About Our Company

Abdulrahman Al-Shareef Group (AAG) was founded in 1988 in Jeddah, Saudi Arabia, with the vision of becoming a leader in telecommunications and electronics. The company initially focused on these core sectors, but quickly expanded its operations into diverse industries, including general contracting, electromechanical services, and renewable energy solutions.

Over the years, AAG has built a reputation for delivering innovative, high-quality services that meet the ever-evolving demands of the market. Its commitment to excellence and sustainability has driven the development of cutting-edge infrastructure solutions, including advanced communication systems, smart building management, and energy-efficient technologies.

Today, AAG is recognized as a trusted partner across Saudi Arabia and beyond, collaborating with both public and private sector entities, including government ministries, public agencies, and major enterprises. Backed by a skilled team of consultants and international experts, the company remains at the forefront of technological advancement, contributing to the realization of Saudi Arabia's Vision 2030.

We Provide Solutions

Comprehensive Telecommunications Systems: We offer advanced telecommunications solutions, including network infrastructure, smart building management, and integrated communication systems such as TETRA and DMR. Our solutions ensure reliable and secure connectivity for enterprises and government entities.

Renewable Energy Solutions: We design and implement solar and hybrid energy systems that contribute to sustainable development. Our renewable energy solutions align with Saudi Vision 2030, providing eco-friendly power options for residential, commercial, and industrial applications.

Smart Building and Automation Systems: Our smart building solutions incorporate the latest technologies for automating building operations, including lighting, HVAC, and security systems. These solutions enhance energy efficiency and ensure a seamless and intelligent management experience.

Turnkey Construction Projects: We provide full-service construction solutions from planning and design to execution and delivery. Our turnkey services cover a wide range of sectors, including commercial, industrial, and public infrastructure, ensuring high-quality results and timely completion.

Why You Should Choose Us?

Proven Track Record

With over three decades of experience, AAG has a strong reputation for delivering high-quality projects across various industries, including telecommunications, construction, and renewable energy. Our extensive expertise ensures that we meet and exceed client expectations consistently.

Sustainability Focus

We are dedicated to implementing environmentally friendly and sustainable practices in our projects. By aligning our work with Saudi Arabia's Vision 2030, we ensure that our solutions not only meet current demands but also contribute positively to the long-term development of communities and the environment.

Innovative Solutions

At AAG, we embrace the latest technologies and innovative practices to provide advanced and efficient solutions. Our commitment to innovation allows us to deliver tailored services that align with our clients' needs and support their growth in a competitive market.

Strong Partnerships and Reliability

We have built long-term partnerships with both government entities and major private enterprises, demonstrating our reliability and trustworthiness. Our ability to adapt to market changes and maintain a client-centric approach makes us a preferred partner in the industry.

Our Services

Public Security

At Abdulrahman Al-Shareef Group (AAG), we understand the critical importance of robust security and defense solutions in safeguarding national interests and ensuring public safety. Our Military and Defense services are designed to provide comprehensive support across key areas, including secure communication systems, infrastructure development, and advanced surveillance technologies.

Telecommunications and ICT Services

We offer a comprehensive range of telecommunications and ICT solutions, including network infrastructure setup, smart building systems, and radio communication networks like TETRA and DMR. Our services are designed to provide secure, reliable communication for both government and private sectors.

Our Services

Video Surveillance Systems

AAG as a system integrator we deployed many projects in Saudi Arabia for private and public Governments sectors in Advanced video surveillance systems and providing real-time monitoring and comprehensive security insights. These systems are equipped with high-resolution cameras and smart analytics and enabling continuous observation and recording of designated areas to ensure safety and deter unauthorized activities. AAG provides Integration with AI-driven software, that offer features such as motion detection, facial recognition, and automated alerts for enhanced security."

Video Access Control Systems

AAG provides Integration with AI-driven software, that offers features such as motion detection, facial recognition, and automated alerts for enhanced security. AAG provides Video access control systems and analytic systems allow secure entry and monitoring of authorized personnel in restricted areas. Utilizing video technology, these systems offer live video feed, identity verification, and access logging to enhance security. They also integrate with existing surveillance infrastructure (parking system ... low current system) enabling efficient management of entry points and providing an additional layer of safety through visual verification.

