

ADHESIVE & SEALANT

PRODUCT CATALOG

SUPER GLUE

12 PCS Economy Super Glue

Sparko 12 pcs Economy Pack Super Glue is a premium grade instant adhesive that is faster, stronger and longer lasting than regular super glues. It works well on both porous and non-porous materials and also works on more materials than the regular super glues. Ideal applications include bonding of metal, plastics, wood, leather, glass, rubber, textiles, ceramic etc.

4 Minute Grey Epoxy & 4 Minute Clear Epoxy

Sparko 4 Minute Grey/Clear Epoxy is a fast setting (4-6 minutes), non-shrinking epoxy adhesive. It is available in either Grey or Clear color. It fills gaps and makes strong water resistant repairs on most materials. It is versatile, shock resistant and tolerant to most fuels and solvents. Ideal applications include tools, auto trimmings, ornaments, knobs, ceramics, glassware, fibreglass repairs etc.

Steel Epoxy

Sparko Steel Epoxy is a grey color general purpose adhesive that allows up to 90 minutes of working time. It offers maximum bonding strength thus suitable for complicated assemblies. It is versatile and resistant to most fuels and solvents. Ideal applications include filling gap and bond trim, casting cracks or holes repairs, furniture and wood

Super Epoxy Steel Filled

Sparko Super Epoxy Steel Filled is a fast setting, two-component, non-shrinking Grey epoxy adhesive. It fills gaps and makes strong water resistant repairs on most materials. It is versatile, shock resistant and tolerant to most fuels and solvents. Ideal applications include tools, auto trimmings, ornaments, knobs, ceramics, glassware, fibreglass repairs etc.

GASKET SEALANTS

Sparko Thread Locker AA71 & AA42

Sparko Thread Locker AA71 & AA42 is a one component anaerobic with medium strength acrylic based thread locker. The product is designed for fitting, locking and sealing of threaded fasteners. Resistant to heat, gasoline, antifreeze, transmission fluid and other chemicals. Suitable for uses on less active parts where disassembly is required with standard hand tools. It cures in the absence of air in between close fitting metal surfaces. Sparko SPLOC AA42 ideally prevents loosening and corrosion on threaded fasteners from vibration and shock.

Clear RTV Silicone

Sparko Clear RTV is an all-purpose sealant that may be applied to both horizontal and vertical surfaces. It can be used to bond, seal, repair, mend and secure glass, metal, fabric, vinyl, plastics, weatherstripping and vinyl tops. It provides a waterproof and flexible bonding that can withstand heat, chemicals and vibration.

Black RTV Silicone

Sparko Black RTV is ideal for sealing, bonding, repairing, mending and securing glass, plastics, vinyl, fabric, metal, vinyl tops and weather stripping. It may be applied to both horizontal and vertical surfaces and may also be used to protect and repair electrical wiring. It is stable at temperatures from -80°F to 450°F (-62°C to 232°C). It is also highly resistant to oil, water, weather-changes, vibration and grease.

Blue RTV Silicone

Sparko Blue RTV makes reliable "formed-in-place" gasket that resist cracking, shrinking and migrating caused by thermal cycling. Hence ideal for use as replacement for gaskets, seals, gasket dressings, cork, felt, paper, rubber and asbestos gaskets. It is stable at temperatures from -80°F to 600°F (-62°C to 315°C). It is also highly resistant to oil, transmission fluid, water and antifreeze.

Hi-Temp RTV Silicone

Sparko Hi-Temp RTV makes reliable "formed-in-place" gaskets that resist cracking, shrinking and migrating caused by thermal cycling. Hence ideal for use as replacement for gaskets, seals, gasket dressings, cork, felt, paper, rubber and asbestos gaskets. It is stable at temperatures from -80°F to 650°F (-62°C to 343°C). It is also highly resistant to oil, transmission fluid, water and antifreeze.

Alpha Grey RTV Silicone

Sparko Alpha Grey RTV Silicone Gasket Maker is low-odour, non-corrosive and sensor-safe. It features excellent oil resistance thus guaranteed not to leak. It is specially formulated for high torque applications, which require a unique RTV gasket. It is stable at temperatures from -80 °F to 650 °F (-62°C to 343°C). It is also highly resistant to oil, water, weather-changes, vibration and grease.

