- Powerful magnets
- One charging point to charge one product on a single base

Benefits

- Positive direct wire-free connection for charging
- Can link to another pad (single or duo) to charge more lamps
- Can attach to a wall or metal surface
- Can easily support inspection lamp on metal surface
- 2-year guarantee¹

LEDinspect® DUAL CHARGE PAD

LEDIL424

A magnetic charging pad with two charge points to effortlessly charge two individual inspection lights.

Features

- Wire-Free charging capability
- "Daisy Chain" function
- Different mounting options
- Powerful magnets
- Two charging points to charge two products on a single base

Benefits

- Positive direct wire-free connection for charging
- Can link to another pad (single or duo) to charge more lamps
- Can attach to a wall or metal surface
- Can easily support inspection lamp on metal surface
- 2-year guarantee¹

¹ For precise conditions please refer to www.osram.com/am-guarantee.

LEDinspect® SLIM MAX 1000

This versatile, rechargeable work light with an integrated dimmer allows you to adjust the brightness level to your liking.

LEDIL410

Features

- Brightness: up to 1000 lm (high), 100 lm (low), 100 lm (torch)
- Cool-white colour (up to 6 000 K)
- Multi-angle positioning: 120° flexibility
- Magnetic base, back and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP65, IK06

Benefits

- USB-C charging and charge status indicator
- Battery life: up to 10.5 h on low, 1.5 h on high
- 2-year guarantee¹

LEDinspect® SLIM 500

An ultra-flat, rechargeable folding light with three settings (high, low, and flashlight) and a non-slip, dirt-repellent surface.

LEDIL403

Features

- Brightness: up to 500 lm (high), 250 lm (low), 70 lm (torch)
- Cool-white colour (up to 6 000 K)
- Multi-angle positioning: 180° flex and 270° twist
- Magnetic base and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP54, IK07

Benefits

- USB-C charging and charge status indicator
- Battery life: up to 6 h on low, 3.5 h on high
- 2-year guarantee¹

LEDinspect® POCKET 200

A slim and lightweight rechargeable light with foldable design for working in confined and hard-to-reach spaces.

LEDIL408

Features

- Brightness: up to 200 lm (high), 80 lm (low), 40 lm (torch)
- Cool-white colour (up to 6 500 K)
- Multi-angle positioning: 180° flex and 360° twist
- Magnetic base
- Dust, water, and shock resistant
- Protection classes: IP20, IK07

Benefits

- USB-C charging and charge status indicator
- Battery life: up to 3 h on low, 1.5 h on high
- 2-year guarantee¹

LEDinspect® MAX 500

A rechargeable light with two standard LED light settings as well as a UV torchlight setting for leak detection.

LEDIL402

Features

- Brightness: up to 500 lm (high), 250 lm (low)
- Cool-white colour (up to 6 000 K)
- Multi-angle positioning: 180° flex and 360° twist
- Magnetic base and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP65, IK08

Benefits

- USB-C charging and charge status indicator
- Battery life: up to 7.5 h on low, 4.5 h on high
- UV-light function (1 LED + 1 UV LED)
- 2-year guarantee¹

LEDinspect® MINI 250

A rechargeable light with three settings (high, low, and flashlight) and a non-slip, dirt-repellent surface.

LEDIL401

Features

- Brightness: up to 250 lm (high), 130 lm (low), 70 lm (torch)
- Cool-white colour (up to 6 000 K)
- Multi-angle positioning: 180° flex
- Magnetic base and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP65, IK06

Benefits

- USB-C charging and charge status indicator
- Battery life: up to 6 h on low, 3 h on high
- 2-year guarantee¹

LEDinspect® TWIST 250

A lightweight and robust light with three output levels and twist function for full control over the direction of the light beam.

LEDIL412

Features

- Brightness: up to 250 lm (high), 125 lm (low), 80 lm (torch)
- Cool-white colour (up to 6 000 K)
- Multi-angle positioning: 120° flex and 360° twist
- Magnetic base, back and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP20, IK09

Benefits

- Charging plug and cable included
- Battery life: up to 4 h on low, 3 h on high
- 2-year guarantee¹

LEDinspect® UTILITY 1000

A multi-functional inspection light with varying output levels suitable for handheld, flood light, or underbonnet applications.

LEDIL407

Features

- Brightness: up to 1000 lm (high), 400 lm (low)
- Cool-white colour (up to 6 500 K)
- Multi-angle positioning: 180° flex and 360° twist
- Magnetic base, back and hanging hook
- Dust, water, and shock resistant
- Protection classes: IP20, IK07

Benefits

- 2 x charging plugs and charge status indicator
- Battery life: up to 5.5 h on low, 2.5 h on high
- 2-year guarantee¹

LEDinspect® RECHARGEABLE UNDERBONNET LIGHT

An engine compartment light with rotating light bar, extendable mounting rod with soft padded feet, and lightweight design to avoid damage to vehicles.

LEDIL415

Features

- Brightness: up to 1200 lm (high), 600 lm (low)
- Cool-white colour (up to 6 500 K)
- Multi-angle positioning: 360° lightbar rotation
- Extendable up to 1.8 m
- Dust, water, and shock resistant
- Protection classes: IP65, IK07

Benefits

- USB-C charging and charge status indicator
- Battery life: up to 4.5 h on low, 2 h on high
- 2-year guarantee¹

¹ For precise conditions please refer to www.osram.com/am-guarantee.

¹ For precise conditions please refer to www.osram.com/am-guarantee.

LEDinspect® FLEXIBLE INSPECTION LIGHT

LEDIL416

A versatile inspection light, directing the light where needed. The light strip is fully flexible, allowing the light to bend around the workspace.

Features

- Brightness: up to 1000 lm (high), 400 lm (low) plus a red light option
- Multi-angle positioning: 160° twist
- Removable elasticated straps with hooks – extendable length up to 2.1 m
- Magnets offer more fixing options
- Dust, water, and shock resistant
- Protection classes: IP52, IK07

Benefits

- USB-C cable included
- Battery life: up to 20 h on low, 6.5 h on medium, 3 h high
- Flexible design
- 2-year guarantee¹

LEDinspect® HEADTORCH 250

LEDIL404

A high-quality head lamp with two output levels, motion sensor, and adjustable strap with soft padding for optimal comfort.

