

MERLIN
DIESEL SYSTEMS

Industry Leaders in Diesel Fuel Injection

Originally established in 1947 in Halifax, Yorkshire producing diesel fuel injection test equipment, the name 'Merlin' has been synonymous with fuel injection for over 75 years.

Merlin Diesel Systems as it is known today is a global leader in the industry, and our Preston Headquarters is home to an OE Authorised Remanufacturing Division, Test Equipment Production Centre and Distribution Centre.

The Distribution Centre houses over 50,000 unique part references, covering New and Exchange fuel injectors and pumps, repair parts, filtration and tooling worth over £22 million. We are proud to be authorised distributors for the major OE manufacturers; Bosch, Delphi, Denso, Continental, Stanadyne, Hartridge, Robiel & Disa.

Merlin HQ

As we continue to service our growing customer base and keep ahead of the diversity in the Diesel Market, we have expanded our HQ facility to 7,153m² with plans in place for further expansion, to over 9,100m² this year.

Merlin Diesel Systems

Specialists in Diesel Fuel Injection for over 75 years

Parts Divsion

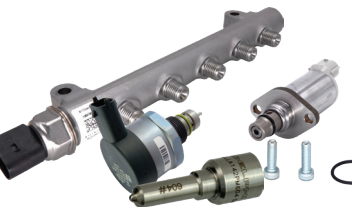

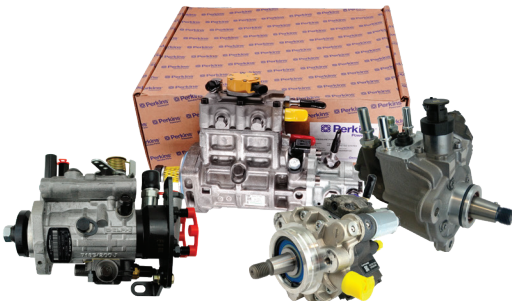

Diesel Fuel Injectors

As authorised distributors for all major OE manufacturers, we hold over 7,600 unique injector part references, covering a wide range of technologies with new and exchange options available.

Diesel Fuel Pumps

Our range and stockholding of diesel fuel pumps is unrivalled globally, with over 19,000 unique part references stocked and OE authorised distribution, covering new, exchange and built-to-order options.

Repair Parts

We are authorised distributors for repair parts for all major OE manufacturers, and in conjunction with our Test Equipment Division, Tooling and Training Programmes, we can supply repair parts covering all technologies and applications of diesel repair.

Filtration

As authorised distributors for Mann & Hummel, Baldwin, Fleetguard and Hi-Fi, as well as Bosch and Delphi Technologies Filtration, and over 86,000 product lines, we can provide for all your filtration needs.

Diagnostics

In order to support the diesel repair and garage networks in the UK and Ireland, we also stock and support a variety of on and off-engine diagnostics.

Test Equipment Divsion

Automotive Test Benches

Merlin Diesel Systems offer a wide range of bespoke Test Equipment solutions covering all aspects of automotive diesel fuel injection repair.

We constantly strive to be at the forefront of technology to test and repair all applications on the aftermarket, with our automotive test equipment range covering technologies such as:

- Common Rail
- Piezo
- Rotary
- Inline
- EUI
- EUP
- XPI
- HEUI
- HPO
- QSK
- HPI
- PT

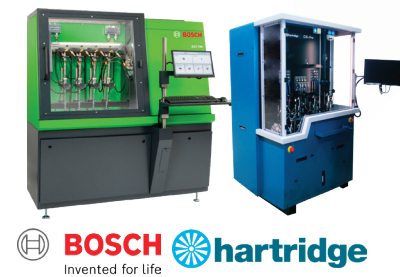

Heavy-Duty & Marine

The name Merlin has been synonymous with Diesel Fuel Injection Test Equipment since 1947.

Our range of marine test benches are in service throughout the world, and are capable of handling any application, from testing pumps and injectors of smaller vessels such as fishing boats, fast ferries or ROROs, to the larger container vessels, bulk carriers, superyachts and leisure craft.

Authorised Distribution

Merlin Diesel Systems are proud to be authorised distributors for Bosch and Hartridge Test Equipment and Tooling in the UK and Ireland. Amongst our extensive product offering is the DCI 700 and DCI 200 Test Stands from Bosch, the Hartridge Sabre Series and the CRI-PRO.

Tooling & Training

We also provide a wide and comprehensive range of tooling for diesel repair, and in-depth training courses for diesel fuel inejction repair.

Remanufacturing Divsion

Due to recent expansion and development of Merlin HQ, and an investment of over £1 million in a new Remanufacturing Division, which is a fully equipped, state-of-the-art facility with over 20 OE standard test benches in operation.

We have full authorised approval of our OE diesel suppliers, and all our technicians are OE manufacturer trained. Our remanufacturing programs cover a comprehensive range of applications, including:

- Car
- Commercial
- Off-Highway
- Agricultural
- Marine

All assembly procedures are carried out in a clean room environment, and OE parts are used throughout.

To further support our remanufacturing division, we are also able to utilise the facilities and expertise of the Merlin Group; Feather Diesel Services, Tyne Electro Diesel Ltd. & Colchester Fuel Injection Ltd.
