

● *Fighting for performance*

PRESS RELEASE

OUR MISSION:

To design and supply firefighting and search and rescue professionals with high-tech, strong and reliable USAR and firefighting material in all circumstances, to protect and rescue people and assets.

RECOGNIZED MANUFACTURER OF FIRE AND RESCUE MATERIAL SINCE 1985

INNOVATION TO PROTECT AND RESCUE

To deal with ever-changing fire risks and search and rescue missions, firefighting equipment must continue to develop and be increasingly efficient, whilst ensuring that firefighters are as safe as possible. To respond to these challenges, LEADER, fire and rescue equipment specialist, is strongly focused on innovation and new technologies, employing its own Research and Development team. This team develops with end users the fire and rescue equipment that will be offered tomorrow. To test and validate this equipment and evaluate its performance, LEADER continues to invest in its own infrastructures: test rooms, outdoor test areas...

A MAJOR PLAYER IN THE FIRE AND USAR WORLD

Established in France, Germany, United States of America and China as well as internationally plan thanks to a large network of more than 300 distributors, LEADER is a worldwide recognized manufacturer of innovative fire and rescue equipment. For more than 35 years, LEADER has developed and manufactured increasingly high-performance equipment, we supply to Fire & Rescue Departments (Firefighters), Public Safety services, At-risk industries, the Navy and other armed forces, etc. across five continents.

Four ranges of equipment are offered such as:

- **Firefighting equipment:** firefighting blower fans, thermal imaging cameras, firefighting nozzles and monitors, firefighting foam educator,
- **Search and Rescue equipment:** Victim search apparatus such as search cameras and seismic / radar life detector,
- **Safety and monitoring equipment for Responders Protection:** stability monitors and Warning Alarm for Stability Protection,
- **Training equipment:** Fire extinguisher trainer, training extinguisher and smoke generator.