Features

- Brightness: up to 250 lm (high), 140 lm (low)
- Cool-white colour (up to 5 700 K)
- Multi-angle positioning: 60° flex
- Dust, water, and shock resistant
- Protection classes: IP54, IK08

Benefits

- USB-C charging
- Battery life: up to 6 h on low, 3.5 h on high
- Integrated motion sensor technology
- 2-year guarantee¹

LEDinspect® WEARABLE NECK LIGHT

LEDIL413

A rechargeable neck light with two detachable torches, two light settings, and built-in magnet allows for convenient hands-free working.

Features

- Brightness: up to 265 lm (high), 130 lm (low)
- Cool-white colour (up to 6 500 K)
- Multi-angle positioning: 90° flex
- Built-in magnet for off-person mounting
- Dust, water, and shock resistant
- Protection classes: IP54, IK07

Benefits

- 2 x USB Micro B charging ports
- Battery life: up to 4.5 h on low, 3 h on high
- Separately powered torches with power button on each
- 2-year guarantee¹

LEDinspect® FLEXIBLE HEAD TORCH

LEDIL414

A head lamp with two light levels, flashing red rear LED warning light for safety and flexible, foldable design for easy storage and transport.

Features

- Brightness: up to 115 lm (high), 50 lm (low) and flashing
- Cool-white colour (up to 6 000 K)
- Flexible and foldable
- Rear red warning light
- Dust, water, and shock resistant
- Protection classes: IP42, IK07

Benefits

- USB Micro B charging
- Battery life: up to 5.5 h on low, 4.5 h on high
- 2-year guarantee¹

LEDinspect® POCKET 110 ESSENTIAL

LEDIL425ESN

A practical inspection light, with a magnet and a swivel pocket clip for working hands-free.

Features

- Brightness: up to 110 lm (high)
- Cool-white colour (up to 6 500 K)
- Swivel pocket clip and integrated magnet
- Protection classes: IP20

Benefits

- Powered by 3 x AAA batteries
- Battery life: up to 7 h
- 2-year guarantee¹

LEDinspect® TASK 180 ESSENTIAL

LEDIL426ESN

A practical inspection light, with a magnet and a rotating hook for working hands-free.

Features

- Brightness: up to 180 lm (high)
- Cool-white colour (up to 6 500 K)
- 360-degree rotating hook and integrated magnet
- Protection classes: IP20

Benefits

- Powered by 3 x AA batteries
- Battery life: up to 5 h
- 2-year guarantee¹

Flexibility:

Portable tyre inflators are handy, light and, thanks to their compact dimensions, easy to store and transport.

2 Tyre care

Portable compressors and sealants for at home and on the go

With the tyre inflators from OSRAM, maintaining car tyres is easier than ever. Drivers can now quickly and easily check the pressure of their tyres themselves and adjust it if necessary. Maintaining tyre pressure regularly helps keeping control of the vehicle on the road. Furthermore, the optimal tyre pressure prevents increased abrasion and can therefore prolong the replacement cycles for tyres.

Wind-up cable:

Winding / unwinding mechanism for a neatly rolled up cable.

No tools required:

Inflate your tyres quickly and easily.

Including adaptors kit:

To inflate bicycles, balls and other inflatables.

TYREinflate 200

OTI200

An analogue tyre inflator suitable to inflate a 13" tyre in 4.5 minutes.¹

Features

- 50 mm analogue pressure gauge
- Inflates a tyre from flat in 4.5 minutes¹
- Valve cap storage compartment
- Flexible 50 cm air hose with easy access storage
- 3 m long wind-up power cable with fused 12 V DC plug

Benefits

- Easy to read with clear range indicator of the most common tyre pressures
- Complete with three-piece adaptor kit to inflate bicycles, balls and other inflatables
- Securely storing valve caps during inflation
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 400

OTI400

A digital tyre inflator suitable to inflate a 13" tyre in 3.5 minutes.¹

Features

- Digital display with memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 3.5 minutes¹
- Valve cap storage compartment
- Flexible 50 cm air hose with easy access storage
- 3 m long wind-up power cable with fused 12 V DC plug

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with three-piece adaptor kit to inflate bicycles, balls and other inflatables
- Securely storing valve caps during inflation
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 450

OTI450

A digital tyre inflator with auto-stop suitable to inflate a 13" tyre in 3.5 minutes.¹

Features

- Digital display with memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 3.5 minutes¹
- Auto-Stop function and valve cap storage compartment
- Flexible 50 cm air hose with easy access storage
- 3 m long wind-up power cable with fused 12 V DC plug

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with three-piece adaptor kit to inflate bicycles, balls and other inflatables
- Stops inflating when target pressure reached
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 1000

OTI1000

A digital tyre inflator with auto-stop suitable to inflate a 13" tyre in 2 minutes.¹

Features

- Digital display with status bar and memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 2 minutes¹
- Auto-Stop function and valve cap storage compartment
- Flexible 70 cm air hose with easy access storage
- 3.5 m long wind-up power cable with fused 12 V DC plug

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with three-piece adaptor kit to inflate bicycles, balls and other inflatables
- Stops inflating when target pressure reached
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

¹ Measurements of the tyre pressure and inflation of the tyres to the optimum tyre pressure must always be conducted on cold tyres. Inflation time guide based on inflating a 13" tyre to 2.4 BAR. ² For precise conditions please refer to www.osram.com/am-guarantee.

TYREinflate 2000

OTIR2000

A digital, cordless and rechargeable tyre inflator with auto-stop suitable to inflate a bicycle tyre in 2 minutes.¹

Features

- Digital display with memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 2 minutes¹
- Auto-Stop function
- Flexible 14.5 cm air hose with easy access storage
- Rechargeable via USB power cable

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with two-piece adapter set, bike mount and storage bag
- Stops inflating when target pressure reached
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 4000

OTIR4000

A digital, cordless and rechargeable tyre inflator with auto-stop suitable to inflate a 13" tyre in 3.5 minutes.³

Features

- Digital display with memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 3.5 minutes³
- Auto-Stop function
- Flexible 60 cm air hose with easy access storage
- Rechargeable via USB power cable

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with three-piece adaptor kit to inflate bicycles, balls and other inflatables
- Stops inflating when target pressure reached
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 6000

OTIR6000

A digital, cordless and rechargeable tyre inflator with auto-stop suitable to inflate a 13" tyre in 2 minutes.³

