

Autoventil to Present Engine Valve and Guide Solutions at Automechanika Dubai 2025

Užice, Serbia – Autoventil A.D. Užice, a European leader in engine valves and valve guides, will showcase its advanced portfolio at Automechanika Dubai 2025, held December 10–12, 2025 at Dubai World Trade Centre.

With over 70 years of engineering excellence, Autoventil is a trusted partner for both OEMs and aftermarket distributors worldwide. Its precision-engineered products are designed for passenger cars, heavy-duty trucks, delivering durability and performance even under extreme operating conditions common in the Middle East and Africa.

Autoventil will highlight:

- New product developments in high-performance engine valves and valve guides.
- Heat- and wear-resistant materials engineered for longer service life in harsh climates.
- The company's state-of-the-art manufacturing process, certified to IATF 16949 quality standards.
- Commitment to sustainable production through energy-efficient processes and recycling of raw materials.

AUTOVENTIL AT 2018 AUTOMECHANIKA, DUBAI

“Automechanika Dubai is a key platform for us to strengthen relationships with partners across the Middle East, Africa, and Asia. Our products are built to perform in the most demanding conditions, and we look forward to discussing how Autoventil can support distributors, workshops, and fleet operators in this region,” said Kristina Pijevic, Operations Manager of Autoventil.

Autoventil warmly invites visitors, distributors, and industry professionals to visit our stand to explore partnership opportunities.
