Agricultural Oil (Universal Tractor Oil)

INDUSTRIES WE SERVE

Our lubricants are used by the automotive industry as well as various other industries and ensure the smooth functioning of automotive engines and industrial machines. Quality Virgin Base Oils and carefully selected lubricant additives are used to blend a range of lubricants. Our lubricants are formulated to the highest international specifications set by international bodies such as the American Petroleum Institute (API).

MOTOR VEHICLES

Our range of high-performance engine oil products are designed to protect what matters throughout your vehicle's engine and critical system components.

INDUSTRIAL

Advanced technology lubricants designed to deliver robust protection and reliable operational performance across a wide range of industrial applications.

TRUCKERS

Premium products for bumper-to-bumper protection helping achieve the most performance out of every kilometer; maximizing vehicle uptime and minimizing operating cost.

MINING

Our Lubricants for mining and quarrying is designed to offer durable protection, reliability and efficiency in high-pressure industrial operations.

NATIONAL OIL COMPANIES

Industrial lubricants for energy exploration and production, designed for operating environments found in the oil & gas exploration and production industry.