Features

- Digital display with status bar and memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 2 minutes³
- Auto-Stop function and valve cap storage compartment
- Flexible 70 cm air hose with easy access storage
- 3.5 m long power cable with fused 12 V DC plug and additional 230 V AC power cable included for recharging

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with 10-piece adaptor kit, 4 spare valve caps, 1 spare fuse and 1 pair of gloves
- Stops inflating when target pressure reached
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 830

OTI830

A digital tyre inflator with auto-stop suitable to inflate a 13" tyre in 2 minutes or a 22" tyre in 5 minutes.¹⁴

Features

- Digital display with status bar and memory setting showing pressure readings in BAR, kPA and PSI
- Inflates a tyre from flat in 2 minutes¹/ 5 minutes⁴
- Auto-Stop function
- Flexible 85 cm air hose with easy access storage
- 4 m long power cable with fused 12 V DC plug

Benefits

- Improved reading or pressure settings with illumination in dark environments
- Complete with three-piece adaptor kit to inflate bicycles, balls and other inflatables
- Stops inflating when target pressure reached
- Designed to reduce kinks, preventing unnecessary wear and tear
- 2-year guarantee²

TYREinflate 10 ESSENTIAL

OFP10ESN

A reliable, single-barrel foot pump for all your inflation needs.

Features

- Analogue pressure gauge
- Single 120 mm cylinder
- Flexible 60 cm air hose
- Rubber footpad and strong metal frame

Benefits

- Easy to read gauge in PSI and BAR
- Complete with four-piece adaptor kit to inflate bicycles, balls and other inflatables
- 2-year guarantee¹

TYREinflate 20 ESSENTIAL

OFP20ESN

A reliable, double-barrel foot pump for all your inflation needs.

Features

- Analogue pressure gauge
- Double 120 mm cylinder
- Flexible 60 cm air hose
- Rubber footpad and strong metal frame

Benefits

- Easy to read gauge in PSI and BAR
- Complete with four-piece adaptor kit to inflate bicycles, balls and other inflatables
- 2-year guarantee¹

¹ Inflation time based on a bicycle tyre from 0 to 5.5 BAR. ² For precise conditions please refer to www.osram.com/am-guarantee. ³ Measurements of the tyre pressure and inflation of the tyres to the optimum tyre pressure must always be conducted on cold tyres. Inflation time guide based on inflating a 13" tyre to 2.4 BAR. ⁴ Measurements of the tyre pressure and inflation of the tyres to the optimum tyre pressure must always be conducted on cold tyres. Inflation time guide based on inflating a 22" tyre to 2.6 BAR.

¹ Measurements of the tyre pressure and inflation of the tyres to the optimum tyre pressure must always be conducted on cold tyres. Inflation time guide based on inflating a 13" tyre to 2.4 BAR.

¹ Measurements of the tyre pressure and inflation of the tyres to the optimum tyre pressure must always be conducted on cold tyres. Inflation time guide based on inflating a 13" tyre to 2.4 BAR. ² Inflation time based on a bicycle tyre from 0 to 5.5 BAR.

TYREseal KIT

A tyre sealant kit including a 450 ml TYREseal bottle as well as an analogue tyre inflator and handy storage case.

OTSK4

Features

- Flat tyre repair kit with sealant, tyre inflator & storage case
- TPMS (Tyre Pressure Monitoring System) safe
- Made to OE specification
- No tools required – no need to remove the valve core
- Can seal punctures up to 6 mm wide¹

Benefits

- Quick seal solution – be on the road in 10 minutes
- Perfect replacement for the original kit that came with the vehicle
- Drive for up to 200 km
- Made with Particle Gel Sealant technology
- 2-year guarantee²

TYREseal 450

OTSB450

A flat tyre sealant suitable to be used with most tyre inflators.

Features

- TPMS (Tyre Pressure Monitoring System) safe
- Made to OE specification
- No tools required – no need to remove the valve core
- Can seal punctures up to 6 mm wide¹

Benefits

- Quick seal solution – be on the road in 10 minutes
- Perfect replacement for the original sealant that came with the vehicle
- Drive for up to 200 km
- Made with Particle Gel Sealant technology
- 2-year guarantee²

TYREseal KIT ESSENTIAL

A tyre sealant kit including a 450 ml TYREseal bottle as well as an analogue tyre inflator and handy storage case.

OTSK6ESN

Features

- Flat tyre repair kit with sealant, tyre inflator & storage case
- TPMS (Tyre Pressure Monitoring System) safe
- Made to OE specification
- No tools required – no need to remove the valve core
- Can seal punctures up to 6 mm wide¹

Benefits

- Quick seal solution – be on the road in 10 minutes
- Perfect replacement for the original kit that came with the vehicle
- Drive for up to 200 km
- Made with Particle Gel Sealant technology
- 2-year guarantee²

TYREseal ESSENTIAL

A flat tyre sealant suitable to be used with most tyre inflators.

OTS4502ESN

Features

- TPMS (Tyre Pressure Monitoring System) safe

Start/Stop compatible:

Suitable for vehicles with Start/Stop system.

BATTERYcharge

Keeping vehicle batteries charged and ready

Automotive batteries require regular maintenance. This is especially true for cars that are not driven daily or stand parked for long periods of time, as power is discharged continuously when not in use – particularly in the cold winter months. Performing a routine inspection at least once a month can help maximize service life so you're always ready for the road.

Keep your battery charged at optimum levels with our range of premium-quality battery charging and maintenance devices. Whether with our smart chargers, solar power battery maintainers or charging cables for electric vehicles, your battery will stay in peak condition year-round.

3 Battery care

For all your battery needs

Our OSRAM BATTERYcare product range provides the ideal conditions for a vehicle's battery. Given the advanced electronic systems in modern cars, you need high-quality chargers that you can rely on. Our products cover a wide range of battery care and maintenance applications, for both 12 V and 24 V vehicles.

Rapid recharge:
A battery charging mode that reaches full charge in a few minutes.

Winter mode:
OSRAM BATTERYcharge products protect batteries at low temperatures.

Versatile:
Suitable for a wide range of battery types, including lithium, as well as for batteries in electric and hybrid vehicles.

BATTERYstart

The power to handle many situations

It's cold, you're late, and your car won't start – for most drivers, it's an all too familiar feeling. Whether caused by freezing temperatures, parking for extended periods or leaving your lights on, a dead battery always causes frustration. Don't let a dead battery spoil your day.

