Gtekesens[®] Company Profile

天津杰泰高科传感技术有限公司
TIANJIN G-TEK SENSOR TECHNOLOGY CO.,LTD

01

About G-TEK Sensor

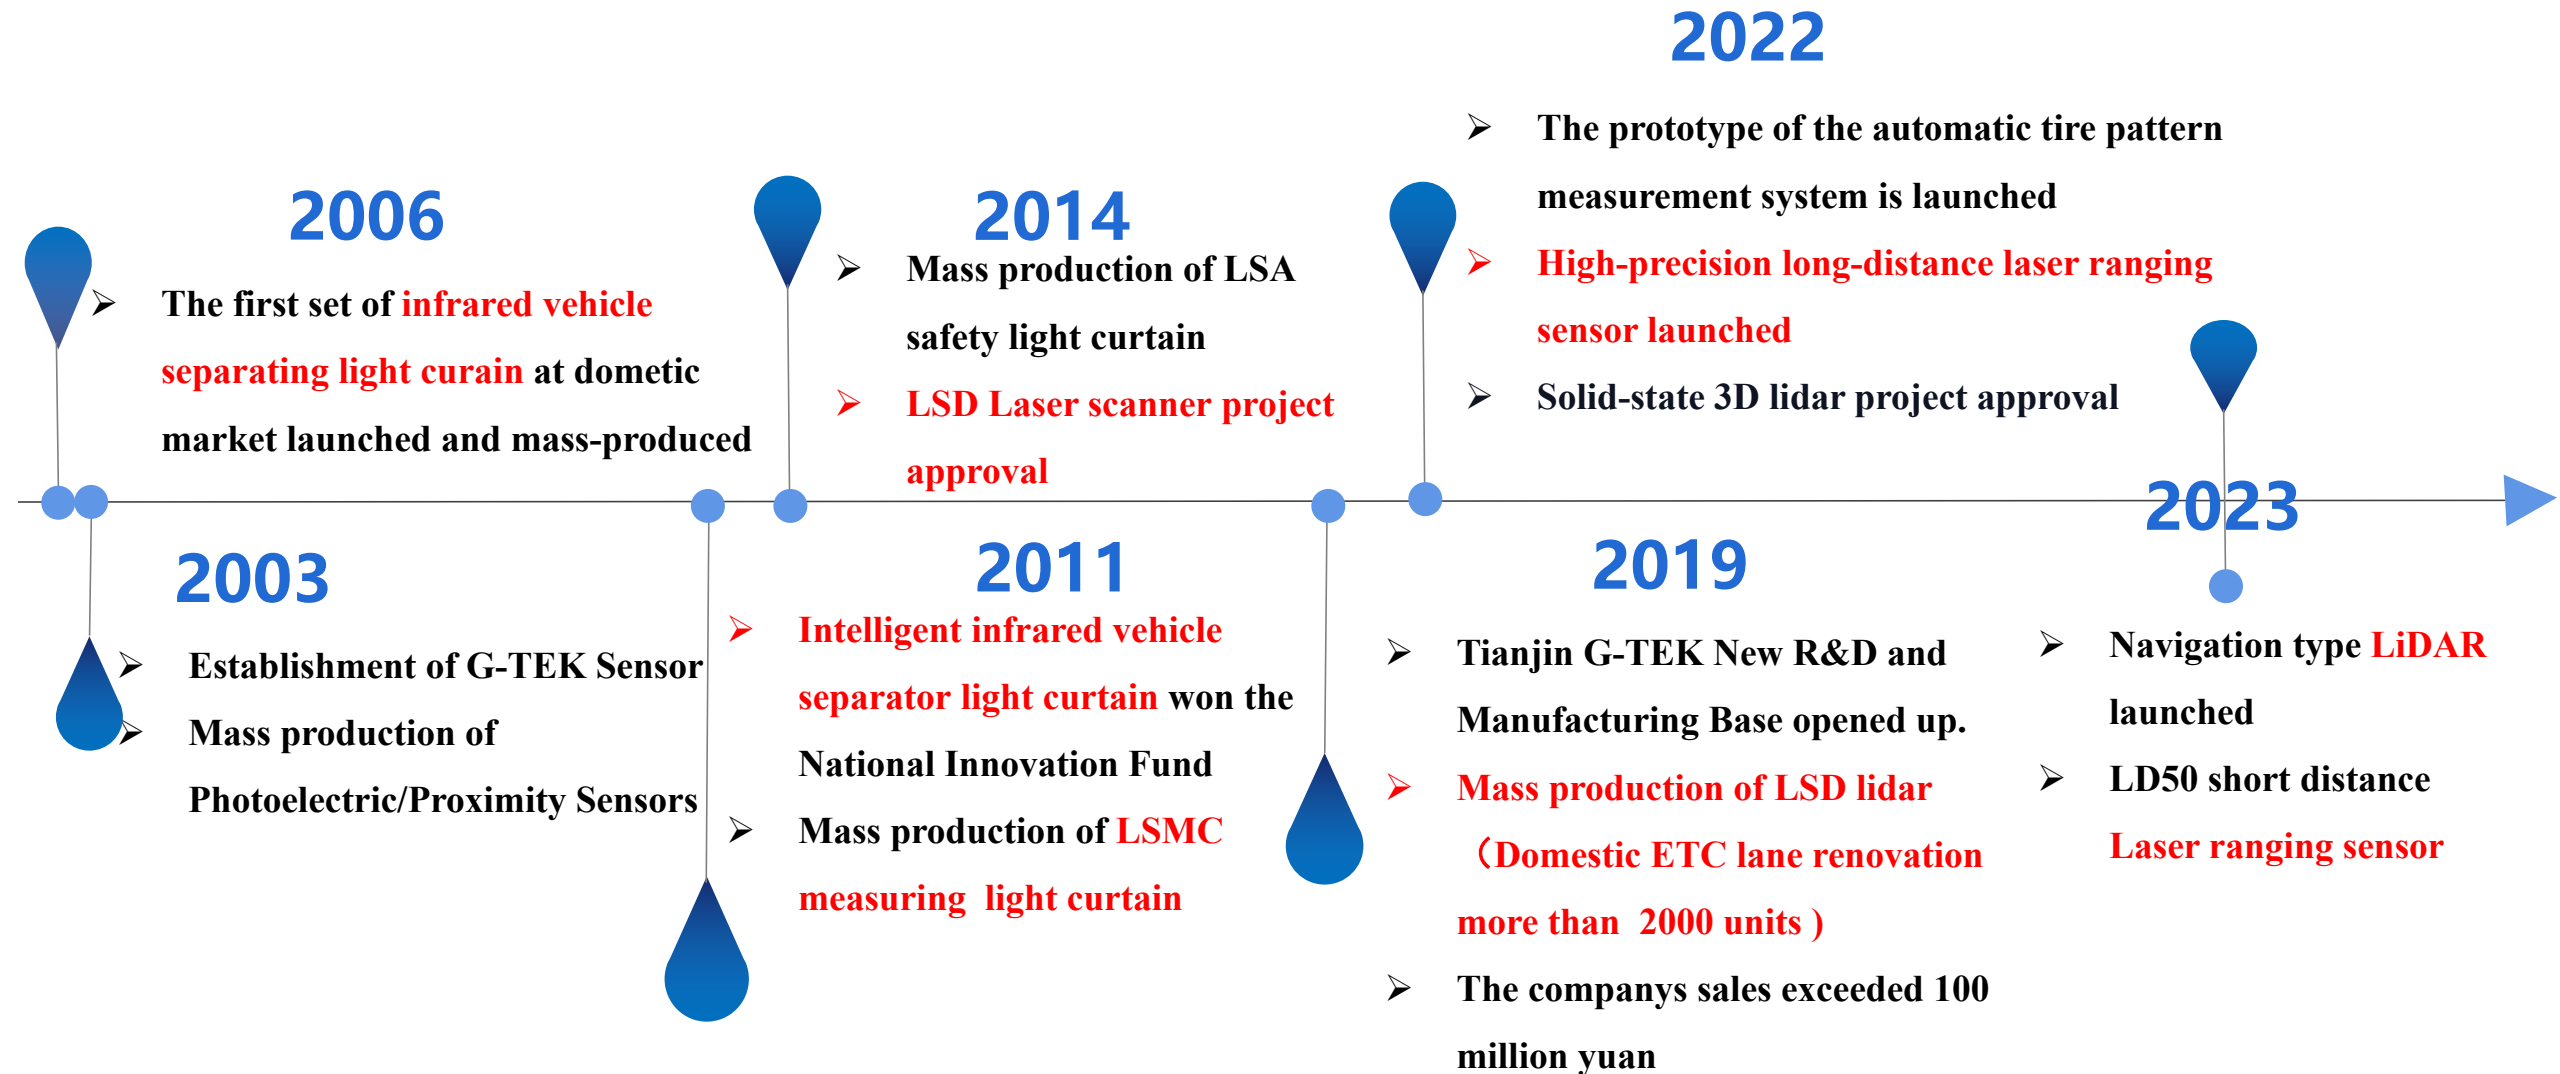

Founded in 2003

Lidar & Light Curtain & Sensor

Independent Intellectual Property

G-TEK is a scientific and technological enterprise specialized in intelligent **sensor products R&D, manufacture and customized system solutions provision**. We master the core technologies of key products such as **laser scanner, laser distance sensor, infrared light curtains, safety light curtains, photoelectric sensor and proximity switch**. 20 years of deep cultivation in the field of sensors, we have become one of the **top domestic sensor brands**, served in different industry fields such as **intelligent transportation, warehousing logistics, factory automation, industrial robots, Safety and security, etc.**, meanwhile established long-term and stable international trade cooperation with **overseas customers** all around the world.

