

## Intersec 2025 - LDA Audio Tech Presents EVAC Cloud and NEO+: Advanced EN 54 Solutions for Connected Security

Málaga, Spain, November 28, 2024 – LDA Audio Tech will attend [Intersec 2025](#) with an innovative approach focused on the connected and efficient management of EN 54-certified public address and voice alarm systems. The highlight of this year is **EVAC Cloud**, the company's new cloud-based platform, accompanied by the **NEO+** system, which, months after its launch, continues to establish itself as a versatile and robust option for PA/VA projects.

[EVAC Cloud](#) enables remote management of public address and voice alarm installations from anywhere with internet access, offering real-time notifications and incident resolution. Designed for environments requiring reliability and regulatory compliance, the platform centralizes critical notifications and simplifies system status communication, streamlining daily maintenance and management tasks.

EVAC Cloud is fully compatible with EN 54-certified systems and integrates cybersecurity guidelines based on international standards, such as the Euralarm/CoESS framework and IEC 62443 directives.

On the other hand, [NEO+](#) is a public address and voice alarm system launched in 2024 that stands out for its flexibility and integration capabilities. It features [AES67 level 3 digital technology](#), a more powerful and robust processor, hot backup redundant controller functionality, and the ability to connect up to 32 microphones or evacuation panels directly (ACSI v2). All of this is achieved while maintaining EN 54-16 certification.

At **booth 4F09**, visitors will have the opportunity to explore the potential of EVAC Cloud as a remote supervision and support platform, as well as the capabilities of NEO+ in ensuring secure environments tailored to the needs of diverse projects.

**Intersec** is one of the world's leading trade fairs for security, fire protection, health, and safety. Held in Dubai, it brings together industry leaders, innovators, and professionals from around the globe to explore advanced technologies and build connections. The

event features over 1,200 exhibitors from more than 140 countries, making it a key meeting point for the global security industry.

[LDA Audio Tech](#) has been a long-time exhibitor at Intersec, showcasing its innovations year after year. With more than four decades of experience, it's one of the world's leading manufacturers of audio, public address and voice alarm systems for evacuation, exporting to more than 60 countries around the world.