Our range of battery starters puts the power in your hands, so you can prevent being caught off-guard and unprepared.

BATTERYcharge 901

OEBCS901

A 1 A smart battery charger and maintainer suitable for providing power to recharge smaller batteries.

Features

- 1 A charging capacity
- Plugs directly into 230 V socket
- For 6 V and 12 V vehicles – ability to select the voltage to match the vehicle
- Up to 1.2 l engine size
- Start/Stop compatible

Benefits

- Automatically adjusts to long-term maintenance mode when battery is full
- 9 Stage charging process for Lead Acid/AGM, 7 Stage Lithium charge profile
- Clamps and O-Rings included in scope of supply for long term connection and difficult to access areas
- Reverse polarity and short-circuit protection
- 2-year guarantee¹

BATTERYcharge 904

OEBCS904

A 4 A smart battery charger and maintainer suitable for providing power to recharge smaller batteries.

Features

- 4 A charging capacity with up to 2 A or 4 A charge rate selection
- Plugs directly into 230 V socket
- For 6 V and 12 V vehicles – ability to select the voltage to match the vehicle
- 90 Ah charging and 140 Ah maintenance mode – perfect for most motorbikes and small engine vehicles
- Start/Stop compatible

Benefits

- Automatically adjusts to long-term maintenance mode when battery is full
- 9 Stage charging process for Lead Acid/AGM, 7 Stage Lithium charge profile
- Clamps and O-Rings included in scope of supply for long term connection and difficult to access areas
- Reverse polarity and short-circuit protection
- 2-year guarantee¹

BATTERYcharge 906

OEBCS906

A 6 A smart battery charger and maintainer suitable for providing power to recharge larger batteries.

Features

- 6 A charging capacity with up to 3 A or 6 A charge rate selection
- Plugs directly into 230 V socket
- For 6 V and 12 V vehicles – ability to select the voltage to match the vehicle
- 110 Ah charging and 160 Ah maintenance mode – suitable for most cars and vans
- Start/Stop compatible

Benefits

- Automatically adjusts to long-term maintenance mode when battery is full
- 9 Stage charging process for Lead Acid/AGM, 7 Stage Lithium charge profile
- Clamps and O-Rings included in scope of supply for long term connection and difficult to access areas
- Reverse polarity and short-circuit protection
- 2-year guarantee¹

BATTERYcharge 908

OEBCS908

A 8 A smart battery charger and maintainer suitable for providing power to recharge larger batteries.

Features

- 8 A charging capacity with up to 4 A or 8 A charge rate selection
- Plugs directly into 230 V socket
- For 12 V and 24 V vehicles – ability to select the voltage to match the vehicle
- 12 V up to 150 Ah charging and 24 V up to 70 Ah charging – suitable for most cars, vans and small trucks
- Start/Stop compatible

Benefits

- Automatically adjusts to long-term maintenance mode when battery is full
- 9 Stage charging process for Lead Acid/AGM, 7 Stage Lithium charge profile
- Clamps and O-Rings included in scope of supply for long term connection and difficult to access areas
- Reverse polarity and short-circuit protection
- 2-year guarantee¹

BATTERYcharge 405 ESSENTIAL

OEBCS405ESN

A 5 A smart battery charger and maintainer suitable for providing power to recharge smaller batteries.

Features

- 5 A charging capacity with up to 2 A or 5 A charge rate selection
- Plugs directly into 230 V socket
- For 6 V and 12 V vehicles – ability to select the voltage to match the vehicle
- 90 Ah charging and 140 Ah maintenance mode - perfect for most motorbikes and small engine vehicles
- Start/Stop compatible

Benefits

- Compact design with clear LCD display and single button operation
- Clamps included in scope of supply for long term connection
- Reverse polarity and short-circuit protection
- 2-year guarantee¹

BATTERYcharge SOLAR 5W

A 5 W solar panel to maintain the vehicle's battery, perfect for vehicles that remain idle for extended periods.

OSP500

Features

- Micro crystalline cell solar panels in robust aluminium frame
- Provides up to 5 W of free solar power to maintain your battery
- Superior efficient power performance to amorphous cell models
- 12 V battery charging
- Voltage (@Pmax) 18 V / Current (@Pmax) 0.28 A

Benefits

- Polarity protection
- Works best in direct sunlight but can work in sufficient daylight in overcast conditions
- IP65 Water resistant
- Supplied with 3 m length cable, 12 V DC power plug and battery clips
- 2-year guarantee¹

BATTERYcharge SOLAR 10W

A 10 W solar panel to maintain the vehicle's battery, perfect for vehicles that remain idle for extended periods.

OSP1000

Features

- Micro crystalline cell solar panels in robust aluminium frame
- Provides up to 10 W of free solar power to maintain your battery
- Superior efficient power performance to amorphous cell models
- 12 V battery charging
- Voltage (@Pmax) 18 V / Current (@Pmax) 0.56 A

Benefits

- Polarity protection
- Works best in direct sunlight but can work in sufficient daylight in overcast conditions
- IP65 Water resistant
- Supplied with 3 m length cable, 12 V DC power plug and battery clips
- 2-year guarantee¹

BATTERYcharge SOLAR 20W

A 20 W solar panel to maintain the vehicle's battery, perfect for vehicles that remain idle for extended periods.

OSP2000

Features

- Micro crystalline cell solar panels in robust aluminium frame
- Provides up to 20 W of free solar power to maintain your battery
- Superior efficient power performance to amorphous cell models
- 12 V battery charging
- Voltage (@Pmax) 18 V / Current (@Pmax) 1.11 A

Benefits

- Polarity protection
- Works best in direct sunlight but can work in sufficient daylight in overcast conditions
- IP65 Water resistant
- Supplied with 3 m length cable, 12 V DC power plug and battery clips
- 2-year guarantee¹

BATTERYcharge Cable

A 2 m long cable for easy access to OBDII port.

OSPOBD

Features

- Connects your solar panel to your battery via your vehicles OBDII port
- More efficient connection between solar panel and battery
- 2 A fuse
- UV resistant cable
- Provides a permanent "On" link between a solar panel and your battery for long-term battery maintenance

Benefits

- Suitable for use with all OSRAM solar panels
- Easy to install
- Durable cable for long life
- 2-year guarantee¹

BATTERYcharge
7PIN | 1PHASE | 16 AMP

A 1-phase, 16 A charging cable for electric vehicles.