Our Services

Electromechanical Services

AAG provides specialized electromechanical services, including HVAC installation, electrical systems, and building automation. Our electromechanical solutions are designed to improve energy efficiency and operational performance, ensuring long-term sustainability.

Renewable Energy Solutions

We are committed to offering sustainable energy solutions, such as solar power systems and hybrid energy solutions. Our renewable energy services support environmental sustainability goals and align with Saudi Arabia's Vision 2030 for a greener future.

Company Vision & Mission

> Vision

At Abdulrahman Al-Shareef Group (AAG), our vision is to be leaders in providing advanced technological solutions and infrastructure, aligned with Saudi Arabia's Vision 2030. We aim to develop innovative and sustainable projects that contribute to economic diversification and sustainable development, focusing on delivering the highest standards of quality and excellence across all our sectors.

> Mission

At Abdulrahman Al-Shareef Group, we are dedicated to delivering innovative and effective solutions that meet our clients' needs in telecommunications, contracting, electromechanical systems, and renewable energy. We strive for the highest standards of quality and sustainability, with a focus on supporting Saudi Vision 2030.

Company Achievement

1

Implemented large-scale telecommunications projects, including TETRA and DMR systems for government and private sectors.

2

"Abdulrahman Al-Shareef Group partners with Mobily to enhance telecommunications connectivity and digital solutions in infrastructure and smart city projects, supporting Vision 2030's goals for digital transformation."

3

Partnered on major government infrastructure projects, establishing AAG as a trusted public sector partner.

4

Integrated smart building systems, enhancing energy efficiency and automation for commercial and industrial projects.

What Make Us Different?

Comprehensive Expertise Across Multiple Sectors: Our extensive experience spans telecommunications, construction, electromechanical systems, and renewable energy. This diverse expertise enables us to deliver integrated solutions that address the unique needs of various industries.

