

The Soft ess&re
and Velvet ess&re
matt clearcoats
offer an exclusive
soft-touch effect,
combining
aesthetics and
advanced
performance.

Thanks to their
innovative
formulation, they
guarantee
a higher resistance to
hydrolysis, maximum
durability and a
unique sensation to
the touch.

Not just aesthetics
but also top-level
performance.

Over 2000 hours
of accelerated
aging at WOM
according
to ASTM G155
were successfully
passed

Product range

2 matt
clearcoats:

- 31555 CLEAR SOFT ESS&RE
- 31556 CLEAR VELVET ESS&RE

1 hardener:

- 13802 SOFT ESS&RE HARDENER

Matt clearcoats
to be overapplied
on matt bases,
with a soft-touch and
velvety haptic effect

1 thinner:

- 10162 DILUENTE ESS&RE SOFT

One of the most
distinctive features
of ess&re Clearcoats
is their formulation,
which includes over 50%
of raw materials
from renewable
sources

This commitment to the use of
sustainable resources is reflected
not only in the product itself, but
also in its dedicated hardeners and
thinners.

The choice of renewable raw
materials does not compromise the
performance of the product, but
rather enhances it, thus ensuring
a solution that is as efficient as
it is attentive and aware of the
environment.

The total exemption from organotin
compounds (TIN-FREE) further
highlights Lechler's commitment to
safer and cleaner solutions.

This innovative approach
not only improves air quality and
operator safety, but also contributes
to a more sustainable future for the
painting industry.