OCC21605

Features

- 1-phase
- Type 2 to Type 2 connection
- Charging power 16 A up to 3.6 kWh
- Length 5 m
- Handles equipped with protection caps to prevent dust and water ingress
- Protection classes: IP65, IK10

Benefits

- Compliant for fully electric vehicles and for plug in hybrid vehicles
- Resistant and robust, with EVA case for easy transport, storage and protection against damage
- Up to 20 000 hours life cycle
- 2-year guarantee¹

BATTERYcharge
7PIN | 1PHASE | 32 AMP

A 1-phase, 32 A charging cable for electric vehicles.

OCC23205

Features

- 1-phase
- Type 2 to Type 2 connection
- Charging power 32 A up to 7.2 kWh
- Length 5 m
- Handles equipped with protection caps to prevent dust and water ingress
- Protection classes: IP65, IK10

Benefits

- Compliant for fully electric vehicles and for plug in hybrid vehicles
- Resistant and robust, with EVA case for easy transport, storage and protection against damage
- Up to 20 000 hours life cycle
- 2-year guarantee¹

BATTERYcharge
7PIN | 3PHASE | 16 AMP

A 3-phase, 16 A charging cable for electric vehicles.

OCC21P05

Features

- 3-phase
- Type 2 to Type 2 connection
- Charging power 16 A up to 11 kWh
- Length 5 m
- Handles equipped with protection caps to prevent dust and water ingress
- Protection classes: IP65, IK10

Benefits

- Compliant for fully electric vehicles and for plug in hybrid vehicles
- Resistant and robust, with EVA case for easy transport, storage and protection against damage
- Up to 20 000 hours life cycle
- 2-year guarantee¹

BATTERYcharge
7PIN | 3PHASE | 32 AMP

A 3-phase, 32 A charging cable for electric vehicles.

OCC23P05

Features

- 3-phase
- Type 2 to Type 2 connection
- Charging power 32 A up to 22 kWh
- Length 5 m
- Handles equipped with protection caps to prevent dust and water ingress
- Protection classes: IP65, IK10

Benefits

- Compliant for fully electric vehicles and for plug in hybrid vehicles
- Resistant and robust, with EVA case for easy transport, storage and protection against damage
- Up to 20 000 hours life cycle
- 2-year guarantee¹

BATTERYcharge
7PIN | PORTABLE | 6/10/16 AMP

A portable, 6/10/16 A charging cable for electric vehicles to use without a wall box.

OPC20A05

Features

- Compatible with a 2-PIN socket using the Schuko plug – charge wherever you have access to a 230 V socket
- Type 2 to Type 2 connection
- Variable charging currents of 6 A/10 A/16 A and rates of 1.3/2.2/3.6 kWh
- Length 5 m
- Handles equipped with protection caps to prevent dust and water ingress
- Protection classes: IP65, IK10

Benefits

- Compliant for fully electric and plug-in hybrid vehicles
- Resistant and robust, with EVA case for easy transport, storage and protection against damage
- Up to 20 000 hours life cycle
- 2-year guarantee¹

BATTERYstart 200

OBSL200

Compact and powerful lithium jump starter with power bank feature to jump start vehicles with up to 3 l (petrol).

Features

- A compact lithium starter – easy to carry, use and store
- 6 000 mAh battery – for small to medium cars and vans up to 3 l (petrol)
- Power bank function, fast charging USB – charge a device on the go
- 2 h recharge time – have fully charged and ready to use quickly

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Includes integrated LED torch with flashing function to attract attention or to illuminate engine bay in low light conditions or at night
- Intelligent clamps safely manage power between the jump starter and vehicle
- 2-year guarantee¹

BATTERYstart 300

OBSL300

Compact and powerful lithium jump starter with power bank feature to jump start vehicles with up to 6 l (petrol) and 3 l (diesel).

Features

- A compact lithium starter – easy to carry, use and store
- 13 000 mAh battery – for small to medium cars and vans up to 6 l (petrol) and 3 l (diesel)
- Power bank function, 2 x USB charging sockets – charge 2 devices on the go
- 3 h recharge time – have fully charged and ready to use quickly
- 4 cell lithium battery – delivers a higher starting voltage

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Includes integrated LED torch with flashing function to attract attention or to illuminate engine bay in low light conditions or at night
- Intelligent clamps safely manage power between the jump starter and vehicle
- 2-year guarantee¹

BATTERYstart 400

OBSL400

Compact and powerful lithium jump starter with power bank feature to jump start vehicles with up to 8 l (petrol) and 4 l (diesel).

Features

- A compact lithium starter – easy to carry, use and store
- 16 800 mAh battery – for small to medium cars and vans up to 8 l (petrol) and 4 l (diesel)
- Power bank function, 2 x USB charging sockets – charge 2 devices on the go
- 4 h recharge time – have fully charged and ready to use quickly
- 12 V socket output – power 12 V products for leisure and work

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Includes integrated LED torch with flashing function to attract attention or to illuminate engine bay in low light conditions or at night
- Intelligent clamps safely manage power between the jump starter and vehicle
- 2-year guarantee¹

BATTERYjumpstart 500

OJS010

Compact and powerful lithium jump starter with "boost"-function for fully discharged batteries to jump start vehicles with up to 3 l (petrol) and 1.5 l (diesel) from flat.

Features

- A compact lithium starter – easy to carry, use and store
- 6 000 mAh battery – for small to medium cars and vans up to 3 l (petrol) and 1.5 l (diesel)
- Power bank function, fast charging USB – charge a device on the go
- Integrated "controlled start" boost – jump start batteries from 0V

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Includes integrated LED torch with flashing function to attract attention or to illuminate engine bay in low light conditions or at night
- Intelligent clamps safely manage power between the jump starter and vehicle
- 2-year guarantee¹

BATTERYjumpstart 1000

OJS020

Compact and powerful lithium jump starter with "boost"-function for fully discharged batteries to jump start vehicles with up to 5 l (petrol) and 2 l (diesel) from flat.

