What is the VS7 Chemical Program?

In the world of automotive chemicals, you have many choices of products to buy. Why Mighty VS7? It's not just the products themselves. While our products feature cutting edge, state of the art chemical formulations that really perform, it's the complete VS7 PROGRAM that makes the difference. From easy-to-use equipment, to online and hands on training, to motivating rewards, to industry leading consumer guarantees and protection plans, the Mighty VS7 program has it all.

Let us show you how we can help your sales, profits and customer retention...
Be Mightier!

FUEL

GDI Solution Kit

Premium GDI Fuel System Cleaning Service with advanced Dual Tech and “get clean” results.

+ **SB600 KIT** 6 kits per case

Fusion FSC Kit

Premium PFI/GDI Fuel System Cleaning Service with advanced Dual Tech and “keep clean” results.

+ **SB500 KIT** 6 kits per case

VPak2 Kit

Economy 2-Step Fuel System Cleaning.
Recommended for use in GDI and PFI Applications.

+ **SB450 KIT** 6 kits per case

Power2 Kit

GDI and PFI Superior Intake Cleaner with advanced cleaning Technology. Use with equipment 2540V with Adapters 2845V, 2845BR, 2835BR or FL118

+ **FL101** 6 kits per case

Total Intake System Cleaner

GDI and PFI Superior Intake Cleaner with new advanced cleaning technology and easy application.

+ **SB300** 10 ounces | 12 per case

Top Engine Cleaner

PFI Intake System Cleaner used with FL118 applicator. *Use with equipment 2540V with Adapters 2845V, 2845BR, 2835BR or FL118*

+ **FL112** 12 ounces | 12 per case

Syntramax® Complete Fuel System Cleaner

Premium Fuel Additive featuring PEA and PIBA Advanced Dual Technology.

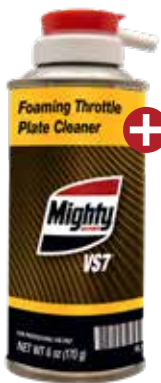

+ **SB304** 16 ounces | 12 per case

Professional Fuel Injector Cleaner

Professional Fuel Injector Cleaner used with FL136 Tool and FTP290 Adapters. *Use with equipment 500-0220M, 500-0220M & Adapters 2550 or FPT290*

+ **FL135** 11 ounces | 12 per case

Foaming Throttle Plate Cleaner

Fast acting foaming cleaner for carbon and varnish deposits.

+ **FL110** 4.5 ounces | 6 per case

VOC Compliant Carburetor Cleaner

Cleans carburetor linkage, PCV valve and choke.

+ **FL104** 16 ounces | 12 per case

Supreme Fuel System Cleaner

Supreme fuel additive helps improve emissions and restore and maintain performance.

+ **FL108** 12 ounces | 12 per case

Fuel System Cleaner

Economy fuel additive cleans intake valves and combustion chambers.

+ **FL106** 8 ounces | 12 per case

Fuel System Cleaner

It seems impossible that a gallon of gasoline, which weighs about 6.3 pounds, could produce 20 pounds of carbon dioxide (CO₂) when burned. However, most of the weight of the CO₂ doesn't come from the gasoline itself, but the oxygen in the air.

Americans drive an average of 14,300 miles per year, according to the Federal Highway Administration. Driving is a central part of the American identity, and the amount of miles Americans drive each year has exploded in the time since the federal government founded the Interstate Highway System in the 1950s.

Why GDI?

Port Fuel Injection (PFI)

Gasoline Direct Injection (GDI)

Gasoline Direct Injection Fuel Systems

Today's vehicles have small displacement high output engines that are getting unprecedented fuel economy to meet both EPA and consumer needs. However this comes at a cost. Carbon buildup that robs performance and is hard to remove is the problem. **Mighty VS7 GDI Solution Kit is the solution!**

VS7 GDI Solution Kit SB600

FOR PROFESSIONAL
USE ONLY

16 fl oz (473 mL)

OL150

Complete Engine Clean

This concentrated formula helps remove sludge, gum and varnish from severe or abused oil systems.

+ **OL106** 1 gallon | 4 per case

Heavy Duty Oil Stabilizer

Helps stop or eliminate engine knock, protects new engine components and optimizes performance of older engines.

