## G R O U P

**MARTINELLI GINETTO GROUP** is an Italian diversified and dynamic manufacturing reality, with leadership in different areas of the textile supply chain.

Passion, innovation, and creativity allowed to create an integrated hub along the entire high-end textile production chain. A unique condition of integration that makes it possible for the Group to propose a wide and customized offer, and to guarantee a responsible and controlled approach at every stage of production, ensuring reliability and responsiveness in service.

Spinning, weaving, finishing, and textile design are the four main areas of action.

**Spinning:** Production of chenille, wool and fancy yarns designed and tested for upholstery, outdoor, mobility, functional textile, and clothing fabrics.

**Weaving:** Production of jacquard and solid fabrics in double width, for home accessories, bed and table linens, perfect for both the residential and contract industries.

**Textile design:** Design and production of a high-end fabric collection for interior decoration and textile wall coverings.

**Ennobling:** Dyeing and finishing processes of double width fabrics of the highest quality.

## ENTREPRENEURIAL SPIRIT

The Group's entrepreneurial spirit has relied on **technical skills**, the adoption of the most **advanced technologies**, the **control** of the entire production chain and the ability to convey **professional and creative energies** capable of **innovation** at all levels. The group strives to integrate textile tradition, experience, and know-how within an advanced manufacturing system. Deep roots that make innovation and passion for work the prerequisites for building a better future.

## VISION

We believe in the importance of affirming the **value of beauty**, through the **culture** of creative innovation and **respect**, to improve the quality of living.

## MISSION

We create valuable products and innovative solutions aimed at **improving the experience of living**, with a responsible approach at every stage of the textile production chain, highlighting our rich **tradition** and know-how, conveying professional and creative energies in every initiative.

# BRAND

## NORD FILATI

**Chenille yarns, fancy yarns, and wool yarns'** collections. NORD FILATI offers an extensive range of products, made from the finest natural fibers and the most advanced synthetic raw materials.

The products offered by NORD FILATI are designed and tested for both **residential** and **contract** applications.

The yarns manufactured are intended to produce furnishing fabrics, carpets, and rugs, but also for technical textiles for outdoor use and mobility applications, functional textiles, and textiles for clothing.

The NORD FILATI products meet two distinct customer needs: the personalization of the **CUSTOM-MADE** products and the need for fast and continuous sourcing guaranteed through the **STOCK SERVICE** solution.

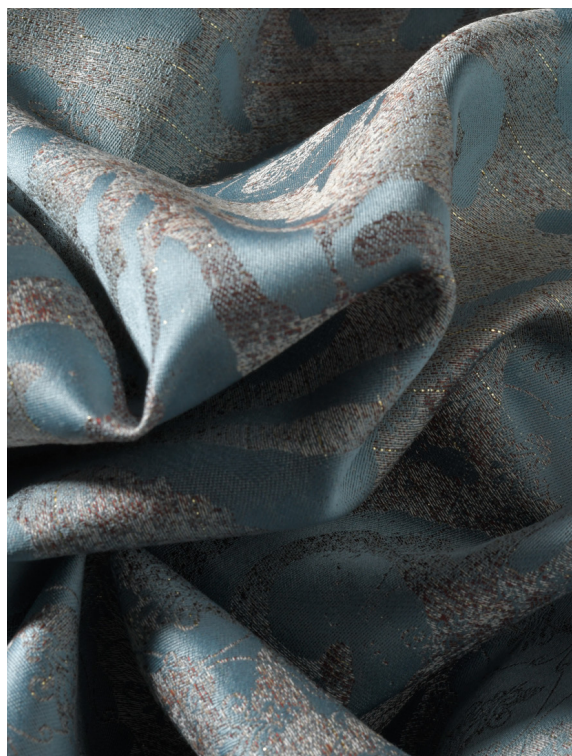

**Manufacturer of high-end yarn-dyed jacquard fabrics**, BRIGNOLI was born from the merger of two major companies, each with a rich history.

Know-how and attention to detail are applied to the production of textiles with a strong stylistic identity, offering **exclusive** and **customized solutions** for **home linen converters for residential and hotel applications**.