Features

- A compact lithium starter – easy to carry, use and store
- 8 000 mAh battery – for small to medium cars and vans up to 5 l (petrol) and 2 l (diesel)
- Power bank function, fast charging USB – charge a device on the go
- Integrated "controlled start" boost – jump start batteries from 0V

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Includes integrated LED torch with flashing function to attract attention or to illuminate engine bay in low light conditions or at night
- Intelligent clamps safely manage power between the jump starter and vehicle
- 2-year guarantee¹

BATTERYjumpstart 1500

OJS030

Compact and powerful lithium jump starter with "boost"-function for fully discharged batteries to jump start vehicles with up to 6 l (petrol) and 3 l (diesel) from flat.

Features

- A compact lithium starter – easy to carry, use and store
- 12 000 mAh battery – for small to medium cars and vans up to 6 l (petrol) and 3 l (diesel)
- Power bank function, fast charging USB – charge a device on the go
- Integrated "controlled start" boost – jump start batteries from 0V

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Includes integrated LED torch with flashing function to attract attention or to illuminate engine bay in low light conditions or at night
- Intelligent clamps safely manage power between the jump starter and vehicle
- 2-year guarantee¹

BATTERYjumpstart 1000TI

OJS020TI

A versatile device perfect for jumpstarting fully discharged batteries and inflating tyres to the correct pressure.

Features

- Starts petrol vehicles up to 5 l and 3 l diesel with integrated "controlled start" boost – jump start batteries from 0V
- Inflates a tyre from flat in 2.5 minutes²
- Integrated LED light (torch, red flashing and strobe)
- Power bank function

Benefits

- Reverse polarity, short circuit and anti-spike protection
- Rechargeable via USB-C
- Accessories included – USB-A to USB-C cable, inflator accessories and storage case
- 2-year guarantee¹

BATTERYstart STARTERcable 150A

A range of starter cables for a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle.

OSC060

Features

- Suitable for starting vehicles with a petrol engine with capacity ≤ 1.6 l
- Peak Amps 150 A
- Continuous amp rating 75 A
- Length 2.5 m
- Cross section area 6 mm²

Benefits

- Suitable for voltages of 6 V and 12 V
- Copper Coated Aluminum
- Colour coded, insulated cable, handles and clamps
- 2-year guarantee¹

BATTERYstart STARTERcable 200A

A range of starter cables for a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle.

OSC101

Features

- Suitable for starting vehicles with a petrol engine with capacity ≤ 2.0 l
- Peak Amps 200 A
- Continuous amp rating 100 A
- Length 3 m
- Cross section area 8.5 mm²

- Colour coded, insulated cable, handles and clamps
- 2-year guarantee¹

BATTERYstart STARTERcable 300A

A range of starter cables for a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle.

OSC160

Features

- Suitable for starting vehicles with a petrol and diesel engines with capacity ≤ 3.5 l
- Peak Amps 300 A
- Continuous amp rating 150 A
- Length 3 m
- Cross section area 16 mm²

Benefits

- Suitable for voltages of 6 V and 12 V
- Copper Coated Aluminum
- Colour coded, insulated cable, handles and clamps
- 2-year guarantee¹

BATTERYstart STARTERcable 700A

A range of starter cables for a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle.

OSC250A

Features

- Suitable for starting vehicles with a petrol and diesel engines with capacity ≤ 5.5 l
- Peak Amps 700 A
- Continuous amp rating 350 A
- Length 3.5 m
- Cross section area 25 mm²

Benefits

- Suitable for voltages of 12 V and 24 V
- Copper Coated Aluminum
- Colour coded, insulated cable, handles and clamps
- 2-year guarantee¹

BATTERYstart STARTERcable 900A

A range of starter cables for a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle.

OSC350A

Features

- Suitable for starting vehicles with a petrol and diesel engines with capacity ≤ 7.0 l
- Peak Amps 900 A
- Continuous amp rating 450 A
- Length 4.5 m
- Cross section area 35 mm²

Benefits

- Suitable for voltages of 12 V and 24 V
- Copper Coated Aluminum
- Colour coded, insulated cable, handles and clamps
- 2-year guarantee¹

BATTERYstart STARTERcable 1200A

A range of starter cables for a quick and easy solution to rapidly transfer the battery power between a donor and a receiver vehicle.

OSC500A

Features

- Suitable for starting vehicles with a petrol and diesel engines with capacity ≤ 9.5 l
- Peak Amps 1200 A
- Continuous amp rating 600 A
- Length 5 m
- Cross section area 50 mm²

Benefits

- Suitable for voltages of 12 V and 24 V
- Copper Coated Aluminum
- Colour coded, insulated cable, handles and clamps
- 2-year guarantee¹

230 V AC:

OSRAM power inverters provide the standard mains connection for powering tools and equipment.

4 Power inverters

For all your off-grid needs

Experience seamless power conversion on the go with OSRAM's 12 V in-car power inverters. Designed for reliability and convenience, our range of power inverters transforms your vehicle's 12 V DC power into 230V AC power, enabling you to operate a wide variety of electronic devices while traveling.

Mains Power on the move:
Provides 230 V power in your vehicle, perfect for life on the move.

Silent operation:
Includes a low noise fan for minimal noise in use.

Quality guaranteed:
All OSRAM inverters have a minimum guarantee period of 2-years.¹

¹ For precise conditions please refer to www.osram.com/am-guarantee.

POWERinvert Modified sine wave inverter 12 V DC 150 W

A compact 150 W modified sine wave inverter with adjustable voltage output, for powering simple electronic devices and tools.

OEINVU150

Features

- 150 W modified sine wave inverter for 12 V vehicles
- Converts into 230 V AC mains power
- Surge power rating (up to 200 ms) 300 W
- Efficiency at 75% load: 89%

Benefits

- Adjustable output: 230 V AC +/- 10%
- Overload, overheating, and low/high voltage protection
- Up to 12 hours continuous use
- 2-year guarantee¹

POWERinvert Modified sine wave inverter 12 V DC 300 W

A compact 300 W modified sine wave inverter with adjustable voltage output, for powering simple electronic devices and tools.

OEINVU300

Features

- 300 W modified sine wave inverter for 12 V vehicles
- Converts into 230 V AC mains power
- Surge power rating (up to 200 ms) 600 W
- Efficiency at 75% load: 89%

Benefits

- Adjustable output: 230 V AC +/- 10%
- Overload, overheating, and low/high voltage protection
- Up to 12 hours continuous use
- 2-year guarantee¹

POWERinvert Modified sine wave inverter 12 V DC 500 W

A compact 500 W modified sine wave inverter with adjustable voltage output, for powering simple electronic devices and tools.