Adhering to the core philosophy of "**devotion with enthusiasm, pursuit of perfection**" and the business purpose of "**customer priority, quality first**". G-TEK will continuously meet customers demands with high quality product and service, creating potential value for customers by technological innovation and cooperation.

Company Overview

122 employees (More than 50% are bachelor's degree or above);

4 operation teams (R&D center/ Manufacturing center/ Sales& Marketing center/ Administration center);

Sales & Marketing

6 sales teams : Transportation Division, Tianjin headquarters , East China Region, South China Region, international business and Key account.

Market development : Intelligent transportation, automobile inspection lines, security, and automatic doors, logistics automation, AGV, industrial robots, and factory automation.

Professional Pre sales and after-sales team: Plan the company's promotion and marketing activities, and provide pre-sales and after-sales services

**MATERIAL
CONTROL**

**PRODUCTION
CONTROL**

**INSPECTION
CONTROL**

R&D Center

24 professional R&D engineers including optics, mechanics, electronic hardware, software, etc.

Multiple patents of laser radar, high-precision laser measurement, infrared scanning light curtain, photoelectric switch, etc.

Manufacturing

Advanced production facilities and equipment:

- Photoelectric Sensor production line;
- Infrared light curtain production line;
- Laser scanner production line

One professional and young **technician team**;
Q&C team; **Logistics supply chain team**.

Company Overview

The company currently has 122 employees, of which more than 50% are technicians with a bachelor's degree or above. Sales from 2018 to 2022 will be 53 million, 105 million, 112 million, 121 million, and 130 million, respectively.

Marketing

In addition to the sales team in Tianjin headquarters, there are offices in Shenzhen and Suzhou. At present, in addition to consolidating and expanding markets such as road transportation, automobile inspection lines, security, and automatic doors, the focus is on opening up markets such as logistics automation, AGV, robots, and factory automation.