+ **OL113** 32 ounces | 12 per case

Oil System Cleaner

Stay clean technology helps remove sludge, gum and varnish from the oil system.

+ **OL105** 15 ounces | 12 per case

High Mileage Oil Treatment

Enhanced formula for protection of high mileage engines. Conditions seals and gaskets.

+ **OL107**
15 ounces | 12 per case

OIL ADDITIVES

LSPI is caused by using outdated and old technology motor oils. Be sure you use quality motor oils like Mighty Engine Guard! Add Mighty oil additive products like OL 150 to make the protection against LSPI even greater!

Above: Example of a damaged piston caused by Low Speed Pre Ignition.

TRANSMISSION

Did you know?

The first automatic transmission was an Oldsmobile 4-speed.

Automatics were once slower than manuals.

Synthetic Transmission Clean & Fluid Protectant Kit for Automatic Transmissions

2-Step Automatic Transmission System Cleaning Kit. Pour in Mighty Transmission Synthetics and protect your investment.

Use with equipment 500-1125M, 40400031

+ **SB100 KIT** 6 per case

ATF Automatic Transmission Fluid

Excellent anti-wear, rust and corrosion protection for step type transmissions.

+ **TR103** 1 quart | 12 per case

Full Synthetic Multi-Vehicle ATF

Premium Full Synthetic low viscosity ATF. Refer to MIC for applications.

+ **TR120** 1 quart | 12 per case

Full Synthetic Multi-Vehicle ATF

Premium Full Synthetic low viscosity ATF. Refer to MIC for applications.

+ **TR200** 1 gallon | 6 per case

Multi functional CVT Step/ATF Fluid

New ATF and CVT Combination Fluid. Refer to MIC for applications.

+ **TR300** 1 quart | 12 per case

You might have an Automatic Transmission problem if you experience the following:

Odd noises including whirring, humming, and clunking

Your transmission slips out of gear, typically by dropping into neutral right after you switch into drive or reverse

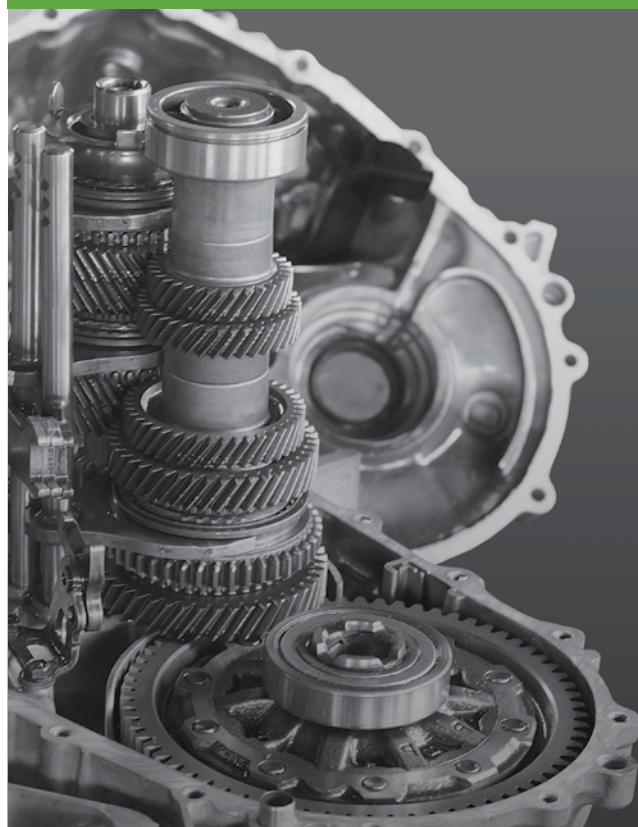

Your transmission offers resistance when you try to change gears and it grinds

Sudden changes in your Revolutions Per Minute (RPM)

Sluggish acceleration

COOLING

Cooling System Kit

Optimize cleaning and conditioning with this 2 part kit.
Use with equipment 500-1125, RADVAC3

+ **CL108 KIT** 12 ounces | 6 per case

Cooling System Rapid Clean

Premium universal cleaner helps remove rust, scale and sludge.

+ **CL103** 12 ounces | 12 per case

R134a with Leak Stop

Refrigerant and AC treatment with stop leak additive.

