

## **RSA Ecommerce: Expanding Globally, Powered by Technology and Customer Demand**

RSA Ecommerce has seen significant growth, transitioning from a regional provider in the GCC to a global player in ecommerce logistics solutions. This expansion is driven by the increasing demand from our customers for seamless, reliable ecommerce services, supported by cutting-edge technology.

RSA Ecommerce now serves key markets across **Europe, MENA, and North America**, with plans for full expansion into **Africa and Latin America by the end of 2025**. Our current footprint includes the UAE, KSA, Bahrain, Oman, Kuwait, Qatar, Egypt, Iraq, Jordan, India, the USA, Canada, France, Italy, the UK, Spain, and more. We are also preparing to extend our services to countries such as Morocco, Ghana, Kenya, Nigeria, Tunisia, Algeria, Tanzania, and various Latin American markets in the coming years.

The continued success of RSA Ecommerce is a result of our ability to meet the growing demands of the ecommerce industry with operational flexibility, transparency, and a robust multi-carrier network. Our single API integration grants access to existing and future countries and products, enabling seamless global connectivity.

Additionally, our multi-carrier network in booming geographies supports last mile carriers, customs agents, and freight forwarders to provide a truly seamless service across all regions. We focus on ops flexibility and uniformity, building capacity to handle peak and contingency requirements, while ensuring integrity and visibility throughout every parcel journey.

“Our success is a direct result of the trust and demand from our clients who rely on our innovative, customer-first approach to logistics. Every new market we enter and every milestone we reach reflects our ongoing commitment to meeting our customers’ needs proactively and relentlessly,” said Alex, Director at RSA Ecommerce.
