2.1 PERSONNEL

SEPTIMIUS SECURITY is the sum of diverse global expertise bringing together multiple perspective and deep experience to our operations. Our expertise reflects our backgrounds as strategy consultants, political scientists, intelligence officers and soldiers from diverse countries and backgrounds which has afforded us the flexibility and cross-cultural understanding necessary to develop long-term sustainable solutions for our clients. It is this combination based on multiple offices across several geographical regions that makes SEPTIMIUS SECURITY relative and distinctive.

01 International:

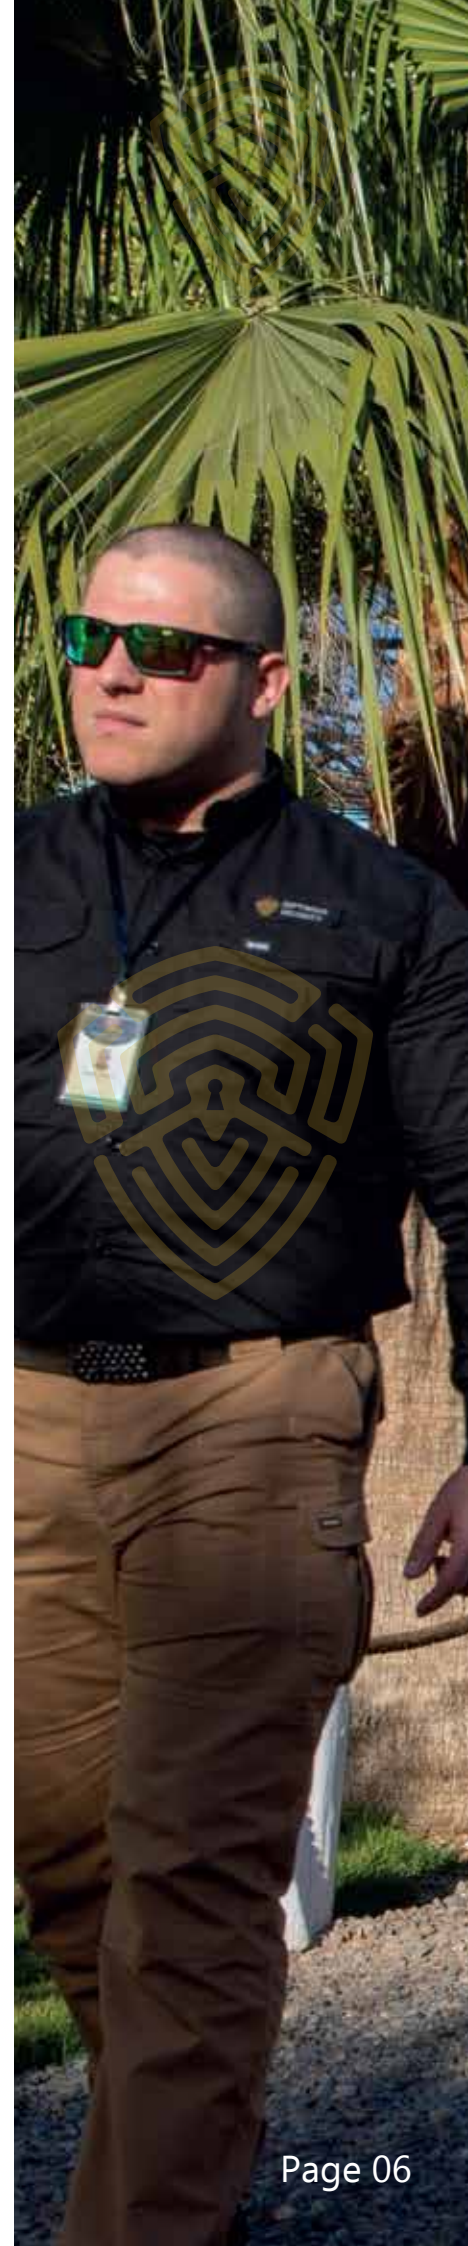

SEPTIMIUS SECURITY's database consists of 100+ expats, with different qualifications and nationalities. We hand pick our staff members in accordance with the client's needs, security situation and location.

02 Double Nationality:

SEPTIMIUS SECURITY can provide qualified and Experienced Dual passport holders.