+ **CL109** 12 ounces | 12 per case

R134a Plus

Refrigerant and AC treatment with stop leak additive. Applicator not included with CL110NA.

+ **CL110/CL110NA**
14 ounces | 12 per case

+ **CL118**
19 ounces | 12 per case

Evaporator Odor Eliminator

Removes dirt, oil, grease pollen and other contaminants from evaporator coil.

+ **CL121** 8 ounces | 12 per case

Cooling System Protectant

Premium universal conditioner enhances additives in any coolant system for prolonged performance & efficiency.

+ **CL104** 12 ounces | 12 per case

Cooling System Rapid Clean

Compatible with A/C Systems using 1234yf or R134a refrigerant and safe for hybrid and electric compressors.

+ **CL155** 8 ounces | 6 per case

AC Seal Leak Stop with UV Dye

Refrigerant and AC treatment features stop leak additive and UV Dye.

+ **CL111** 4 ounces | 12 per case

Total Leak Stop with UV Dye R134a & R12

Refrigerant and AC treatment features stop leak additive and UV Dye.

+ **CL112** 14 ounces | 12 per case

UV Leak Detection Dye Concentration

Solvent-free U/V dye for R134a or R12.

+ **CL113** 8 ounces | 12 per case

The History of Air Conditioning

The American car maker Packard was the first to introduce A/C units into cars in 1939. The bulky system had its refrigerating coils located behind the back seat.

Packard's system required the driver (or at least someone) to stop the engine, open the hood, and disconnect the compressor belt when things got too cold. This was later dropped due to its hefty price tag, complex operation, and huge size.

Chrysler later launched its Air Temp System—a smaller trunk mounted A/C unit—in the 1950's. By then, the only way to operate the A/C unit

was at the back seat. It allowed the users to select low, medium, and high fan speeds and was also capable of reducing humidity, dust, pollen, and tobacco smoke.

It took another 4 years until Pontiac was able to fit all refrigeration components underneath the hood. This became the standard layout for the modern A/C unit.

In addition, it was the same year when Nash-Kelvinator (Nash Automobile and Kelvinator Appliance Company) built the first A/C system with controls mounted on the instrument panel.

Ester Oil with UV Dye

Premium synthetic polyol ester oil with U/V dye.

+ **CL114** 32 ounces

Premium Synthetic PAG Oil with UV Dye

Premium synthetic PAG oil with U/V dye.

- + **PAG Oil 46 with UV Dye**
CL115 32 ounces
- + **PAG Oil 100 with UV Dye**
CL116 32 ounces
- + **PAG Oil 150 with UV Dye**
CL117 32 ounces

Premium Synthetic PAG Oil

Premium synthetic PAG oil.

- + **PAG Oil 46**
CL151 8 ounces | 12 per case
- + **PAG Oil 100**
CL152 8 ounces | 12 per case
- + **PAG Oil 150**
CL153 8 ounces | 12 per case
- + **PAG 46-H**
CL154 8 ounces | 6 per case

Air Conditioning Fast Flush

Removes old oil & other contaminants. Compatible with R134a, 1234yf and R12 A/C lubricants.

+ **CL158** 32 ounces | 6 per case

BRAKES

Did You Know?

The first brake system consisted merely of a block of wood and a lever. When drivers wanted to stop their vehicles, they had to pull the lever to make the block of wood grind against the wheels, gradually pulling to a halt.

Anti-lock brake systems or ABS as we now know it were first developed for aircraft use in 1929.

The brakes of a hybrid vehicle actually help charge the battery that powers the electric motor.

Formula 1 race cars have the most advanced braking systems in the world.

Premium Dot 4 Brake Fluid

DOT 4 Premium Brake Fluid Featuring Superior anti-vapor lock protection.

Use all sizes with equipment 500-8100M, 98002

+ **BK107**
12 ounces | 12 per case

+ **BK108**
32 ounces | 12 per case

Heavy Duty Dot 3 Brake Fluid

DOT 3 Premium Brake Fluid good for 450° protection for drum and disc brakes.

