

We guarantee the reliability of FEBEST parts during the two years since installation or during 30 000 km which comes first.

FEBEST offers budget-friendly prices and cost-effective solutions for parts replacement. While OEMs suggest mostly the whole assemblies for damaged parts replacement, FEBEST provides a variety of assembly components and repair kits to replace solely the broken part to avoid overpaying.

We make free daily deliveries to Sharjah, Ajman, Dubai, Abu Dhabi to keep up the stock availability near you. We also deliver internationally. We value your time, that's why we've made an order process convenient and simple for you.
