

Fire, BMS & ELV Solutions

About Us

Blaze Care Technical Services LLC is a UAE-based company specializing in comprehensive fire protection services and ELV (extra-low voltage) solutions. We are an A+ grade company accredited by the Civil Defence and certified by the Security Industry Regulatory Agency (SIRA) for our expertise in fire alarm, fire fight systems, and ELV solutions such as CCTV, access control, automation, intercom systems, Barriers, intruder systems, parking management, PABX & building management solutions.

Our team of highly skilled professionals is dedicated to providing our clients with top-quality installation, maintenance, and repair services for fire alarm and fire fighting systems and emergency exit lighting, automations and ELV solutions. We take pride in our ability to provide effective solutions to a wide range of clients, including those in industrial, residential, and commercial sectors.

At Blaze Care, we understand the importance of fire protection and ELV systems in ensuring the safety and security of people and property. That's why we are committed to delivering top-notch services to our clients, right from the design and supply stages to installation, commissioning, and ongoing maintenance. With our expertise and dedication, we strive to exceed our clients' expectations and provide them with peace of mind knowing their properties are protected.

Our Mission

Our mission at Blaze Care Technical Services LLC is to deliver unparalleled fire protection, BMS, and ELV solutions to our clients in the UAE, with a focus on customized solutions that meet their unique needs and requirements. We are committed to providing innovative, reliable, and cost-effective solutions that ensure the safety and security of our clients' properties and people.

Our Vision

Our vision is to be the leading provider of comprehensive and integrated fire protection systems, automation systems, and ELV solutions in the UAE. We aim to set the standard for excellence in design, installation, maintenance, and innovation, becoming the partner of choice for businesses seeking to protect their assets and ensure the safety of their people

Our Services

Fire Protection Systems (AMC)

Provides regular inspection and maintenance, keeping the protection system fully functional and in compliance with safety regulations.

Advanced security solutions including CCTV, Access Control, barriers, PABX, and Intercom systems that ensure maximum building security.

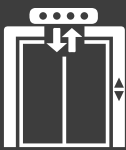

Building Management System (BMS)

System (BMS) integrates HVAC, lighting, fire safety, and security into a single, efficient platform. It offers real-time monitoring, energy savings, and easy control, ensuring a secure and comfortable environment.

Elevator & Lift System

Blaze Care provides comprehensive elevator and Lift solutions designed for reliability and efficiency in vertical transportation

Room Integrity Test System

Evaluates the effectiveness of your room's fire protection, verifying that barriers and seals maintain their integrity during a fire.

Expertise

Our highly skilled professionals bring years of experience to ensure efficient and effective solutions for all your needs.

Accreditation

We are a SIRA, ISO & Civil Defence accredited company, providing services with high safety and quality standards.

Comprehensive Services

From design to installation, commissioning, and maintenance, we provide all the comprehensive services.

Customer Satisfaction

Our clients' satisfaction is our top priority, and we strive to provide exceptional service and support throughout the entire process.

Customization

We understand that each client's needs are unique, and we provide tailor-made solutions to fit their requirements.

Latest Technology

We stay up-to-date with the latest technology and advancements in our projects to provide clients with the most innovative solutions.

Fire Alarm Systems

At Blaze Care Technical Services, we specialize in providing comprehensive fire alarm services designed to protect your property, employees, and assets. Our expert team offers a range of essential services, including system design, installation, maintenance, and 24/7 monitoring to ensure your fire safety needs are fully met.

We are committed to providing reliable, efficient, and proactive fire protection services, giving you peace of mind and ensuring swift and effective responses in case of emergencies.

Choose Blaze Care Technical Services for expert fire alarm services and experience the highest level of safety and security. Trust us to be your dedicated partner in safeguarding your environment against fire hazards.

We offer 24/7 service, providing round-the-clock support and maintenance for your fire alarm system to ensure continuous safety and reliability.