Use all sizes with equipment 500-8100M, 98002

+ **BK104**
12 ounces | 12 per case

+ **BK105**
32 ounces | 12 per case

+ **BK106**
1 gallon | 4 per case

Brake Parts Cleaner Non-Chlorinated

Mighty VS7 Non-Chlorinated Brake Cleaner provides excellent cleaning and high pressure flushing action for brake and clutch materials, as well as hard parts.

+ **BK103** 14 ounces | 12 per case

Brake Parts Cleaner Chlorinated

Mighty VS7 Chlorinated Brake Cleaner provides excellent cleaning and high pressure flushing action for brake and clutch materials, as well as hard parts.

+ **BK101** 18 ounces | 2 per case

Mighty Formula Brake Parts Cleaner Non-Chlorinated

Mighty Formula VS7 Enhanced Non-Chlorinated Brake Cleaner provides excellent cleaning and high pressure flushing action for brake and clutch materials, as well as hard parts.

+ **BK150** 14 ounces | 12 per case

Brake Parts Cleaner Low VOC

Mighty VS7 Low VOC Non-Chlorinated Brake Cleaner provides an excellent cleaning and high pressure flushing action for brake and clutch materials, as well as hard parts.

+ **BK102** 14 ounces | 12 per case

Synthetic Moly Disc Brake Caliper Grease

Mighty VS7 Synthetic Moly Lube is formulated to provide lasting protection against friction, wear and corrosion.

+ **BK122** 8 ounces

Dot 5 Brake Fluid

Specially formulated hydraulic brake fluid that provides superior benefits. Silicone DOT 5 Brake Fluid is essentially non-hygroscopic compared to conventional DOT 3 or DOT 4 brake fluids, absorbing less than one percent by weight of water. Not to be used in ABS system.

Use all sizes with equipment 500-8100M, 98002

+ **7012-6** 12 ounces | 6 per case

+ **7032-5** 32 ounces | 12 per case

+ **7032-55** 55 gallon drum

POWER STEERING

Power Steering Clean & Protect System Kit

Synthetic Power Steering Cleaning and Conditioning kit. *Use with equipment 207100M, PSX2000, PSX3000, 40400050*

+ **SB105** 6 kits per case

Universal Power Steering Fluid Kit

Conventional Power Steering cleaning and conditioning kit. *Use with equipment 207100M, PSX2000, PSX3000, 40400050*

+ **PS115** 4 kits per case

Synthetic Universal Power Steering Fluid Kit

Synthetic Power Steering cleaning and conditioning kit. *Use with equipment 207100M, PSX2000, PSX3000, 40400050*

+ **SB120** 4 kits per case

Synthetic Universal Power Steering Fluid Protectant

Synthetic Power Steering Protectant lubricates and protects the system.

Use with equipment 207100M, PSX2000, PSX3000, 40400050

+ **SB103** 4 ounces | 12 per case

Synthetic Power Steering Clean

Synthetic Power Steering cleaner designed to remove abrasive particles and clean the system. Use with equipment 207100M, PSX2000, PSX3000, 40400050

+ **SB104** 4 ounces | 12 per case

Power Steering Fluid

Keeps system clean and operating smoothly. Formulated with detergent-action and stabilizer additives to help make steering easier, quieter and smoother. Reduce bearing, piston and valve noise and wear. Prevents hardening and shrinkage of seals.

+ **PS102** 12 ounces | 12 per case

+ **PS103** 32 ounces | 12 per case

+ **PS110** 1 gallon | 4 per case

Synthetic Power Steering Fluid

Formulated for use in all power steering systems. Including CH+ and electric hydraulic assist power steering units.

+ **PS111** 64 ounces | 4 per case

Power Steering Fluid

Conventional fluid formulated for domestic and imported vehicles.

+ **PS112 Red**
64 ounces | 4 per case

+ **PS113 Clear (Honda/Acura Approved)**
64 ounces | 4 per case

+ **PS107 (Honda/Acura Approved)**
32 ounces | 12 per case

+ **PS104 (Honda/Acura Approved)**
12 ounces | 12 per case

Honda Power Steering Fluid

Synthetic specially formulated for Honda/Acura vehicles.

+ **PS101**
12 ounces | 12 per case

MAINTENANCE

Glass Cleaner

Easy to use. Cuts through dirt and grime, leaves no residue.