Grey RTV Silicone

Sparko Grey RTV Silicone makes reliable "formed-in-place" gaskets that resist cracking, shrinking and migrating caused by thermal cycling. Hence ideal for use as replacement for gaskets, seals, gaskets dressing, cork, felt, paper, rubber and asbestos gaskets. It is stable at temperatures from -80°F to 650 °F (-62°C to 343°C). It is also highly resistant to oil, water, weather, vibration and grease.

Liquid Gasket 1101

Sparko Liquid Gasket has a distinguishing ability to turn into rubber-like elastic substance with excellent and reliable resistance to heat, oil, gasoline and particular LPG. **Applications:** Ideal for the purpose of making quality gaskets in garages, workshops, homes and DIY.
Color: Grey

Gasket Shellac

Sparko Gasket Shellac is for leakproof gaskets and threaded assemblies, apply thin layer on both surfaces. Assemble when it is tacky. Resists water, steam, petroleum products, and antifreeze.
Component: Contains Rosin, Ethanol, 2-propanol.

HT333

Sparko HT333 Universal Sealing Compound suitable for sealing surfaces in engines, transmission, axles, cylinder liners for all motor and vehicle makes and plastic housings. It is good resistance to lubricants, gasoline, diesel fuels, oils, grease, water, seawater, sunlight and ozone. The Temperature resistance ranges from -50°C to +333°C (short-term peak temperature).

ADHESIVE & HOUSEHOLD SEALANTS

Glass Silicone

Sparko Glass Silicone is a versatile adhesive sealant for durable, flexible and waterproof seals around glass, tiles, rubber and most plastics. It can withstand heat, chemicals and vibration. It is most suitable for applications on aquariums, torn weatherstrip, concrete and masonry sealings. 32gm packing size is also available.

Kitchen & Bathroom Silicone

Sparko@ High Tech 100% Kitchen & Bathroom Silicone is a versatile adhesive sealant for caulking, sealing and bonding of bathroom fixtures, and tiles. It resists mildew without discoloration and will remain flexible. It is most suitable for tubs, sinks, fixtures and bathroom caulking applications.

GENERAL PROFESSIONAL ADHESIVES

Contact Adhesive

Sparko Contact Adhesive is a solvent based adhesive that is easy-to-use, cost saving and has superb bonding strength. It works well with most materials. Typical applications include bonding of formica countertops, floor tiles, leather items, wood, rubber, metal, linoleum chipboard etc.

PVC 777 Solvent Cement

Sparko PVC 777 Solvent Cement is a clear colored low viscosity adhesive that is fast setting and perfect for applications on PVC pipes. Ideal for waterproof bonding and coupling of rigid PVC, CPVC and UPVC pipes. It is safe for drinking water after complete curing.

714OR Plastic Pipe Cement

Sparko 714OR is a Plastic Pipe Cement formulated for joining PVC, CPVC, UPVC rigid pipe, and rigid PVC decorate joining with special formula that depends on application, material and area to use.

Vinyl Adhesive

Sparko Vinyl Adhesive is a clear colored, fast curing adhesive specially formulated for vinyl and leather repair jobs. It is easy-to-use, cost saving and offers excellent bonding strength. Typical applications include bonding of upholstery, waterproof apparel and accessories, luggages, car seats etc.

SEALANTS

Acetic Silicone Sealant

Sparko Acetic Silicone Sealant is a one part, easy-to-use, acetic cure silicone sealant. It is designed for glazing and sealing applications where long term reliability is required. It is suitable for glass, window frames and many other indoor and outdoor construction sealing applications.

Neutral Silicone Sealant

Sparko Acetic Silicone Sealant is a one part, easy-to-use, acetic cure silicone sealant. It is designed for glazing and sealing applications where long term reliability is required. It is suitable for glass, window frames and many other indoor and outdoor construction sealing applications.

Acrylic Sealant

Sparko Acrylic Sealant is a one component, highly qualified, paintable, plastic-elastic sealant for inside and outside use, based on an acrylic resin dispersion. Ideal for sealing cracks in concrete, plasters, bricks, wood and other indoor sealing applications. It is odourless and does not corrode metals.

Hybrid Sealant

Sparko Hybrid Sealant with hybrid technology product provides good mechanical bonding and sealing strength with excellent UV, weather, temperature and chemical resistance. The product can be applied for both exterior and interior suitable for most building substrates without primer i.e. concrete, brick, aluminum, stainless steel, metal, painted finishes, UPVC, polycarbonate.

