

## **iAM-Trade – B2B E-Commerce Platform for Spare Parts Suppliers**

iAM-Trade is a Swiss B2B e-commerce system designed for automotive spare parts manufacturers, distributors, and resellers.

It provides a complete online sales and client-management ecosystem tailored for the aftermarket industry.

### **Modules:**

- B2B web portal with multi-price-list management
- Client and supplier dashboards
- Integrated product catalogs with photos and specifications
- Connection to ERP and warehouse systems

### **Key Benefits:**

- Instant online ordering and quotation
- Automated price and stock synchronization
- Secure transactions and digital invoicing
- Custom branding and multilingual interface

Available as a **cloud or self-hosted solution**, iAM-Trade helps spare-parts businesses digitize their sales and strengthen client relationships worldwide.