⊕ **MN103** 18 ounces | 12 per case

Hood & Door Latch Lubricant

This non-staining formulation is a water resistant gel that will resist runoff and contains PTFE.

⊕ **MN111** 11 ounces | 12 per case

Silicone Spray

Reduce friction and unwanted noise. Prevents cracking of rubber material and extends rubber life.

+ **MN106** 10 ounces | 12 per case

Anti-Seize Thread Compound

Prevents corrosion lubricate for easy disassembly.

+ **MN101** 8 ounces | 12 per case

White Lithium Grease

Lubricates metal-to-metal and metal-to-plastic moving parts. This multi purpose product resists moisture and corrosion.

+ **4604** 11 ounces | 12 per case

Inventory Management

Let our trained Mighty representatives save you the time and hassle of managing your inventory – giving you more time to service your customers and run your business. We'll keep your inventory at optimal levels to increase bay efficiency without tying up excess cash in unneeded parts.

Penetrating Oil

Penetrates quickly to loosen frozen fasteners and leaves behind a protective film to prevent corrosion.

+ **MN105** 11 ounces | 12 per case

Foaming Engine Degreaser

Removes heavily caked on grease from engine compartment. Dries with no residue.

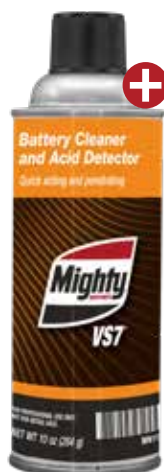

+ **MN102**
18 ounces | 12 per case

Universal Sealer

Rejuvenates seals and gaskets in gas or diesel applications. Good for engine, transmission or power steering systems.

+ **MN107** 10 ounces | 12 per case

Battery Cleaner & Acid Detector

Cleans and protects battery terminals, clamps and connectors. Removes corrosion from terminals and leads. Excellent acid detector.

+ **MN112** 10 ounces | 12 per case

Multi Purpose Total Dye

Use with motor oil, hydraulic fluid, P/S fluid, brake fluid*, diesel fuel, gasoline and ATF.

+ **MN171** 1 ounce | 12 per case

+ **MN172** 8 ounces | 12 per case

Battery Protector & Corrosion Inhibitor

Protects vital battery components and inhibits corrosion on terminals. The pliable formula flows into cracks for better protection.

+ **MN113** 11 ounces | 12 per case

Windshield Washer Solvent Concentrate

Hyper-concentrated windshield wash is formulated to remove bugs, smudges and other contaminants. Ratio 1 gallon to 660 gallons.

+ **MN109**
16 ounces | 12 per case

+ **MN114**
1 gallon | 6 per case

Clear RTV Sealant

Temperature range of -60F to 400F.

+ **MN117** 8 ounces

Black RTV Sealant

Temperature range of -40F to 450F.

+ **MN118** 8 ounces

Blue RTV Sealant

Temperature range of -60F to 400F.

+ **MN119** 8 ounces

Hi-Temp Red RTV Sealant

Temperature range of -60F to 550F.

+ **MN120** 8 ounces

Educational Videos

What's the Importance of a Vehicle Inspection?

Due to lengthening intervals, full vehicle inspection during your preventive maintenance services is more important than ever! This animation explains the inspection process as well as the benefits to finding potential problems that need correcting.

Why Should I Have My Fuel System Serviced?

The smallest speck of dirt, carbon or other deposits can affect fuel delivery. Within 4k - 5k miles, this can cause new engines to lose efficiency.

How Often Should I Have My Oil Changed?

Changing your oil is one of the most important forms of vehicle maintenance, because it protects vital engine components.

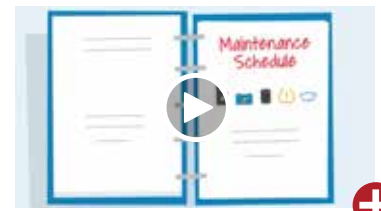

What Type of Oil Should I Use?

With three different types of oil, which one should you choose? Understand the differences between these three types.

What Type of Oil Filter Are You Using?

With extended oil change intervals, it's more important than ever to make sure the right oil filter and oil combination is being used.

Do I need to Follow My Manufacturer's Schedule?