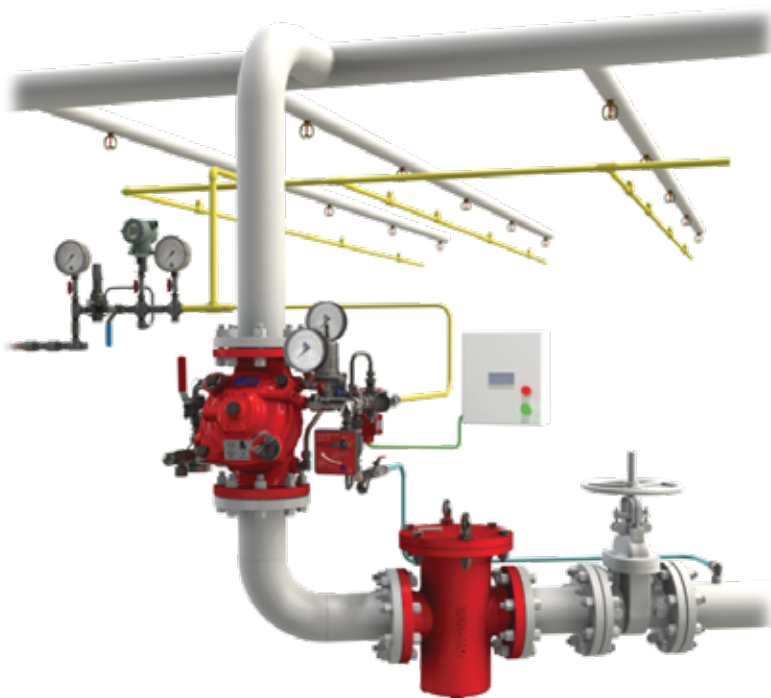

Fire Fighting Systems

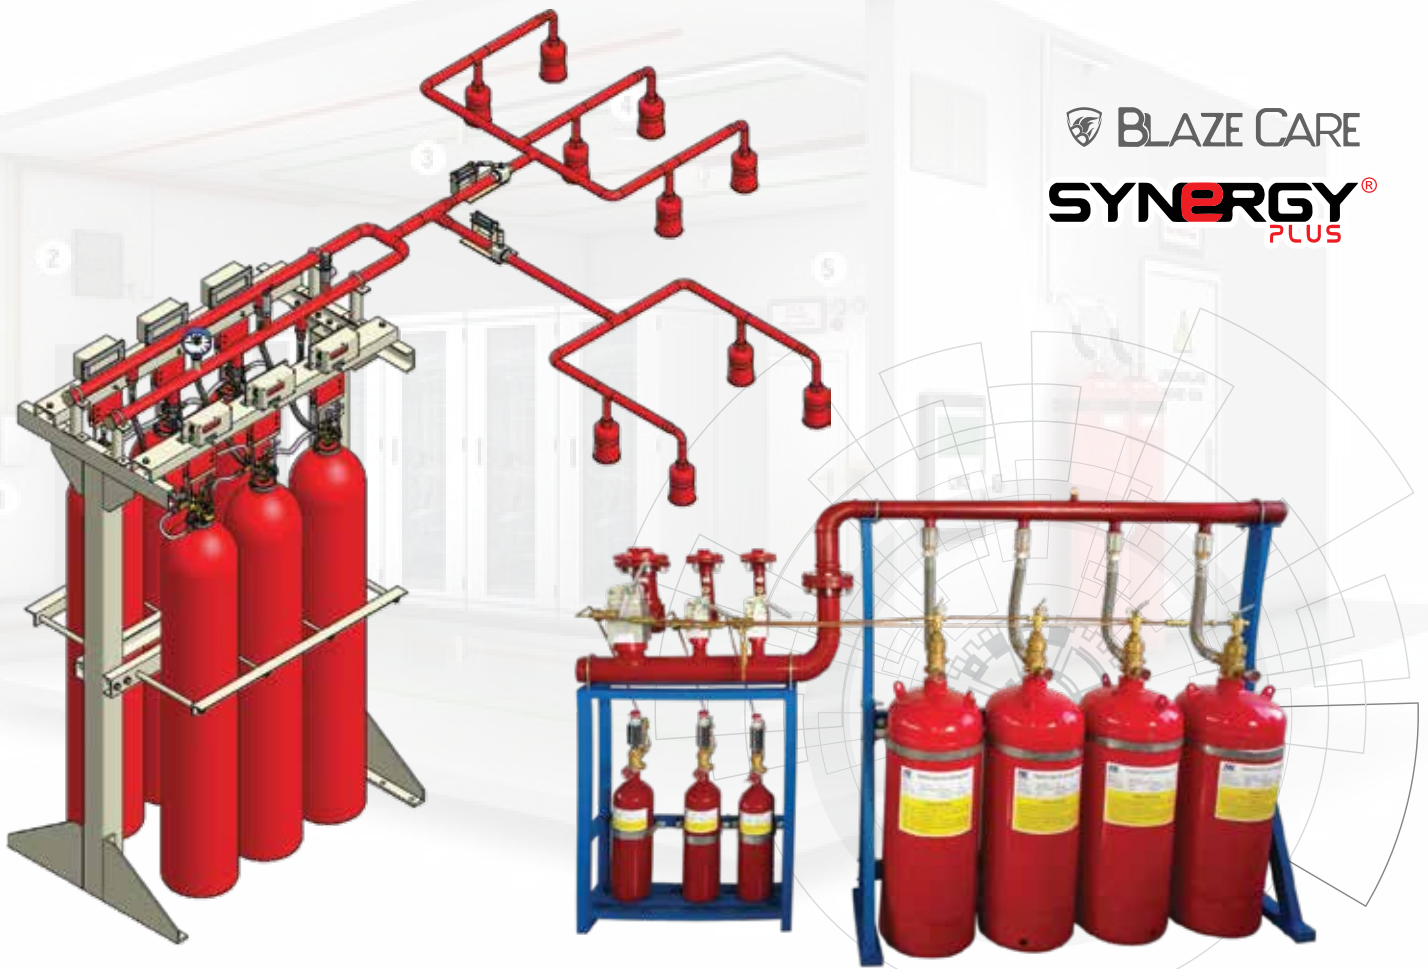

At Blaze Care Technical Services LLC, we specialize in providing cost-effective fire fighting systems designed to effectively manage and control fire emergencies. Our comprehensive fire fighting solutions include the latest technology in suppression systems, hoses, pumps, and sprinklers, tailored to meet the unique needs of your facility.

Our expert team ensures that each system is installed and maintained with precision, adhering to the highest industry standards. Whether for residential buildings, commercial properties, or industrial sites, our fire fighting systems are engineered to offer reliable performance when you need it most.

Choose Blaze Care as your service provider, and benefit from our commitment to delivering efficient fire fighting solutions that enhance safety and protect your assets.

We offer expert installation, maintenance, and inspection of fire alarm and fire fighting systems. Our experienced team ensures reliable, on-time service, providing comprehensive solutions tailored to your needs. We are dedicated to safeguarding lives and property with high-quality, dependable systems.

Fire Suppression Systems U/L Listed

At Blaze Care Technical Services LLC, we offer advanced fire suppression systems designed to effectively protect your valuable assets and ensure safety during a fire emergency. Our premier solution features the Clean Agent Fire Suppression system i.e Synergy 1230, branded as Synergy Plus, a UL listed gas that is environmentally friendly and highly efficient.

The Synergy Plus system delivers rapid fire suppression without leaving any residue, making it ideal for sensitive environments and locations with critical equipment.

As your dedicated service provider, we ensure that each fire suppression system is installed and maintained with the utmost precision and reliability. Trust Blaze Care to provide top-tier fire suppression solutions that enhance safety and protect your facility while being environmentally conscious.

We are specialized in advanced, Eco-friendly fire suppression systems, including the UL-listed Gas Synergy Plus 1230. We offer durable and cost-effective solutions that prioritize both effective fire protection and environmental responsibility

Emergency Lighting Systems

Blaze Care provides high-quality emergency lighting systems that ensure visibility during power outages or emergencies. Our solutions are budget-friendly and durable, designed to maintain clear exit paths and enhance safety in critical situations.

