ABOUT COMPANY

Al-Aswad Fire Protection Systems Co. is part of Aswad Group of Companies which is one of the top hundred companies in Saudi Arabia with annual turnover exceeding SR Two Billion (USD 533 Million) employing more than Two Thousand employees of different nationalities.

Al-Aswad Fire Protection Systems Co. was established in 2014 to cater to the growing needs of the role of life safety and property protection for vast majority of business sectors in the kingdom of Saudi Arabia

Our company was set-up to provide specialized Fire Protection Systems, Trading of products and services to all business sectors, which include but not limited to, commercial and industrial sectors.

We strive for excellence in partnership with leading global fire protection system manufacturers, that are well known globally. Therefore, we are a certified distributor for the Viking Group Inc. and the exclusive distributor of MOBIK S.A and REACTON, as we represent the VES Fire Detection Systems, nevertheless, we have a distribution agreement with TTK S.A.S.

To overcome the long lead delivery time of the engineered clean agent fire protection systems, our company, since 2019, have invested in having a local clean agent fill station for the trade marketed brands of clean agent fire suppression systems. Our station is inspected by the underwriters laboratories UL & factory mutual FM Global to insure the filled cylinders are to the highest and well known standards in the field.

Al-Aswad Fire Protection Systems Co. products represented are technically certified and merited by relevant international standards & meet rigorous approval requirements in conformity to ISO, ANSI, API, UL & FM standards.

OUR MISSION

Our mission is to establish successful, sustainable businesses through strategic alliances and technology transfer, while remaining firmly committed to quality, safety, social responsibility, and environmental preservation.

OUR VISION

Our vision is to become a trusted leader in delivering high-quality products and outstanding services across all industries and sectors. We aim to be recognized not just for what we offer, but for how we do it with excellence, reliability, and a strong focus on customer satisfaction.

OUR SERVICES

**Design, Supply & Installation of Engineered
and Pre-engineered Fire Protection Systems.**

This includes but is not limited to the following:

- Supply and design of **VIKING** clean agent fire suppression systems UL/FM/VdSVSN200 (FM200) & VSN1230 (NOVEC1230).
- Filling of Clean Agent cylinders in Dammam, Saudi Arabia for VSN200 & VSN1230 UL listed/ FM Approved Filling Procedure.
- Supply and design of **VIKING** Foam fire suppression Systems UL/FM.
- Supply of **VIKING** Fire Sprinklers, Sprinkler Flexible hose connections and fire specialty systems (Wet Systems, Deluge Systems, Dry Systems) UL/FM.
- Supply of **VIKING** control valves and Potter alarm devices UL/FM.
- Supply of **MOBIAK** portable fire extinguishers UL.
- Supply and design of **MOBIAK** Kitchen Mister fire suppression system UL/FM.
- Supply and design of **MOBIAK** Fire Extinguishing Aerosol Systems UL.
- Supply and Design of **VES** Fire Detection Systems UL/FM.
- Supply and design of **TTK** liquid leak detection systems UL.
- Supply and design of **REACTON** fire trace suppression systems UL

OUR PRODUCTS

Supported with Al-Aswad Engineering

About VIKING

Viking Group Inc. is a world-renowned manufacturer of fire protection products and systems with a legacy of over 100 years. As a certified distributor of Viking in Saudi Arabia, **Al-Aswad Fire Protection Systems Co.** offers complete design, supply, and installation of advanced fire protection systems in line with international standards.

Products & Systems Offered

- Clean Agent Fire Suppression Systems:
VSN200 (FM200) – VSN1230 (NOVEC1230)

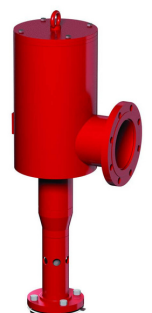

- UL/FM/VdS Local filling station in Dammam (UL/FM approved)

Foam Fire Suppression Systems:

- Viking Foam Proportioning & Storage Equipment – UL/FM
- Foam concentrate options for various hazard classes

About MOBIAK

MOBIAK S.A. is a leading European manufacturer of fire safety equipment with a global presence in more than 70 countries. As the **exclusive distributor** of MOBIAK in Saudi Arabia, **Al-Aswad Fire Protection Systems Co.** supplies a wide range of UL-listed and BSI KITEMARK certified fire extinguishers and fire protection equipment.

Products & Systems Offered

UL Listed Portable Fire Extinguishers:

- Dry Powder: 5lb, 10lb, 20lb
- CO₂: 5lb, 10lb, 15lb, 20lb
- Wet Chemical: 1.5 GAL (6L), 2.5 GAL (9L)
- Water: 1.5 GAL (6L), 2.5 GAL (9L)

BSI Kite Mark Fire Extinguishers:

- Foam 6ltr, 9ltr, 25ltr, 50ltr
- Trolley Dry Powder 25kg, 50kg

Kitchen Fire Suppression Systems

- UL Listed Kitchen Fire Suppression Systems

Products & Systems Offered

- Clean Agent Fire Suppression Systems:
HFC-227EA / FK-5-1-12 - UL

Fire Sprinklers & Components

- Upright, Pendant, Sidewall Sprinklers – UL/FM
- Flexible Sprinkler Hose Connections UL

Valves & Detection Devices

- Control Valves (OS&Y, Butterfly) – UL/FM
- Dry hydrant, Wet Hydrant, NRS, PIV - UL/FM
- Alarm Valves, Deluge Valves
- Supervisory Devices

OUR PRODUCTS

REACTON FIRE SUPPRESSION

Supported with Al-Aswad Engineering

About REACTON

REACTON Fire Suppression Ltd. is a UK-based manufacturer and an **exclusive distributor** in Saudi Arabia with **Al-Aswad Fire Protection Systems Co.** specializing in fully automatic fire suppression systems. Known for innovation and reliability, REACTON provides cutting-edge fire protection solutions for high-risk environments such as vehicles, electrical enclosures, and industrial machinery. Al-Aswad Fire Protection Systems Co. is a exclusive distributor of REACTON in Saudi Arabia.