Every vehicle has a preventive maintenance schedule that is designed to extend the life of your vehicle.

Should I Have My Transmission Serviced?

Most vehicles have either an automatic or continuously variable transmission (CVT). These complex systems have their own computer and electronic components, making servicing them extremely important.

How Important is Your Vehicle's Serpentine Belt?

The serpentine belt is located on the front of your engine, and if this belt ever breaks or wears out, you could be in real trouble! But do you know why?

Should I Have My Power Steering Serviced?

The hydraulic pump in your power steering system assists you in turning your vehicle easily. Over time the fluid can break down as well as the rubber and nylon O rings, seals and hoses.

Do I Need to Have My Cooling System Serviced?

With today's complex vehicles, manufacturers specify different types of coolant, making it harder than ever to spot leaks or potential problems.

Do I Need to Have My Battery Maintained?

Though today's batteries say they are "maintenance free," corrosion and dirty battery terminals can create poor connections and cause your battery to lose charge.

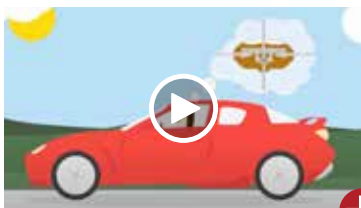

What Does Your Cabin Air Filter Do?

Do you know what you're breathing in your vehicle? This video describes what a cabin air filter is, what it does, and why it's an important part of vehicle inspection and needs to be changed regularly.

What Type of Wiper Blade is Best for My Vehicle?

With the various types of wiper blades that come equipped on today's vehicles, do you know which type of blade is best for yours? This animation will help you identify the best blade for your needs.

What is Differential?

This animation helps to explain what your differential is, as well as the different types. Your differential should be serviced approximately every 30k-40k miles, depending on your driving patterns.

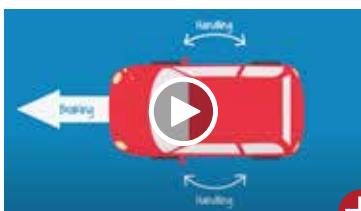

When Should I Have My Brakes Checked?

Have you ever heard a loud squeal, grinding or any other unusual noise coming from your brakes? Maybe you've felt a pulsating, soft and spongy brake pedal or even a shimmy when you apply pressure to the brake pedal? Time to have your brakes checked!

Why Should My Tires Be Inspected?

Your tires are what keep your vehicle connected to the road, so they require regular inspection. Make sure to have your tire repair and inspection done right.

How Do Tire Pressure Monitoring Systems (TPMS) Work?

This animation will help to explain how TPMS works, what the warning light means and why you should have your TPMS maintained.

Why Should I have My Brake Fluid Serviced?

Brake fluid is often the most neglected component of braking systems. It transfers the pressure from your foot on the pedal to the brakes, so that you can safely stop your vehicle.

Engine SHIELD

***Mighty VS7® Engine SHIELD
is the most advanced comprehensive
Engine Protection available.***

Mighty VS7 Engine SHIELD provides engines unsurpassed protection above and beyond conventional, synthetic blend and full synthetic engine oils. The VS7 Engine SHIELD is scientifically engineered to reduce friction, increase horsepower, displace heat, support optimal performance and efficiency.

Features & Benefits

- + Supports Increased Horsepower and Performance
- + Reduces Metal to Metal Friction and Wear of Critical Engine Components
- + Eliminates Dry Starts
- + Displaces Heat
- + Extends Engine Life
- + Reduces Thermal Breakdown of Lubricants
- + Reduces Oil Consumption
- + Will Not Affect Manufacturers Limited Warranties

Mighty VS7 is compatible with all oils, and works especially well with the new 0 weight synthetics!

Works well in gasoline and diesel engines, and will not void manufacturers warranties!

Pre-Owned Vehicle Protection Program

***The Mighty VS7 Pre-Owned Vehicle Protection Program gives buyers
peace of mind knowing their new investment comes with added protection.***

Here's how it works:

- Install the four products in the Mighty VS7 Used Car Kit (UC100)
- The vehicle purchaser receives repair coverage on the four system services involved, namely, fuel, engine, cooling and transmission
- Amount of Coverage: Up to \$1500
- Length of Coverage: 6 months or 6,000 miles
