

## **Guarantee to you in SKYNEX?**

SKYNEX has introduced foreign advanced production equipment to improve the quality in an all-round way. In 2021, all SMT placement centers will be upgraded to adopt YAMAHA fast placement machines imported from Japan. SKYNEX has 13 production lines (1 LCD screen cutting line, 1 LCD screen bonding line, 1 LCD screen backlight assembly line, 7 SMT placement lines, and 3 assembly lines). SKYNEX strictly controls production and has passed ISO 9001 quality management system certification, as well as CE, ROHS, FCC, and SGS certifications.
