COMPANY
PROFILE

QWAED

WHO WE ARE

Qwaed is a leading provider of technology and infrastructure solutions, driving business transformation through innovation, reliability, and cutting-edge technology. With expertise spanning IT, ELV & low current systems, enterprise applications, AI-driven solutions, and smart environments, we help businesses scale efficiently, enhance security, and embrace digital transformation. Our commitment to excellence and continuous improvement ensures that we deliver solutions that create lasting value and competitive advantage.

OUR MISSION

"Delivering innovative technology and infrastructure solutions for smarter businesses and safer environments, leveraging AI to drive transformation and foster sustainable growth across key industries."

VISION
2030

OUR TECHNICAL ARM: GENIUS VALLEY

Qweed operates through its technical arm, Genius Valley, specializing in ELV and ICT infrastructure solutions. **Genius Valley is dedicated to:**

01 Smart Building Solutions (BMS,Access Control, CCTV)
02 Structured Cabling & Network Infrastructure
03 Date Center Design & Implementation

04 Unified Corr munisations & Voll Solutions
05 Fire Alarm & Public Address Systems
06 IoT & Smart City Technologies

With a focus on advanced engineering, security, and seamless integration, Genius Valley ensures that businesses stay connected, efficient, and future-ready.

SISTER COMPANIES - EXPANDING OUR ECOSYSTEM

Neoteric Hub - A cutting edge technology firm specializing in IT security, cloud solutions, and enterprise-grade software development.

Galaxy IT Syslem - A trusted provider of system integration. managed IT services, and customized digital solutions for businessos.

Laplace Software - Aleader in enterprise software development,automation and AI-powered solutions.

Together, Qwaed Technologies, Genius Valley, and our sister companies drive digital transformation, innovation, and technological excellence across industries.

QWAED

OUR ECOSYSTEM OF INNOVATION

As part of our commitment to expanding capabilities and delivering impactful solutions, Qwaed continuously strengthens its ecosystem through strategic growth and expertise development.In 2014, Qwaed acquired Genius Valley, reinforcing its position as a leader in security, smart building solutions, and enterprise applications. This integration allowed Qwaed to offer comprehensive, scalable solutions that meet the evolving needs of businesses.

OUR AFFILIATED COMPANIES

• **Laplace Software :** Empowering businesses with ERP, CRM, HRM, and enterprise automation solutions to optimize operations.
• **Galaxy :** Enhancing IT infrastructure, cloud computing, and system integration, enabling seamless connectivity and security.
• **Neoteric Hub :** Advancing AI-driven automation and intelligent solutions, helping organizations innovate and future-proof their businesses.

QWAED

OUR SOLUTIONS & SERVICES

Qwaed provides comprehensive, future-ready technology solutions that enhance security, automation, and business efficiency. Our expertise spans IT, AI, automation, enterprise software, and smart infrastructure, ensuring seamless integration and innovation.

OUR KEY SOLUTIONS

• Security & Smart Infrastructure – Low Current & ELV systems, access control, AI-driven surveillance, and building automation.
• IT & Data Management – Storage, backup, networking, cybersecurity, cloud computing, and managed IT services.
• Enterprise Software & AI – ERP, CRM, HRM, AI-powered automation, and custom software solutions.
• Communication & Automation – IP telephony, AV solutions, smart lighting, IoT, and RFID asset tracking.

STRONGER MARKET LEADERSHIP STATEMENT

As a trusted technology partner, Qwaed is dedicated to empowering enterprises, governments, and organizations with best-in-class solutions that drive digital transformation. Our commitment to innovation, security, and automation positions us as a leader in delivering scalable, intelligent, and future-ready technology solutions tailored to diverse industries.

QWAED

SERVICES & PRODUCTS

1 BUILDING MANAGEMENT & AUTOMATION SYSTEMS

We deliver intelligent building management and automation solutions that integrate HVAC, lighting, access control, and safety systems. Our solutions enhance operational efficiency, reduce energy consumption, and provide centralized control.

2 FIRE & LIFE SAFETY SYSTEMS

We provide advanced fire safety solutions, including fire detection, alarm, fire telephone, and public address & voice evacuation (PAVA) systems. These solutions ensure early detection, rapid response, and effective evacuation in emergency situations.

3 RFID ASSET TRACKING & INVENTORY MANAGEMENT

We provide advanced RFID-based asset tracking solutions that enhance inventory management, improve asset visibility, and streamline operations across industries such as logistics, healthcare, and retail.

4 SECURITY & ACCESS CONTROL SOLUTIONS

Our comprehensive security offerings include access control, biometric authentication, RFID-based entry, speed gates, turnstiles, automatic barriers, road blockers, and bollards. These solutions enhance security for buildings, businesses, and critical infrastructures.

