ABOUT IDPOINT

With 25 years of industry experience, idPoint is a pioneer in physical security and access control solutions, having completed over 10,000 projects across Saudi Arabia. Backed by ISO 9001:2015 certification, we offer a wide range of products, including flap barriers, speed swing gates, tripod turnstiles, full-height turnstiles and more.

Our products are also HCIS (High Commission for Industrial Security) compliant, ensuring the highest safety standards for industrial sites, government buildings, and other sensitive areas. By choosing idPoint, you're investing in advanced, reliable technology designed to secure vital spaces with seamless service and support.

MISSION & VISION

Mission

To elevate security standards across the Kingdom by delivering world-class security solutions tailored to the unique needs of our clients.

Vision

To be the foremost authority in providing cutting-edge and reliable security solutions, setting the benchmark for excellence in access control across Middle East markets.

WHY US

1. **Extensive Experience:** Over two decades of expertise with more than 10,000 successful implementations.
2. **Industry Pioneers:** Leaders in access control solutions for private and public sectors.
3. **Quality Assurance:** ISO 9001:2015 certified, ensuring top-notch product and service quality.
4. **Diverse Product Range:** Tripod turnstiles, full-height turnstiles, flap barriers, swing gates, and more.
5. **Customized Solutions:** Tailored to meet unique customer requirements.
6. **Reliability:** Dependable, technologically advanced solutions ensuring safety and peace of mind.
7. **Customer Satisfaction:** Seamless experience from consultation to project completion.

OUR PRODUCTS

Our products are approved by the High Commission for Industrial Security (HCIS) for industrial and high-security environments. This compliance guarantees that our turnstiles and security gates meet the highest safety and security standards, making them ideal for use in sensitive areas such as industrial sites, government buildings, and large-scale corporate facilities.

By choosing idPoint's HCIS-approved products, you are not only investing in advanced technology but also in a solution recognized for its robustness, reliability, and ability to secure vital spaces.

Our team is dedicated to providing tailored solutions that meet your specific security needs, ensuring seamless integration and unparalleled service.

FLAP BARRIERS

Our products are approved by the High Commission for Industrial Security (HCIS) for industrial and high-security environments. This compliance guarantees that our turnstiles and security gates meet the highest safety and security standards, making them ideal for use in sensitive areas such as industrial sites, government buildings, and large-scale corporate facilities.

By choosing idPoint's HCIS-approved products, you are not only investing in advanced technology but also in a solution recognized for its robustness, reliability, and ability to secure vital spaces.

Our team is dedicated to providing tailored solutions that meet your specific security needs, ensuring seamless integration and unparalleled service.

***Effortless Flow,
Powerful Protection.***

SPEED SWING GATES

Our Speed Swing Gates are engineered with precision and crafted in Saudi Arabia, offering cutting-edge solutions for secure and efficient access management. These gates are perfect for use in corporate buildings and offices, providing fast, seamless entry and exit for both pedestrians and vehicles.

Key Features:

Single & Double-Side Low Barrier Options

Extra Height Barrier Options

Durable High Quality Stainless Steel

Powder Coated Finish

Designed to cater to the specific needs of corporate buildings and offices, our speed swing gates provide an ideal combination of security, convenience, and modern design. They offer controlled access without compromising the flow of foot traffic, making them perfect for high-traffic areas while ensuring safety.

***Fast Access,
Reliable Protection.***

SWING GATES

Our Saudi-made swing gates are crafted with precision using premium stainless steel and glass, ensuring both strength and a sleek, modern look. These gates are built to withstand heavy usage and harsh environments, making them ideal for corporate park entry/exit facilities, gyms, hotels, and airports.

Equipped with a motorized facility, our swing gates offer smooth, efficient, and secure access. The gates feature a single/dual synced motorized mechanism, providing seamless operation, while the stainless steel & glass arm design adds a touch of sophistication to any entrance.

Choose IDPoint for robust, reliable, and stylish swing gates that elevate your facility's security and aesthetic appeal.

***Smooth Entry,
Seamless Protection.***

TRIPOD TURNSTILES

Our Saudi-made Tripod Turnstiles designed to enhance security and streamline access control. Crafted from high-quality stainless steel and finished with a powder-coated surface, our turnstiles offer unmatched durability and a sleek, modern appearance that fits perfectly in various environments.

Our turnstiles feature Drop Arm & Fixed Arm models with multiple stand options, allowing flexibility to suit your specific facility needs. With advanced access control capabilities and a motorized facility, the turnstiles provide seamless, automated entry and exit. The single/dual synced motorized mechanism ensures smooth and efficient operation. Tripod Turnstiles are ideal for a wide range of applications, including corporate park entry/exit facilities, amusement parks, railways, government offices, hospitals, gyms, hotels, and airports.

***Streamlined Security,
Superior Protection.***

FULL HEIGHT TURNSTILES

idPoint offers a wide variety of Full Height Turnstiles designed to meet diverse security needs. Our range includes both single and double entry gates, available in 3-arm and 4-arm configurations, ensuring flexibility for various access control requirements.

Our full height turnstiles feature both motorized and mechanical mechanisms for optimal performance. Made from durable stainless steel and powder-coated for added protection, all products comply with **HCIS** standards.

Proudly made in Saudi Arabia, our full height turnstiles provide reliable, long lasting security solutions.

***High Security,
Maximum Protection.***

MANAGEMENT MESSAGE

As leaders in security solutions, we are committed to empowering organizations with innovative technologies that meet the evolving security landscape. Our focus on quality, reliability, and customer satisfaction has earned us trust across various sectors.

Our journey is marked by a relentless pursuit of excellence, from material selection to product testing. We aim to continue delivering world-class security solutions while contributing to the national economy and advancing local capabilities.

Thank you for choosing idPoint as your security partner. Together, we can build a safer future for Saudi Arabia.

SAUDI VISION 2030

At idPoint, we take pride in our Saudi-made turnstile solutions, contributing to the nation's security infrastructure and economic development.

Our products are designed and manufactured in Saudi Arabia, ensuring the highest quality while promoting local talent and innovation. By choosing idPoint, you are investing not only in cutting-edge security technology but also in the future of the Kingdom. We are really proud of ourselves that we are making Saudi strong under Saudi Vision 2030

The idPoint logo is displayed within a white circle that has a green border. The logo itself consists of the word "idPoint" in a bold, sans-serif font, with a small green dot above the letter "i".