Products & Systems Offered

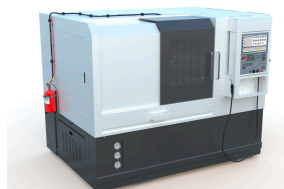

Vehicle Fire Suppression Systems

- Designed for buses, mining equipment, and special vehicles
- Options: Dry Powder or Foam Agent
- Automatic detection and activation via pneumatic tubing

CNC Fire Suppression Systems

- Automatic fire suppression systems to protect CNC Machines. Our CNC fire protection systems ensure that CNC machine shops are protected from the risks of fire.

About REACTON

REACTON Fire Suppression Ltd. is a UK-based manufacturer and an **exclusive distributor** in Saudi Arabia with **Al-Aswad Fire Protection Systems Co.** specializing in fully automatic fire suppression systems. Known for innovation and reliability, REACTON provides cutting-edge fire protection solutions for high-risk environments such as vehicles, electrical enclosures, and industrial machinery. Al-Aswad Fire Protection Systems Co. is a exclusive distributor of REACTON in Saudi Arabia.

Products & Systems Offered

Electrical Panel Automatic Fire Suppression Systems:

- Electrical panels and enclosures are found in every industry across the world. Reacton® have a proven, cost-effective automatic fire suppression system to eliminate fires at the source. With the world's first UL Listing to UL2166 for Direct (DLP) Technology Clean Agent System.

Kitchen Fire Suppression Systems:

- In residential & domestic kitchens, fires can rapidly cause severe building damage and therefore a highlighted risk for occupants.
- Reacton® offers protection without false alarms to houses and apartment blocks across the globe.

Advantages of the REACTON Fire Suppression System:

- Fully automatic operation, no external power required, extremely low maintenance, 24/7 protection without false alarms, 10-year service life, retrofit and factory fit compatible, compact and lightweight for easy installation.

Supported with Al-Aswad Engineering

About VES

VES is a recognized leader in the design and manufacturing of advanced fire detection and alarm systems. Headquartered in the United States and certified globally, VES offers high-performance fire detection technology built for reliability, scalability, and integration. **Al-Aswad Fire Protection Systems Co.** proudly supplies and integrates VES systems for clients across Saudi Arabia, VES products are UL listed, FM, and CSFM approved.

Products & Systems Offered

Fire Detection Panels & Devices:

- Analog Addressable Fire Alarm Control Panel - Hochiki Protocol.
- Conventional Fire Alarm Panel.
- Conventional Releasing Panel.

Detectors & Modules:

- Addressable / Conventional Action Pull Stations.
- Addressable / Conventional Heat & Smoke Detectors.
- Input / Output Modules (Single / Dual).
- Notification Devices (Sounders, Strobes, Voice Evacuation Speakers).

OUR PRODUCTS

LIQUID LEAK DETECTION SYSTEMS

Supported with Al-Aswad Engineering

About TTK

TTK is a leading manufacturer of advanced liquid leak detection systems, designed for early detection and precise location of water, acid, and hydrocarbon leaks. Their solutions are widely used in data centers, commercial buildings, pharmaceutical facilities, oil & gas industries, and other mission-critical infrastructures. **Al-Aswad Fire Protection Systems Co.** proudly supplies and integrates TTK systems for clients across Saudi Arabia, TTK products are UL listed

Products & Systems Offered

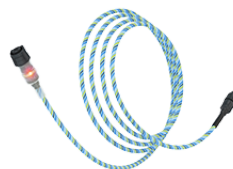

Alarm Units & Point Sensors:

- Central unit panels for managing sensing circuits and monitoring leaks.
- Point sensor for localized leak detection at specific spots.

Sense Cables:

- Digital Water Sense Cables (FG-EC).
- Water Leak Detection Panels (FG-SYS, FG-NET).
- Acid Sensing Cables (FG-AC).
- Oil Sensing Cables (FG-OD).

OUR PROJECTS

SOME OF THE EXECUTED PROJECTS:

- King Abdul-Aziz International Airport – Fuel Farm
- NCCB Project
- ARAR Airport
- Al-Moosa Specialist Hospital
- World Defense Show
- Al-Dawaa Logistic Warehouse
- ARAMCO Fuel Stations
- Ajdan Walk
- VIA RIYADH
- Dirya’a Gate Mazraa Safar
- STC Building 55.
- King Khalid University KKU
- Saudi Arabian National Guard (SANG) Hospital - Taif
- Al-Moosa Specialist Hospital – Al Rehab

SOME OF THE ON-GOING PROJECTS:

- Dirya’a Gate - Phase 1 - North & South Spines & Utilities
- Riyadh Metro Project East, South & North Depots.
- ARAMCO Fuel Stations
- Ummahat Islands
- Al Fanateer Mall - Jubail
- Maersk Logistics Park - Jeddah