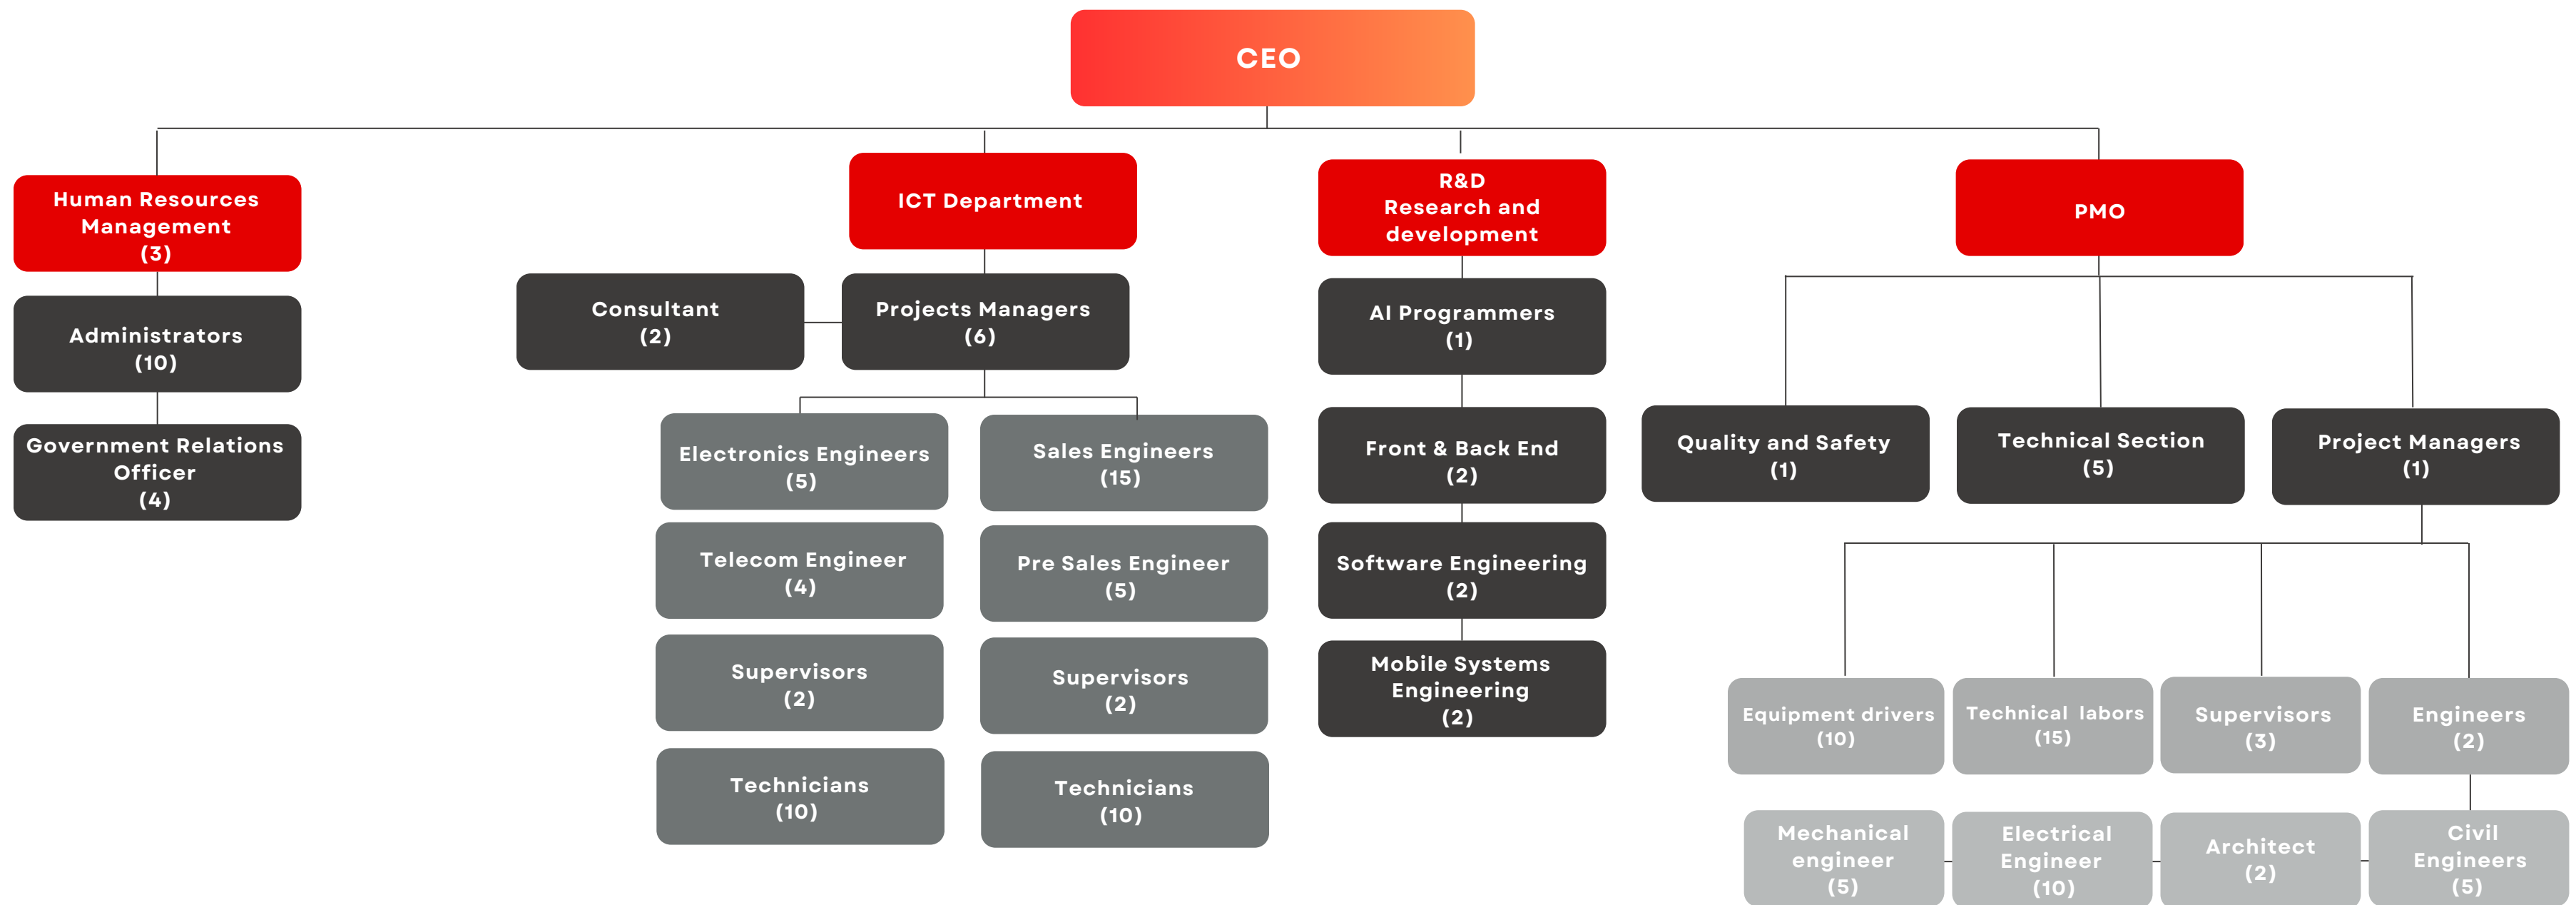

Commitment to Innovation and Sustainability: We prioritize innovation and sustainability in every project. By leveraging cutting-edge technologies and eco-friendly practices, we provide solutions that are both efficient and environmentally responsible, aligning with Saudi Vision 2030.