03 Local:

Full / Part Time: Highly Trained and Experienced local professionals - Parallel Careers: In accordance with local Law we also have a wide range of employees that work in government entities such as the ministry of interior and the ministry of defence.

2.2 QUALITY ASSURANCE & CONTROL

SEPTIMIUS SECURITY's main objective is maintaining excellent service standards throughout the firm, including its highly qualified armed/non-armed personnel, armored & soft skin vehicles, technical support systems, security equipment, logistical support, and secure accommodation.

2.3 TASKS

Task Delivery:

SEPTIMIUS SECURITY personnel are assigned accordingly and therefore always familiar with the area of operations, not only the concerned route or facility. After the team is selected and approved by the clients, all relevant security forces in the area of operations are identified, your team will establish a communicate line, allowing an exchange of critical information regarding changes in the security environment.

Certified By:

Dealing with authorities:

SEPTIMIUS SECURITY maintains a strong working relationship with embassies, private and government security forces throughout the Africa & the MENA region, which allows us to have access to various resources from different government entities through mutual trust that has been built over a period of many years.

We keep relevant government entities notified of our movements and can call on them for additional assistance whenever necessary.

2.4 *TASK IMPLEMENTATION*

Operational Awareness:

Our clients are always up to date on the latest security procedures and security environment measures. Daily schedules are planned by our experienced staff to cater each client, location and security situation.

All incidents are reported immediately. Our response to any incident will be determined in accordance with the local Law and client guidelines. Our attention to detail, constant monitoring and feedback can save lives when the time comes and we always thrive to do our best.

Technical security consultants can be deployed upon request by our diverse team of international and Local personnel. We provide security briefings, arrival briefings, communications and logistical support while tracking client movements on all our missions.

2.5 *COMMUNICATION*

Personnel are equipped with all necessary tools of communication:

PRIMARY: Handheld Radios

CONTINGENCY: Satellite Telephones

ALTERNATE: Mobile Telephones

EMERGENCY: GSM & Satellite Trackers

2.6 *MANAGEMENT OF CONTRACT*

Operational Awareness:

SEPTIMIUS SECURITY is capable of mobilizing and implementing any contract within the Africa & the MENA region, large or small, within a very short time-line. Our operational experience and knowledge in

the Africa & the MENA region is unparalleled. SEPTIMIUS SECURITY's database consists of 200+ fully trained local staff members ready to be deployed.

Training and Employment:

The Africa & the MENA region Security personnel are trained by former military and police professionals that have decades of experience working in fluid environments. Our personnel undertake regular training exercises in addition to an initial 3 month training program that utilizes a combination of classroom and practical on-the-job training.

It includes tactical and procedural training on driving armored vehicles, personal security escorting, static guarding, perimeter patrolling, Africa & the MENA region criminal law, English language courses surveillance. We also employ staff that have received previous military or private security training. Staff evaluations are conducted on a monthly basis, providing insight on the Performance of each staff member.

Code of Conduct:

SEPTIMIUS SECURITY holds the highest standard in dress code, time management, supervision, And evaluation. We also carry out random drug, alcohol and medical testing.

SEPTIMIUS SECURITY strictly adheres to the International Code of Conduct for Private Security Service Providers (ICoCA)

Transport Management:

SEPTIMIUS SECURITY provides comprehensive journey management plans to all of our clients which can depend on the associated risks within a specific city or region; Variations may include armored police escorts, soft skin lead vehicles, tactical distances from

the main Mobile Security team clearing the main and alternate routes. The lead vehicle also monitors the environment prior to and during the trip, identifying evacuation routes in case of emergency.

Assistance in case of Emergency:

Septimius security's operation room's are always strategically located in different areas across the Africa & the MENA region. The operation rooms are in direct contact with all local security entities across the Africa & the MENA region, in the unlikely event that we require additional support or encounter any difficulties during our daily operations.

Clients are provided with a 24/7 emergency number and if for any reason the client feels threatened or the security situation deteriorates, our QRF (Quick Reaction Force) can be deployed to escort and transport them to a secure location that is determined during the initial planning. Evacuation and Crisis Management plans can be drafted by our security advisors upon request. These plans may include local police/army support.

