

**SHENZHEN JUTAI COMM CO.,LTD.**

**深圳市钜泰通信技术有限公司**

SHENZHEN JUTAI COMM Co., Ltd is a high-tech private enterprise integrating research & development, production, and sale. We concentrate on security products R&D and system integration. The RFID system solution from door access control, parking management system, elevator control system, must become a reality. Though self-dependent innovation, we developed a new concept of automatic door sensor and gate automation solution based on Wireless technology and mob application, the concept of technology ahead of other vendors in the same industry. We are also as the developer and supplier for the 4G and one-Stop- Station Centre management system based on the Clouds technology.

For our customers, we not only offer the high-quality products, but also offer the newest application conception, complete system solution, comprehensive technology support and matched after sales service.

Technology never ending, assiduously seeking and keep improving is our research and development concept; Beyond the present, Provide safer and more convenient life space as our goal.

Customers successful as our most successful!

Innovation -Beyond --Excellent!
