The Chairman Message

The launch of Saudi Sicli in 1979 has been the core of the National Industry of firefighting equipment and systems in the Arab World, and this Company has contributed to the development of all which contribute to the investment protection from risks and achieving the best level of general safety.

Today, after more than 40 forty years from the launching and development of the services provided by the Saudi Sicli company, in addition to the firefighting equipment and system production, and the representation of major international companies specialized in different fields of protection and safety. Also, providing the integrated services to operate Private Fire Brigades, supply, installation and maintenance services for all protection systems with the most modern digital technologies.

Today, Saudi Sicli Company and all its staff are entitled to be proud of being the first company in various investment protection fields from risks to achieve the best level of general safety.

Thanks to all our valued customers for their trust and support. Special thanks to all personnel of this Lofty National Edifice. Even though more than forty years of impressive development in production and services, we promise all our customers that We are always looking for a better development and higher levels to achieve global standards to protect the investments from risks.

May Allah protect you!

The Founder of Sicli Company
Rashad Ahmad Saqr

Sicli History

Founded in 1979

as the first manufacturer of firefighting equipment in the region,

Saudi Sicli Company prides itself on the relationships, services, and products that it has developed for over more than **39 years** of service in the Kingdom of Saudi Arabia.

We have built strong mutually supportive relationships with the world's leading Safety, Security, firefighting and fire alarm equipment manufacturers, and service providers to offer reliable products, services, and competitive offerings.

Throughout all the years, we have been focusing on the **development of human capacity**.

Our dedicated Management and staff of **professional engineers** and technicians strive to deliver distinctive services to satisfy the different needs of our customers with utmost dedication.

We have also established a set of quality assurance programs to comply with and be a certified **ISO 9001:2008** Engineering and manufacturing firm.

At Saudi Sicli Company, we are steadily developing our capabilities to keep pace with the needs and demands of the market.

Mission, Vision,& Values.

Our Mission

To provide complete solutions in fire prevention, protection, security & occupational health, and environmental safety, to all sectors, committed to the latest technology and high-quality products and services, utilizing a team of professional expertise in the Region.

Our Vision

To be the uniquely exceptional regional leader in the fire, safety, security, and BMS Products and services.

Our Values