Medical Assistance:

In addition to the emergency medical packs provided during mobile and static operations, further medical equipment can be supplied upon request, medevac support is available for all clients. SEPTIMIUS SECURITY regularly assess hospitals within close proximity

to specific areas of operation. SEPTIMIUS SECURITY has ambulances available for rent that can be onsite 24 Hours a day or on call. Private doctors are also available to visit client locations on short notice.

03 TRAINING

Septimius Security Training Courses are renowned for their top-quality and comprehensive coverage of all areas related to security training. The courses are designed to meet the needs of both novice and experienced professionals in the security industry and clients who require additional skills to enable them to operate safely in extreme and hostile environments.

One of the greatest strengths of these training courses lies in the proficiency of the instructors. Septimius Security takes great pride in having a team of highly qualified and experienced trainers who possess diverse backgrounds in the field of security. These instructors bring a wealth of practical knowledge and expertise to the training sessions, ensuring that learners receive the most up-to-date and relevant information.

The instructors at Septimius Security are not only highly skilled but also dedicated to delivering the best learning experience for their students. They understand the importance of both theoretical concepts and practical skills, and therefore incorporate a balanced approach into their training methods. This ensures that participants not only gain a thorough understanding of security principles but also develop the necessary skills to apply them effectively in real-world situations.

Additionally, the instructors at Septimius Security Training Courses are proficient in their ability to engage and motivate learners. They employ various instructional techniques, such as interactive discussions, case studies, role-plays, and hands-on exercises, to make the learning experience engaging and meaningful. This approach not only helps to keep participants actively involved but also enhances their understanding and retention of the subject matter.

The proficiency of the instructors is further demonstrated by the positive feedback received from past participants. Many individuals who have completed Septimius Security Training Courses have praised the expertise and professionalism of the instructors. They have highlighted the instructors' ability to simplify complex concepts, their willingness to address individual queries, and their commitment to ensuring that all learners are on track throughout the program.

Furthermore, the instructors at Septimius Security regularly update their knowledge and skills to keep up with the ever-evolving landscape of security. This enables them to deliver training that is current, relevant, and aligned with the latest industry standards and best practices. Their dedication to staying up to date ensures that participants receive the most accurate and practical information, empowering them to excel in their respective security roles.

In conclusion, Septimius Security Training Courses offer participants the opportunity to learn from proficient and experienced instructors. The combination of their practical knowledge, dedication to delivering an engaging learning experience, and commitment to staying updated makes these instructors experts in their field. Learners can be confident that they will receive comprehensive and high-quality security training that will equip them with the skills and knowledge needed to excel in their security careers.

Our specialized intelligence analysis services are crafted to meet the unique security needs of global entities operating in dynamic environments. Leveraging advanced methodologies and cutting-edge technologies, our dedicated intelligence team meticulously assesses specific security threats, providing actionable insights to safeguard the interests of our esteemed clients.

With a commitment to precision and discretion, we empower organizations to navigate complex security landscapes with confidence. Count on Septimius Security to deliver unparalleled expertise in intelligence analysis, ensuring the safety and security of international operations, assets, and personnel.

06 *EQUIPMENT*

Septimius Security offers an extensive selection of top-quality security equipment and tactical products through our online store and physical locations in North Africa. Our commitment to accessibility and excellence is reflected in both our brick-and-mortar stores, where customers can have hands-on access to our products, and our online store, which allows for easy and convenient shopping.

Our physical store in Tripoli, Libya is the leading supplier of security equipment, including items such as police gear, tactical gear, survival gear, and outdoor products. We understand the immense responsibility of ensuring the security of property and the safety of individuals, which is why we strive to provide the best gear available to help security officers handle any unexpected situation.

**SEPTIMIUS
STORE**

At Septimius Security, we know that security officers require gear that is not only reliable and functional, but also comfortable to wear. That's why we offer a wide range of options, including hats, uniforms, belts, boots, and more, from top brands that are known for their quality and durability. Our products are designed to not only meet the needs of security professionals, but also command authority and instill confidence.

Our team of staff members brings a wealth of knowledge and experience to the table, as many of them have served as former Police Officers, Military Personnel, and Private Security Operators. Drawing from this expertise, we have curated a specialist range of products that are specifically designed to provide the ultimate functionality and performance in any tactical situation.

