air fresheners

CAR AIR FRESHENERS RANGE

CELLULOSE

Simple paper soaked with the perfume composition. The most popular form of car air freshener and the one that allows the best brand presentation.

POLYMER

A safe material incorporating fragrance which is released in the evaporation process.

2 forms of packaging

ORGANIC

Organic material soaked with perfume. Most powerful in terms of fragrance intensity and still one of the best sellers.

SACHET

Sachet made of the PCR expanded glass highly absorbing the perfume composition.

2 forms of packaging

WOOD

Europe's number 2 best selling air freshener. Made of the high quality wood which, when soaked releases a liquid fragrance during the evaporation process.

CELLULOSE

World famous taste reflected perfectly in a form of a fragranced car air freshener. Enjoy PEPSI with all your senses.