Technology R&D

It has 24 professional R&D engineers including optics, mechanics, electronic hardware, software, etc. It has many patents in the technical fields of laser radar, high-precision laser measurement, infrared scanning light curtain, photoelectric switch, etc., and has formed a certain leading edge in technology.

Manufacturing

Has more advanced production facilities and equipment. We have a professional and young production technology, quality control, and logistics chain control team.

接近传感器产品:
Proximity sensor

光电传感器产品:
Photoelectric sensor

红外扫描光幕产品:
Infrared Light Curtain

激光雷达产品:
Laser Scanner

激光测距产品:
Laser Ranging Sensor

PART 01

Industrial automation industry

光电传感器

Photoelectric sensor

- 距离最远: 200M
- 高低温: -40℃-80℃
- 多种光源,国际最先进的pinpoint-LED

**PF21/50/55/80 series photo sensors
with application in automation door,
turnstile gate, parking, warehousing
logistics, etc**

Features

- ❏ **Compact, small size**
- ❏ **Three detection types are complete**
- ❏ **Background suppression**
- ❏ **Laser-like source**
- ❏ **Control anti-crosstalk technology**
- ❏ **Extreme blind zone technique**

①	5	350
②	10	280

100 200 300

① 90% reflectivity whiteboard ② 6% reflectivity blackboard
PF21B-350A detection range

① 90% reflectivity whiteboard ② 6% reflectivity blackboard
PF21B-150A detection range

PF21B SERIES

PF21R SERIES

Features

- ❏ **Compact, small size**
- ❏ **Detection distance 900mm**
- ❏ **TOF principle**
- ❏ **Infrared laser source**
- ❏ **Control anti-crosstalk technology**
- ❏ **Wiring tape guides light spots**

Strong metal
through holes

Universal standard hole
position, versatility is
guaranteed.

Spot size: $\Phi 16\text{mm}@500\text{mm}$

① 90% reflectivity whiteboard ② 6% reflectivity blackboard
PF21B-900A detection range

红外扫描光幕

Infrared scanning light screen

LSMC measurement light curtain

LSA/LDA safety light curtain

LSE slim type light curtain

Features

- Minimum resolution : 5mm
- Maximum detection height :1920mm
- Response frequency up to 2ms a frame
- Strong metal case
- Multiple interface

Features

- Minimum resolution 20mm
- Maximum distance is 8 meters
- The shortest length can be 160mm
- Slim shape, Section size 20*20mm
- Integrated housing, high waterproof rating

Features

- TYPE 4
- Protection height 320-1920 mm
- No blind zone at the upper and lower ends
- Resolution :10mm (fingers) 20mm (palms)
40mm (arms) 80mm (body)

Features

- TYPE 4
- Minimum protection height 160mm
- Maximum protection height 1920mm
- No blind zone at the upper and lower ends
- Resolution 10mm (fingers) 20mm (palms) 40mm (arms) 80mm (body)
- MUTING and blanking function
- Switch A/B frequencies by wiring

激光雷达 Laser radar

LSD measurement Lidar
LND detection & measurement Lidar
LMO obstacle avoidance type Lidar

Features

- Detection distance up to 50M
- Cast aluminum metal housing, durable
- Built-in self-heating system for harsh outdoor conditions (-30°~60°)
- Independently developed optical system, anti-light interference
- Protection level IP68

Features

- Detection distance up to 20M
- Small size, light weight, easy to integrate
- Protection class IP67, outdoor use
- Anti-light interference
- With three way relay outputs
- Measurement type and obstacle avoidance type

Features

- High precision
- 270° view angle
- Detection distance 10M(90% reflectivity)
- Anti-light interference: 80000LUX
- 31/15 set areas can be set to meet the requirements of various scene settings
- Raw data output can be used for measurement algorithms

SFL系列激光测距传感器

SFL series

SFL Long-distance Laser Ranging Sensor

在定位堆垛机、起重机、自动驻车系统等其他移动机器时，除了准确性和重复性外，快速和停机短时间也是考虑的重要部分。SFL 系列专为在动态控制回路中实现较高驱动速度和快速处理信号而设计开发。实时的将信息发送至控制台，便于维护。丰富的接口和创新方案满足客户不同场景的需求。