OEINVU500

Features

- 500 W modified sine wave inverter for 12 V vehicles
- Converts into 230 V AC mains power
- Surge power rating (up to 200 ms) 1 000 W
- Efficiency at 75% load: 89%

Benefits

- Adjustable output: 230 V AC +/- 10%
- Overload, overheating, and low/high voltage protection
- Up to 12 hours continuous use
- 2-year guarantee¹

5 Car accessories

Effortlessly remove ice from your windshield

Compared to traditional ice scrapers, an electric ice scraper makes removing ice significantly easier, requiring far less physical effort even in the harshest winter conditions. With a powerful rotating disc that efficiently breaks through thick layers of ice, users no longer need to struggle with frustrating scraping. This advanced design means that clearing a windshield is not only faster but also considerably more comfortable, enhancing the de-icing experience on frigid mornings. By reducing the time and effort needed, users can enjoy a quicker start to their day and spend less time exposed to the cold, making winter routines far more convenient and pleasant.

Remove stubborn ice with minimal effort:
Rotating disc effortlessly cuts through ice.

Palm switch technology:
Designed for easy use, even while wearing gloves.

Small, lightweight and rechargeable (USB-C charging cable included):
Easily charge on the go with the included cable, have the ice scraper available when you need it most.

ICEscrapper 010

An electric ice scraper with a rotating plastic disc for easy and efficient ice removal.

Features

- Rotating plastic disc to remove ice on windshields
- Palm switch technology: apply pressure to the top to activate switch
- Protective blade cover
- LED Indicator
- USB-C rechargeable Lithium-Ion battery

Benefits

- Easily remove ice with minimal effort
- Palm switch makes it easier to use when you are wearing gloves
- Small & lightweight – easy to store in your car
- Can be charged in your car via provided USB cable
- 2-year guarantee¹

360° rotation:

The flashing amber light rotates, improving visibility and enhancing safety.

6 Warning, safety and reading lights

For roadside repairs and emergencies

OSRAM LEDguardian® lights are a valuable tool for roadside repairs in low-visibility conditions. Their compact design and magnetic base allow for easy storage and fast installation, while powerful flashing LEDs alert other road users to your position in an emergency situation.

Compact design:
For quick and easy attachment to the vehicle.

IP- & IK-Protection classes:
Tested and validated in our DIN certified environmental simulation laboratory for extreme external influences regarding water, dust, impacts, heat, cold and permanent vibration.

Guarantee:¹
LEDguardian® warning and safety lights are backed by a 2-year guarantee.

Interior comfort isn't a luxury, it's a necessity

Our ONYX COPILOT® reading lights become one with your vehicle, seamlessly adapting to every space with flexibility and precision.

Multi-Positioning:
Allows you to easily direct light output exactly where you need it.

Comfort:
Pleasantly warm and glare-free light for the interior of the vehicle.

¹ For precise conditions please refer to www.osram.com/am-guarantee.

Light is safety

Be prepared – with OSRAM LEDguardian® warning and safety lights. The 360° flashing orange warning light function of the OSRAM LEDguardian® warning lights are visible from a great distance and can provide crucial information about a dangerous situation in road traffic in an emergency.

With long-lasting high-power LEDs you can draw attention to yourself by day and night and preventively make other road users aware of a dangerous situation such as a broken-down vehicle in traffic.

See and be seen with OSRAM

In contrast to a warning triangle, it alerts other road users to an unusual situation on the road by actively flashing, compared to a simple reflection such as that of a warning triangle. That's why warning lights are the ideal LED accessory for drivers who want to be equipped for any serious situation.

Always available when required

The compact design allows you to stow the warning light within easy reach in the car and, if required, it can be quickly and easily attached directly to the vehicle roof thanks to the magnetic function.

The LEDguardian® warning lights have been tested and validated in our DIN EN ISO/IEC 17025 certified environmental simulation laboratory for extreme external influences in terms of water, dust, heat, cold and impacts from falls. With the IP protection class IP54, the OSRAM LEDguardian lights are insensitive to water, dust and shocks.¹

¹ Please observe any special requirements and laws in countries outside Germany regarding the use and operation of an additional warning light in road traffic.

LEDguardian® TRUCK FLARE Signal TA19

LEDSL103

A battery powered warning light, essential for vehicles with a total weight of $\geq 3.5t$ in Germany and also permitted for use in other EU countries.¹

Features

- Mandatory in Germany for vehicles $\geq 3.5t$ and permitted for use in other EU countries¹
- GGVS/ADR certified,² street legal in Germany – TA19 StVZO
- Up to 6 000 K
- LED warning light + LED torch light (2 in 1)
- Protection classes: IP54, IK06

Benefits

- Signals the position of the damaged, broken down etc. vehicle simply by positioning the truck flare next to the warning triangle
- Torch light allowing different product applications
- Non-slip, stable standing feet
- Small, compact, lightweight
- 2-year guarantee³

LEDguardian® TRUCK FLARE Signal TA19 Essential

LEDSL106

A battery powered warning light, essential for vehicles with a total weight of $\geq 3.5t$ in Germany also permitted for use in other EU countries.¹

Features

- Mandatory in Germany for vehicles and permitted for use in other EU countries¹
- GGVS/ADR certified,² street legal in Germany – TA19 StVZO
- Up to 6 000 K
- With an integrated test function to check the battery capacity
- Protection classes: IP54, IK06

Benefits

- Signals the position of the damaged, broken down etc. vehicle simply by positioning the truck flare next to the warning triangle
- Non-slip, stable standing feet
- Insensitive to shocks and the ingress of dust and water
- Batteries included in scope of delivery
- 2-year guarantee³

LEDguardian® ROAD FLARE Signal TA20

LEDSL104

A rechargeable amber warning light with 360° flashing and magnetic base.