BRIGNOLI offers an **exclusive fabric capsule collection** that meets the customization requests of **residential home linen manufacturers**, and a collection of fabrics dedicated to **hotels, restaurants and nautical projects** that require a tailor-made and refined proposal: a wide range of high-performance fabrics for the creation of bed lines, tablecloths, bath sets and accessories.

In addition, the ability to work closely with the customer on the stylistic elements of the design enables the development of **PRIVATE LABELLING** programs, with a **BESPOKE** service for those who need to receive **finished and customized linen solutions**. The **CUSTOM-MADE** activity is supported by consolidated partnerships with selected Italian suppliers.

## MARTINELLI GINETTO

**Manufacturer of fine jacquard and plain fabrics,** MARTINELLI GINETTO is the first brand founded by the Group.

Creativity, availability of solutions and customization possibilities make MARTINELLI GINETTO a key partner and reference point for the most **prestigious and international brands** and **the best manufacturers of bed and table linen**, both in the **residential and hotel industries**. MARTINELLI GINETTO provides customers with a ready-to-stock service and a collection offered to exclusivists.

The **I PRONTI** collection features **fabrics that are always in stock**, and coordinated with each other, ideal for the creation of bedding, table, bath, and decoration collections, for residential but also for hospitality and nautical industries. Sateen and percale, along with jacquard, piqué, boutis, waffle, terrycloth, quilted and printed fabrics. Continuity of customer choices is ensured by keeping each item and color in the collection for at least 5 years.

The **EXCLUSIVE DESIGNS** collection is the starting point to create, together with the product development team and thanks to the digital structures dedicated to sampling, new and **original drawings** in a very short time frame in order to bring to life **personalized fabrics**.

Manufacturer and editor of high-end textiles for interior decoration and furnishing, KOHRO is the expression of the **Made in Italy** excellence in the industry of textile design. An open look, focused on creating a new contemporary elegance, where **respect for beauty** combines aesthetics and ethics. This extraordinary mix leads to an interior decoration style that highlights its refined **sensibility towards the home**, and **impeccable quality**.

KOHRO fabrics, capable of inspiring architects, interior decorators, furniture showrooms and designers, are intended for the residential, hospitality and nautical industries and are the result of high technical expertise, manufacturing know-how and an international perspective on interior decoration.

The majority of the collection is made with the best natural fibers: cotton, linen, silk, wool and cashmere. The control over the production chain allows KOHRO to offer a wide range of high-quality fabrics, all in double-width and available in over 4,000 color combinations.

KOHRO fabrics are ideal for upholstery, furnishing accessories, decorative curtains, transparencies, bed, bath and table sets.