Features

- High precision
- Multiple interfaces
- Working temperature : -20°C~50°C
- 100m/60m version

PROFI[®]
NET

SSI

PART 02

Security Industry

Product Features

- ❏ Diffused type, through beam type, retro-reflective type.
- ❏ Max. detection distance 50m(through beam type).
- ❏ 12-240VDC/AC free power supply.
- ❏ Wide operating temperature:-20°C-60°C.
- ❏ Waterproof and protecting rating IP67.

Product Features

- ❏ A/B adjustable frequency technology to prevent crosstalk.
- ❏ Retro-reflective type and through beam type, max. detection distance 200m(through beam type).
- ❏ Wide operating temperature:-30°C~65°C
- ❏ Anti light interference(sunlight: MAX.100000Lux).

Railway protection

Security Precautions

Aircraft hangar door anti smashing

Product Features

- ✚ A/B adjustable frequency technology to prevent crosstalk.
- ✚ 12-240V DC/AC free power supply.
- ✚ Through beam type, Max. detection distance 60M.
- ✚ Operating temperature:-40°C~80°C.
- ✚ Waterproof and protecting rating IP67.

Product Features

- Through beam type.
- Operating temperature:-20°C-60°C.
- Detection distance 20M.
- Waterproof and protecting rating IP67.

Gtekesens®

LSW 04

- ❏ Long distance laser light curtain, max. detection distance 120M.
- ❏ Automatic defrosting and heating function.
- ❏ Single cycle 1.2ms, response can be set to 1-255 cycles.
- ❏ The optical axis can be opened or closed at will.
- ❏ RS485, 2-way relay output.
- ❏ Sturdy aluminum alloy housing with floor stand.
- ❏ Extremely suitable for harsh outdoor conditions.

PART 03

Intelligent Transportation

Features

- Intelligent heating defrosting function
- 4-level beam strength indicator setting, easy for on-site installation and maintenance
- RS485 serial communication
- Self-diagnosis function
- Parallel scanning and cross scanning options

Features

- 2-way switch output, NO/NC option
- Automatic heating function ensures normal operation in low-temperature environments
- Device self-learning without debugging
- Application as high-speed toll collection, over limit detection, and source control

Features

- Real time output of shaft type and drive shaft information
- Vehicle separation, triggering
- Ethernet and serial port communication
- System stability, 24/7 operation.

GVTI-V101 License Plate/model Recognition Device Gtekesens®

Features

- Image acquisition, image processing, vehicle positioning, vehicle detection, video recording, license plate recognition, model recognition, axle number recognition, axle type recognition, hazardous chemical vehicle recognition
- Working in rainy, snowy, and foggy weather
- Easy installation without damaging the toll island

Features

- Automatic and accurate recognition of vehicle information
- Automatically and accurately identify axis information, and output vehicle laser point cloud data
- Working in rainy, snowy, and foggy weather

GVTI-L201 Laser Vision Vehicle Recognition Device Gtekesens®

Features

- Improve the accuracy of vehicle separation
- Vehicle drive shaft recognition
- Vehicle outer contour detection
- Improved the accuracy of vehicle model and axle type recognition

Features

- Vehicle length, width, height, vehicle speed, and driving direction parameters output
- Built in intelligent defrosting function, stable operation in low temperature environments
- Self start function
- System stability, 24/7 operation

Features

- Output of parameters such as vehicle length, width, height, vehicle speed, and driving direction
- Built in intelligent defrosting function, stable operation in low temperature environments
- Self start function
- System stability, 24/7 operation

Features

- Monitoring the travel path of the crane to prevent collisions between the crane and other objects
- Built in intelligent defrosting function, stable operation in low temperature environments
- Dual output, graded protection
- System stability, 24/7 operation