Features

- Officially approved for road use in Germany in accordance with § 53a section 3 TA20 StVZO⁴
- Officially authorized by TÜV & KBA / TA20, CE, UKCA certification
- Up to 2 000 K
- 18 high-quality longlife LEDs
- 360° flashing amber warning light
- Protection class: IP54

Benefits

- Magnetic base for easy installation on roof
- Water, dust, and high wind resistance
- Rechargeable battery, runtime up to 15 h (USB-C cable included)
- Non-slip, dirt-repellent surface
- Small, compact, lightweight
- 2-year guarantee³

LEDguardian® ROAD FLARE Signal V16 IoT

LEDSL105

A battery-powered, long range amber warning light with 360° flashing and magnetic base. The warning light is connected to the DT 3.0 platform and is mandatory for all vehicles in Spain from January 2026.

Features

- Powerful 360° flashing light and up to 1000 m light range
- Up to 1 900 K
- Road authorisation and mandatory in Spain from January 2026
- DGT 3.0 certified warning light
- Integrated SIM card (Connectivity service life of 12 years)
- Protection class: IP54

Benefits

- Anonymous data transfer to the DGT 3.0 platform, signaling the vehicle's position
- Secure, compact, magnetic mounting
- Water, dust and shock resistant
- Battery life up to 2.5 hours (9 V battery included)
- 12-year guarantee³

LEDguardian® ROAD FLARE Signal V16

LEDSL102

A battery-powered, long range amber warning light with 360° flashing, and magnetic base.

Features

- Up to 1 000 m light range
- Up to 2 000 K
- 12 high-quality long-life LEDs
- 360° flashing amber V16 regulated warning light and CE certified
- Protection class: IP54

Benefits

- Due to the magnetic function the LED warning light can be conveniently attached to the car and other vehicles
- Water, dust, and high wind resistance
- Non-slip, stable standing feet
- Small, compact, lightweight
- 2-year guarantee¹

LEDguardian® ROAD FLARE

LEDSL303

A battery-powered, long range amber warning light with 360° flashing, and magnetic base.

Features

- 360° rotating bright, amber warning light² with three different operating modes: amber warning light function, permanent amber light function and a white torch function
- Battery runtime up to 15 h, Battery status indicator
- Long lifespan and therefore energy efficient
- Protection classes: IP54, IK07

Benefits

- Improved visibility and thus increased safety for you and others in road traffic
- Signals the position of the damaged or broken-down vehicle
- Water, dust, and high wind resistance
- Non-slip, dirt-repellent surface, a practical magnetic hook for attachment
- 2-year guarantee¹

LEDguardian® SAVER LIGHT PLUS

LEDSL101

A practical all-rounder with torch, work light and warning light in one product.

Features

- Be prepared for serious situations, thanks to high quality, long lasting LEDs
- Up to 6 500 K
- Multifunctional magnetic LED warning light¹ with two light functions (amber flashing and white torch light), seat-belt cutter and emergency hammer
- Protection class: IP20

Benefits

- Getting out by smashing the window or cutting the seat-belt
- Flexible mounting possibilities as well as dirt-resistant
- More durability due to LED technology for a long service life
- 2-year guarantee¹

¹ According to §53a StVZO. Use is also permitted in other EU countries, provided that the respective national regulations are complied with. ² Approved in dangerous goods transports according to European Agreement concerning the International Carriage of Dangerous Goods by Road & Dangerous Goods Regulation Road. ³ For precise conditions please refer to www.osram.com/am-guarantee. ⁴ Please observe any special requirements and laws in countries outside Germany regarding the use and operation of an additional warning light in road traffic.

LIGHTsignal LED BEACON LIGHT

RBL102

A 360° rotating yellow LED beacon light that can be mounted on vehicles with unusual width, length or load, as well as on municipal vehicles, emergency, command and accident relief vehicles.

Features

- 360° rotating beacon light with 8 high-performance long-life LEDs
- Up to 1 200 lm and up to 1 900 K
- Certified in accordance with ECE R10 and R65, mounting method: 3 bolt fix
- Protection classes: IP65, IK08

Benefits

- Improved visibility and thus increased safety for you and others
- Mounting material included in scope of supply
- Insensitive to shocks and the ingress of dust and water
- Compact and modern design
- 2-year guarantee¹

LIGHTsignal HAL BEACON LIGHT

RBL101

A 360° rotating yellow halogen beacon light that can be mounted on vehicles with unusual width, length or load, as well as on municipal vehicles, emergency, command and accident relief vehicles.

Features

- 360° rotating beacon light
- Up to 1 900 lm and up to 2 200 K
- Certified in accordance with ECE R10 and R65, mounting method: 3 bolt fix
- Optimum light output, bundling and distribution due to rotating unit consisting of highly polished parabolic reflector and H1 halogen lamp
- Protection class: IP65

Benefits

- Improved visibility and thus increased safety for you and others
- Mounting material included in scope of supply
- Insensitive to shocks and the ingress of dust and water
- Robust and functional design
- 2-year guarantee¹

ONYX COPILOT® ONYX M+7

ONYX M+7

A flexible LED reading light that emits a pleasantly warm, glare-free light and is powered via a cigarette lighter.

Features

- Bright LED reading light for vehicle interior, 12 V & 24 V compatible
- Service life (LED): up to 20 000 h
- Powered via cigarette lighter
- Individual adjustment thanks to bendable neck
- Pleasant warm and glare-free LED light

Benefits

- Pleasantly look and feel, easy to grip and dirt-resistant surface
- Provides simple installation
- More durability due to LED technology for a long service life
- Light can be switched on/off and remain connected permanently
- 2-year guarantee¹

ONYX COPILOT® ONYX L+7

ONYX L+7

A flexible LED reading light that emits a pleasantly warm, glare-free light and comes with a plastic base for fixed connection.

Features

- Bright LED reading light for vehicle interior, 12 V & 24 V compatible
- Service life (LED): up to 20 000 h
- Light with a plastic base for fixed connection
- Individual adjustment thanks to bendable neck
- Pleasant warm and glare-free LED light

Benefits

- Pleasantly look and feel, easy to grip and dirt-resistant surface
- Provides simple installation
- More durability due to LED technology for a long service life
- Light can be switched on/off and remain connected permanently
- 2-year guarantee¹

ONYX COPILOT® ONYX USB

ONYX USB

A flexible LED reading light that emits a pleasantly warm, glare-free light with USB plug in.

Features

- This stylish reading light is suitable for all vehicles with USB connection
- Service life (LED): up to 20 000 h
- Powered via USB
- Individual adjustment thanks to bendable neck
- Pleasant warm and glare-free LED light

Benefits

- Pleasantly look and feel, easy to grip and dirt-resistant surface