100% Acetic

Sparko@ 100% Acetic is a high performance anti-fungus sealant suitable for sealing, bonding, repairing and mending of glass and window construction, double glazing in windows, aquariums, shower screens and sanitary ceramics. It is also suitable for automobile and container sealing repair. Sparko 100% Acetic exhibits an excellent adhesion to glass, tiles, ceramics, fiberglass, aluminum, non-oily woods, painted surfaces, plastics and other non-porous surfaces.

Super Nail

A gunable contact type adhesive that will not slump on vertical surfaces. It been formulated to bond to a variety of common construction materials. It can be use with wood, plastered wood, particleboard, masonry, aluminum, galvanized iron, steel, fiber cement sheeting, wall, brick, concrete, tiles, floor paneling foamed polystyrene and mirror.

Water Based Super Nail

A gunable contact type adhesive that will not slump on vertical surfaces. It been formulated to bond to a variety of common construction materials. It can be use with wood, plastered wood, particleboard, masonry, aluminum, galvanized iron, steel, fiber cement sheeting, wall, brick, concrete, tiles, floor paneling foamed polystyrene and mirror.

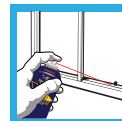

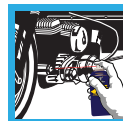

SPECIAL PRODUCTS

X5
ALL-IN-ONE LUBE

X5 All-in-one Lube

SparkoX5 ALL-IN-ONE LUBE does the job FAST! It provides lubrication while protecting against rust and corrosion, and penetrates deeply to loosen stuck parts like nuts, bolts, valves, and etc. Repels and seals out moisture to start wet motors and engines. Eliminates squeaks from hinges, beltings, and other moving parts. Cleans and dissolves tar, grease and adhesive. X5's industrial strength formulation is perfect for industrial, commercial and household applications.

YOUR REVOLUTIONARY WORKER • YOUR DRIVING COMPANION • YOUR MAGICAL BUDDY

Carb & Choke

Specially formulated to remove and dissolve carburetor deposit such as sludge, gum and varnish to improve carburetor performance. It is a combination of highly active and fast penetrating substance with detergents and corrosion. The inhibitor is designed to clean the residue deposits on carburetor and chokes during the normal operation of a motor. It is an ideal application to clean carburetor, chokes, linkage, PCV valves and etc.

Dashboard & Leather Wax

Specially designed for using on Car Dashboard, Leather Seat Covers or any other leather product. It can remove the dirt from the surfaces and increase polishing of the objects. Only spray and wipe, the objects will be cleaned and shined by one time.

Brake Parts Cleaner

Specially formulated for easy to clean and remove brake fluid, grease, oil and other contaminants on most brake parts. It is ideal for cleaning brake parts such as like brake linings, disc brake pads, wheel bearing, rotors, drums, cylinders, springs and other related brake parts. It leaves no residue and improves brake parts efficiency.

All Clean Foam Cleaner

Specially formulated with foam type that can quickly permeate into smudges to clear away dirt, grime, grease, and restore a fresh, new look. It is environmental friendly, with no phosphate, and insensitive to skin. It is ideal for clean glass, bathroom, furniture, ceramic tiles, painted walls, porcelain, wood floor, ceilings, fabrics, leather, carpet and metal. It can promptly clear away tea and soft drink stains from leather, fabrics, upholstery and carpet.

PU Foam

A Polyurethane based 100% CFC Free expanding foam for Professional General Construction and Home Improvement Applicators. For filling large irregular seams and transits new building and renovating projects. To fix window and door frames, to insulate and fill seams between walls, ceilings and pre-fabricated elements.

Plated Crystal Glaze Water

Specially formulated for paint protection system that can be applied to most vehicles. It is easy to remove ingrained grime and dirt on the car. After applying, its long lasting coating can protect from water, UV, acid rain and the other unwanted residue and as well as it can protect the car body from being stained.

PU Foam Cleaner

Specially developed to clean PU Foam gun quickly. PU FOAM CLEANER is applied to prevent early blocking and to maintain the PU Foam gun in perfect working condition. PU FOAM CLEANER also removes instantly all fresh PU Foam spot.

Tire Foam Cleaner

A foaming type cleaner. It can easily clean dust, dirt or oil stains on tires. Just spray it on tires without wiping and rubbing. It provides glossy surface and protection on tire. Also, this product can protect cracks and fade on tires.

NEXT GENERATION BONDING

FAST. STRONG. RELIABLE.
