Introduction

Advanced Cleaning Company EcoClean is one of the largest distributors of cleaning equipment, materials and tools. Over the past years, Eco Clean has provided a wide range of innovative products to the professional, commercial, industrial and domestic cleaning industry. Eco Clean has succeeded in establishing wholesale and retail outlets across the region to accommodate the demand of small and medium-sized companies and the largest cleaning services companies.

Date of Establishment

The Advanced Cleaning Company was established in 2012 AD, and the company began distributing steam washing machines in the city of Riyadh, after a distinguished success in sales, thanks to God, and then the company's efforts to provide the best after-sales services. After that, the company expanded in providing necessary in the field of general cleaning and car care, including equipment and products with leading brands and competitive prices, which allowed the company to spread. And now the company includes a group of branches inside and outside the kingdom

Our Vision

Attracting the most important global brands to represent them so that they can better serve our clients.

Our Mission

Providing high quality cleaning equipment and materials and providing after-sales services to be partners with our customers.