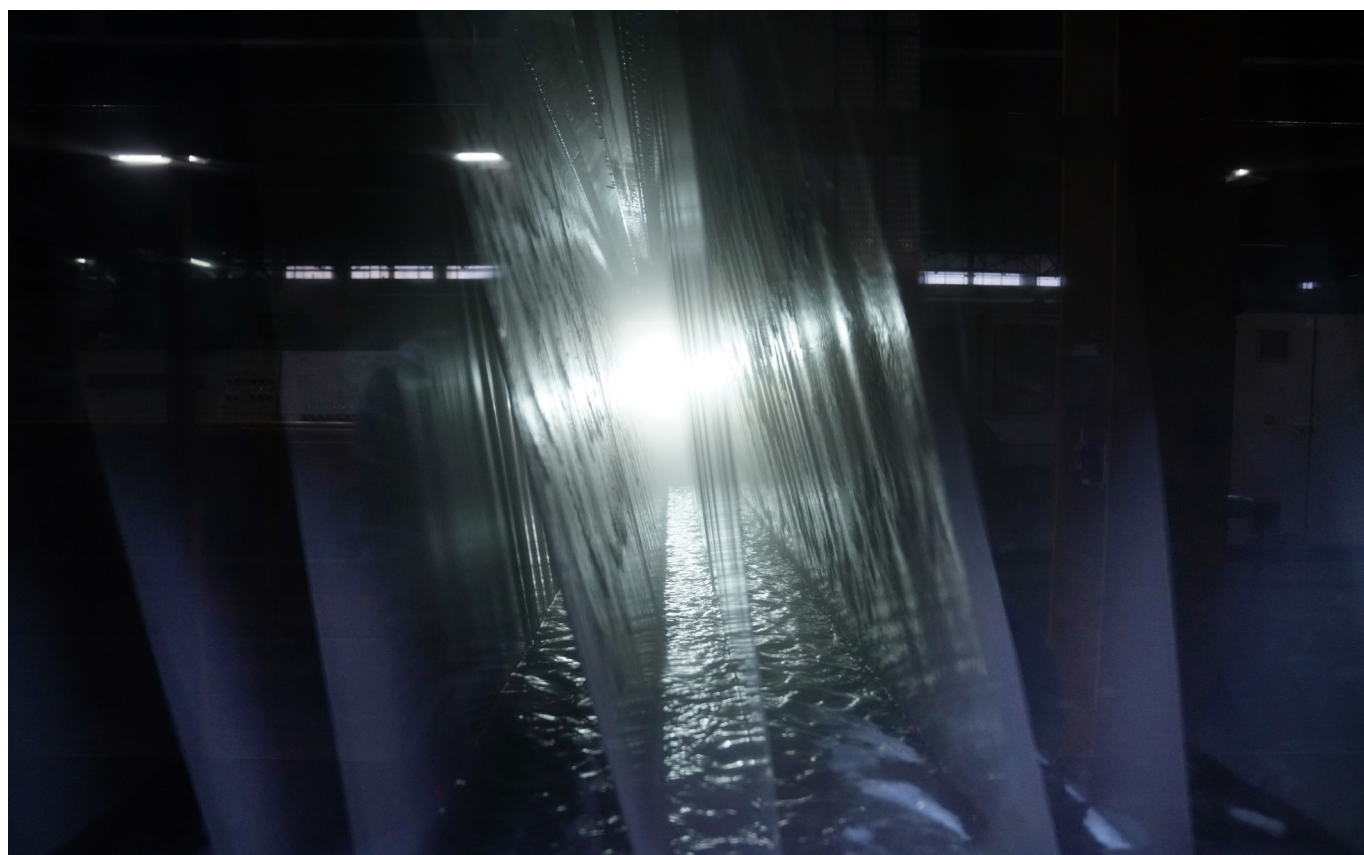

## SATTA E BOTTELLI

Founded in 1921, SATTA E BOTTELLI is one of the most significant and leading companies in the field of **double-width textile finishing**.

The acquisition by the MARTINELLI GINETTO GROUP has marked its relaunch, with a significant renewal of production and the development of the skills acquired in over 100 years of activity at the service of the best Italian and European companies.

The **textile finishing activity** carried out by SATTA E BOTTELLI is a **reference point in Europe** for companies in the **furnishing, residential, hotel** and **contract** industries.

The solid production experience, the dyeing and process know-how, the operational flexibility, and the wide range of machineries suitable for processing double-width fabrics have become an important asset of the Group, which translates into numerous and innovative treatments.

# INDUSTRIAL PRODUCTION

- **Wool spinning:** Over 1,200,000 kg of yarns produced annually.
- **Chenille spinning:** Over 1,500,000 kg of yarns produced annually.
- **Fancy yarn spinning:** 4 spinning machines specific to produce fancy yarns, with a total of 120 heads.
- **Weaving:** The weaving departments consist of 61 looms, 36 rapier looms (dobby and jacquard) in large width and 25 air looms in large width. Over 10 million square meters of finished fabric are woven annually.
- **Finishing:** Over 20,000,000 linear meters of double-width fabrics produced annually with over 200 industrial processes.
- **Digital printing:** An innovative technology that allow high production flexibility and speed. Ideal for designing customized products, even in small batches. Process available on double width finished fabric, both solid and jacquard. It allows printing on different types of fibers, both natural and artificial.

**LIVING TEXTILE INNOVATION**
