Seba, a family owned company, began operations in 1950 as a textile and yarn producer by the previous generation of the family. In 1990, the second generation which is currently in the management of the company, has added upholstery division as a small mill to their fancy yarn production. Today, Seba is one of the most well known producer of jacquard and dobby upholstery fabrics in Turkey, exporting 80% of its production to more than 30 countries in Europe, North & South America, Middle East and Far East.

The main factor for the success of Seba has been, and will continue to be, our basic policy and commitment for the satisfaction of our customers by providing them original, unique and valuable product, continuity of quality and standards, excellent service before and after sale. In order to understand and respond properly to the requirements and changes of different market categories and price points, we always pay highest attention to cooperate with our customers and sales team on a partnership relation basis.

EASY CLEAN

You don't have to worry
anymore that your
childrens' will mess up your
furniture fabrics. With "Soft
Clean" technology, you can
easily clean "dry and liquid
dirts" on your fabrics.

This technology will help
you to clean your fabric
surface smoothly with the
help of pure water.

SHIELD FOR
UNPLEASANT

"BACTERIA"

With our technique, we provide
you with more sterilized and
safe fabrics by preventing the
formation of bacteria in your
upholstery fabrics.

And by this way we protect your
furniture fabrics from unpleas-
ant bacteria and provide you
more hygiene on your sofas.