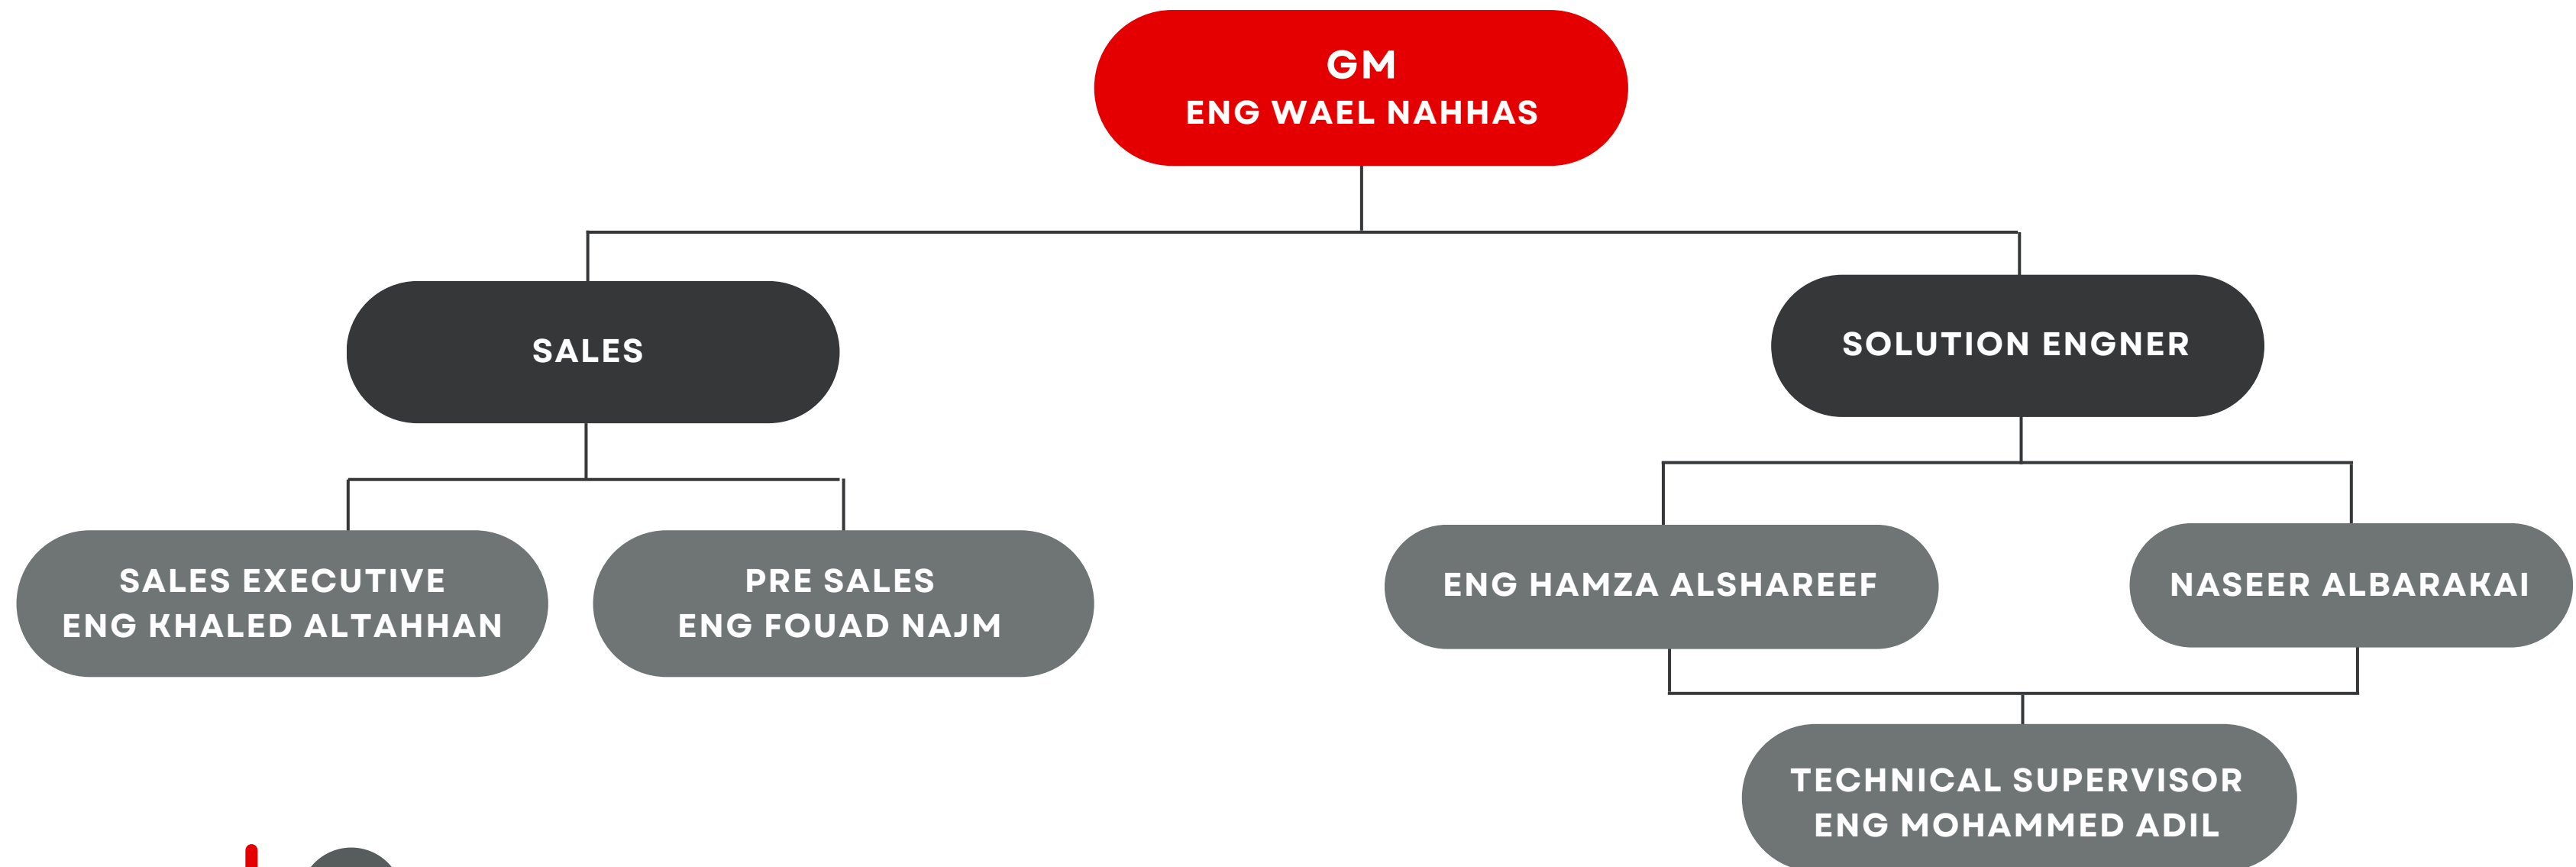

Client-Centric Approach with Strong Partnerships: We value long-term relationships built on trust and transparency. Our client-centric approach ensures customized solutions, and our strategic partnerships with government and private sectors enhance our capability to exceed expectations consistently.