Whether you choose to shop at our physical store or through our online store, you can trust that Septimius Security will provide you with the highest quality security equipment and tactical gear available. We are dedicated to helping you handle any security challenge with confidence and ease.

SEPTIMIUS SECURITY
Security & Safety Services

07 *AVIATION SECURITY SERVICES FOR AIRPORTS AND AIRCRAFT*

SEPTIMIUS specializes in providing aviation security services, covering all aspects of the aviation industry, such as airport checkpoints, terminals, passenger and baggage screening, and general airport facilities. Our operations extend to catering, air cargo, personnel, and all ramp areas, including ground handling, refueling, and loading operations during an aircraft's time on the ramp. Adhering to international civil aviation regulations, particularly those set by the International Civil Aviation Organization (ICAO) and required by the International Air Transport Association (IATA), our staff undergo training certified under ICAO standards.

All our AVSEC managers are graduates of the ICAO Professional Management program. We prioritize understanding the Geo Politics of our region and potential threats to airports or airlines, adopting a tailored approach rather than a one-size-fits-all strategy.

We collaborate closely with clients to understand their specific needs, offering tailored security solutions that mitigate risks and enhance operational efficiency.

Recognizing the importance of local dynamics, cultural sensitivities, and regional security concerns, our team provides accurate and timely intelligence updates, threat assessments, and situational analyses. This enables clients to make informed decisions and respond effectively to evolving security challenges in the oilfields.

Be ahead of tomorrow

At SEPTIMIUS SECURITY, we aim to be a trusted partner, delivering reliable, cost-effective, and customized security solutions to maintain a secure and stable environment in the oilfields, ensuring uninterrupted production and a safe working environment. Our combined experience, expertise, and technological competence instill confidence in our clients, allowing them to focus on what matters most. Our AVSEC services can be seamlessly integrated with additional ground-based guarding and protective services available on our website.

08 *CYBER SECURITY*

We offer a range of services that cater to the unique needs of each client, including:

Risk Assessment: We conduct thorough audits and assessments of our client's systems to identify any potential vulnerabilities or weaknesses. This helps us develop a tailored security strategy to protect their operations.

Security Awareness Training: We provide comprehensive training programs to educate employees about best practices in cybersecurity. This helps create a culture of cybersecurity awareness and empowers employees to play an active role in protecting the organization.

Incident Response: In the event of a cyber-attack or breach, our team is trained to quickly respond and mitigate any potential damage. We have well-defined incident response processes in place to minimize downtime and ensure business continuity.

Network Security: We implement robust firewalls, intrusion detection systems, and other network security measures to protect our clients' network infrastructure from unauthorized access, malware, and other cyber threats.

Data Encryption: We employ industry-standard encryption techniques to protect sensitive data from unauthorized access, both in transit and at rest. This ensures that even if data is intercepted or stolen, it will be unreadable.

Vulnerability Management: We regularly scan our clients' systems for vulnerabilities and apply patches and updates to address any potential weaknesses. This proactive approach helps minimize the risk of exploitation by cybercriminals.

Security Monitoring: We provide 24/7 monitoring of our clients' systems to detect and respond to any suspicious activities or anomalies. This allows us to quickly identify and neutralize potential threats before they can cause significant damage.

Overall, our cyber security services are essential for clients as they help safeguard their operations, reputation, and customer trust. By partnering with us, they can focus on their core business activities, knowing that their cybersecurity is in capable hands.

09 *CONCLUSION*

SEPTIMIUS SECURITY is a mature, competent, cost-effective partner for all your Protective and Risk Management service requirements in the Africa & the MENA region.

Our team is highly motivated and flexible, possessing an excellent understanding of the Africa & the MENA region. As international, dual nationality and local, SEPTIMIUS SECURITY Management Team live and

breathe the fluid political and security situation on a day to day basis.

SEPTIMIUS SECURITY ultimately provides peace of mind, enabling its clients to focus on achieving their business objectives, rather than dealing with the worries and concerns associated with the security of their employees and premises.

10 OUR CLIENTS

Our clients include national, international and global businesses in several sectors, government departments and multilateral organizations from many parts of the world with an increasing number of NGO's.