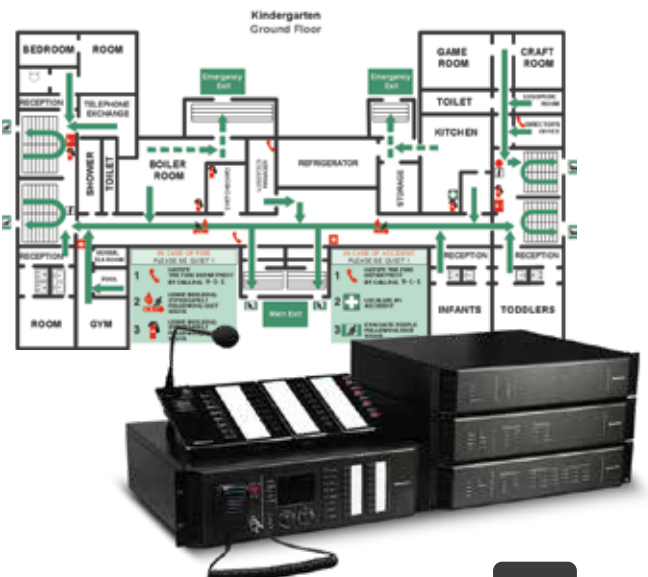

Fire Evacuation & PA Systems

At Blaze Care Technical Services LLC, we specialize in creating effective fire evacuation plans and providing advanced public address (PA) systems to ensure safety during emergencies. Our services include designing detailed evacuation plans tailored to your facility's layout and needs, ensuring that every occupant knows the safest and quickest route to exit.

Our PA systems complement these plans by delivering clear, real-time instructions and updates, helping to manage the situation smoothly and efficiently. These systems are essential for guiding people safely and keeping them informed during an emergency.

As your trusted service provider, Blaze Care is dedicated to delivering high-quality solutions that enhance safety and preparedness. We ensure that our fire evacuation plans and PA systems are implemented with precision and maintained to the highest standards.

“We are trusted service contractor, Blaze Care offers comprehensive maintenance and installation of Emergency/Exit Light Systems. We ensure your safety systems are fully operational, compliant, and ready for any emergency, providing peace of mind with reliable service and expert support.”

CCTV Solutions

Blaze Care has the expertise to maintain CCTV systems effectively, ensuring optimal performance and longevity. Our team provides professional maintenance services to keep your surveillance equipment running smoothly and reliably, safeguarding your property with ongoing support and expertise.

ELV Solutions

Blaze Care specializes in Extra Low Voltage (ELV) systems, encompassing solutions such as CCTV, access control, fire alarms, and public address systems. Our expertise ensures that these systems are not only efficient and reliable but also cost-effective. We provide ongoing maintenance to keep your ELV systems performing optimally, ensuring durability and long-term value.

We are specialized in providing the CCTV and ELV system services, ensuring continuous monitoring and maintenance for security and efficiency.

BMS Solutions

Our advanced Building Management System (BMS) offers a comprehensive solution to seamlessly integrate and monitor all critical building functions, ensuring maximum efficiency, safety, and comfort.

Our BMS provides centralized control, allowing you to manage and monitor HVAC, lighting, fire safety, and security systems from a single platform, giving you complete visibility and control. With energy efficiency at its core, the system enables significant energy savings through automated control and intelligent scheduling, tailored to your building's unique needs.

Stay informed with real-time monitoring, delivering data and analytics that empower proactive maintenance and quick response to any issues. The system's scalable design ensures it can grow with your business, easily integrating new systems and technologies as needed. Additionally, the user-friendly interface makes it easy to operate, ensuring smooth day-to-day operations.

“

We are specialized in maintaining budgeted and cost-effective building management solutions. Their expertise optimizes system performance, controls energy consumption, and implements efficient maintenance strategies, ensuring operational efficiency and cost savings.

”

Elevator and Lift Systems

Blaze Care provides comprehensive elevator and lift solutions designed for reliability and efficiency in vertical transportation. Our services include installation, maintenance, and upgrades to ensure smooth, safe, and cost-effective operation. With our expertise, we deliver durable elevator and lift systems that enhance building functionality and meet your specific needs.

Room Integrity Test Systems

At Blaze Care Technical Services LLC, we are a certified provider of Room Integrity Test Systems, ensuring your fire suppression systems operate with maximum efficiency. Our services include using advanced testing equipment to assess and verify the containment capabilities of your facility's rooms.

Our Room Integrity Test System measures air leakage and evaluates the room's ability to maintain the required pressure for effective fire suppression. This testing is essential for confirming that your system will perform optimally in the event of an emergency.

As a certified Room Integrity Test provider, Blaze Care is dedicated to delivering accurate and reliable testing services, ensuring that your fire safety measures are up-to-date and compliant with industry standards.

We ensure your fire-rated rooms perform as intended with our Room Integrity Testing. This service evaluates the effectiveness of your room's fire protection, verifying that barriers and seals maintain their integrity during a fire. Trust us to confirm that your safety measures are fully operational and compliant