QWAED

5 SURVEILLANCE & VIDEO MANAGEMENT

We offer cutting-edge surveillance solutions, including high-definition CCTV, automatic number plate recognition (ANPR), and video management systems (VMS). AI-powered analytics and remote monitoring enhance security and operational oversight.

6 ENTERPRISE COMMUNICATION & IP TELEPHONY

Our IP telephony and unified communication solutions enable seamless and cost-effective connectivity through advanced VoIP systems, conference solutions, and cloud-based communication platforms.

7 SMART HOME IOT & KNX AUTOMATION

We provide smart home and KNX-based automation solutions for residential and commercial spaces, as well as IoT-driven smart city and industrial automation systems for enhanced efficiency and control.

8 AUDIO/VIDEO & CONFERENCE SYSTEMS

High-performance AV and conferencing solutions, including video conferencing, digital signage, and professional-grade audio-visual integrations for businesses and institutions. Digital signage can be integrated for targeted communication, advertising, and information dissemination in real-time.

QWAED

9 LIGHTING CONTROL & GRMS
(GUEST ROOM MANAGEMENT SYSTEMS)

State-of-the-art lighting control systems that allow for smart regulation of light levels, energy efficiency, and ambiance settings. In hospitality, we also provide GRMS for guest room control, ensuring a personalized, comfortable, and energy-efficient experience for guests.

10 DATA CENTER
& IT INFRASTRUCTURE

Comprehensive data center solutions, including servers, storage systems, backup & disaster recovery, and virtualization & cloud computing, ensuring robust IT performance and business continuity.

QWAED

11 IT NETWORK & SECURITY SOLUTIONS

Our IT networking services cover active and passive network infrastructure, firewalls, security appliances, Wi-Fi solutions, and cybersecurity frameworks to protect data and ensure secure connectivity.

12 IOT & AI INTEGRATIONS

We specialize in IoT and AI-driven solutions, including:

1 **Fleet Management & GPS Tracking**
Real-time asset tracking for logistics and transportation.

2 **Industrial IoT (IoT)**
Connected sensors and analytics for manufacturing optimization.

3 **Smart Cities & Smart Buildings**
IoT-enabled automation for efficient urban infrastructure.

13 IT SUPPORT & MANAGED SERVICES

We offer comprehensive IT support, including:

1 **Help Desk & ITSM**
IT service management solutions for efficient troubleshooting.

2 **Remote Monitoring & Management (RMM)**
Proactive IT maintenance and performance optimization.

3 **Cloud & Infrastructure Managed Services**
Scalable and secure outsourced IT support.

VISION 2030

IOT AI AND SOFTWARE BUSINESS UNIT

Time Attendance System
A smart and comprehensive solution for managing employee attendance, tracking work hours, and automating work-force management. It supports multi-language interfaces, flexible work schedules, biometric integration, and mobile app functionality with GPS tracking, ensuring accurate and efficient HR operations.

Visitor Management
A secure and efficient system for managing visitor entries, invitations, and approvals. It integrates QR code access and biometric systems, offering flexible deployment options and real-time tracking for enhanced visitor control and security.

Access Control Platform
An advanced security solution offering integration with biometric authentication, real-time monitoring, and central-ized access management. It supports fingerprint, facial recognition, and RFID card access, with flexible integration options for elevators, time attendance systems, and third-party security solutions.

IoT Devices Management
A smart platform for managing and scheduling tasks, sound or video across multiple IoT devices. It enables remote control, real-time broadcasting, and automated scheduling, providing a simple and efficient way to manage tasks from anywhere.

Secretary System
A streamlined system designed to enhance executive support by managing appointments, visits, invitations, and memos. It features automated approval workflows, multi-user roles, and a dedicated iPad app for realtime updates, ensuring seamless office workflow and communication.

ERP Solutions
Tailored ERP solutions designed to streamline business operations across HR, finance, sales, and inventory. With customizable modules, seamless integration, and multi-language support, offers scalable and efficient business management for various industries.

OUR STRENGTH POINTS

Integrated & Scalable Solutions
Providing end-to-end security, automation, IT, and software development solutions tailored to business needs.

Expert System Integration
Combining multiple technologies to create seamless, high-performance solutions.

AI & Data-Driven Intelligence
Leveraging artificial intelligence for automation, predictive analytics, and smart decision-making.

Industry Experience & Technical Expertise
A team of professionals with deep industry knowledge and technical proficiency.

Customer-First Approach
Delivering customized solutions with exceptional support and after-sales service.

Compliance & Reliability
Ensuring high-quality solutions that adhere to international safety and security standards.

Comprehensive Support & Managed Services
Offering implementation, project management, technical consultation, and service-level agreements (SLA) for long-term system efficiency
