# 25 Years

of excellence

LET'S TAKE CARE  
TOGETHER

## Chairman

A.B Exports (pvt) Ltd was founded by Late "Sheikh Mahmood Ahmad" (1950 – 2014). He founded the group half a century ago. He started business from a small fabrics trading house under the name of Ahmad Brothers in Faisalabad, Pakistan textile hub. The company was primarily started to provide Greige / loom state fabrics to exporting companies and very soon it became one of the reputed textile Supplier in domestic market.

With an extensive experience and in-depth knowledge, he promoted the company every year. Later in 1996, he decided to enter his next generation in exports business and established a new company A.B Exports under the supervision of his sons Mr. Muhammad Ahmad and Mr. Mansoor Ahmad.

Mahmood Ahmad (Late)  
Chairman

Muhammad Ahmad who is a renowned and distinguished Businessman possessing a vast experience in the field of textile. He through his extraordinary leadership qualities led the company to new heights. He is the part of various textile organizations in Pakistan.

He served as a vice chairman of PTEA from 2003-2004 and later due to his leadership qualities he was elected as chairman of PTEA (2020-2021).

He continue to guide the company to success as the CEO. One of his many achievements include the exports excellence award from the President of Pakistan – Mamoon Hussain

Muhammad Ahmad  
Chief Executive

Mansoor Ahmad joined the business in 1997, since then he has done a remarkable job to flourish the exports of the company. Under his leadership the company continues to expand.

He is a significant figure in the textile industry of Faisalabad and he is an active part of organizations like PTEA, APBUMA. Recently he was also rewarded by the president Mr. Arif Alvi for top 100 exporter of 2020.

Mansoor Ahmad  
Director

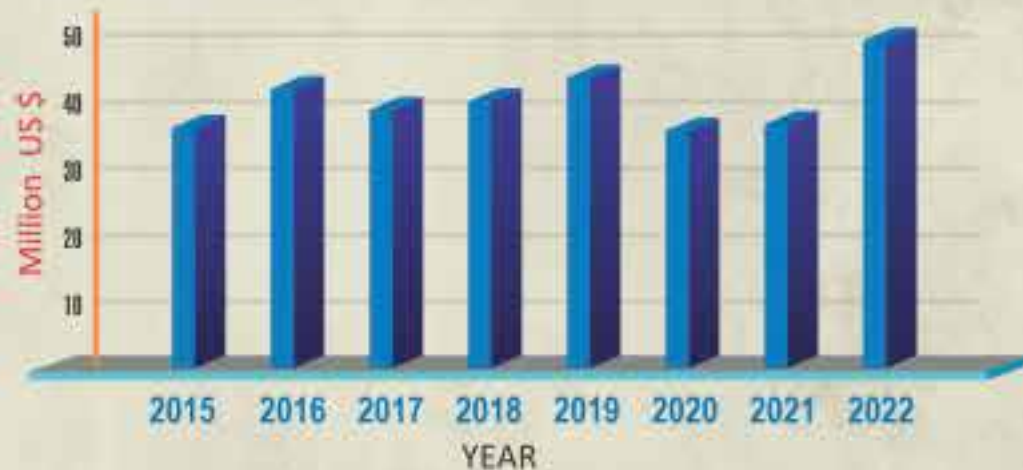

# Company PROFILE

# WEAVING PREPARATORY

Weaving is inadequate without having a solid weaving preparatory machine therefore AB weaving has added sizing to its weaving strength.

For the purpose we have installed back processing machines from well- know manufactures like Benninger and Karl Mayer with PRE-Wet and PLEAVA accessories. The headstock of 4.2 meters working width allows us to make single warp beams to reduce bowing and to maintain tension throughout the width of the fabric.

# STITCHING

## Facility

Stitching is the process whereby fabric is fashioned into a finished product by means of different sewing techniques. The stitching stage holds extreme significance to ensure that the product takes its shape according to requirements. In itself a highly specialized field, stitching requires care and precision.

The extensive stitching facility is divided in several units. We have latest stitching machines equipped with various tools to produce diversified product range. Each stitching unit is designed for specified products to achieve the optimum level production efficiencies and high level of quality standards.

pieces / month

# ROLLING & PACKAGING

Right here, we believe in the art of packing as well. We can deliver the goods in any desirable form of packing. Either its rolling cloth or made ups for industrial / retail market. Ensuring the quality of products with attractive presentation and easy identification, equipped with latest Baling Press, Rolling Machine and Crease & Lapped machines.

We also enjoy in house "Branded Electronic Palletizing Machine" facility by which we can palletize fabric up to 140" width.

## RENEWABLE ENERGY RESOURCES

AB Exports is very well aware of power and gas deficiency in Pakistan and to tackle these problem we have installed alternative resources like Generators, LPG / SNG (Gas supply system), Solar Panels & Steam boilers.

### Solar Panels

AB Exports Pvt Ltd marked its prolong commitment to sustainable development and renewable energy generation by investing in 01 MW on grid connected rooftop solar photovoltaic system comprised of most updated bifacial technology.

AB exports Mills has initiated the renewable energy project in the textile sector of Faisalabad. With the installation of Solar panels, we are going green towards the environment and also producing less carbon emission.

### Energy Conservation

We have reduced energy consumption inside the mill by implementing a number of projects with the help of best available technology, equipment up gradation and process optimization.

- Almost all of our fluorescent lighting are now based on LEDs
- Sky lights installed in all possible areas to use natural light in day time
- Installation of occupancy sensors
- Installation of inverter on motors & control of steam and air leakages
- Installation of efficient motors and efficient exhaust system
- Reuse of used hot water

## LININGS & POCKETING

We are manufacturing dyed and printed ready made curtains with loops, tape, eyelets and channels. The range of curtain lining fabric is available in our production since 15-years. We are professionally managing wrinkle / crease free lining in form of retail packed rolls as well as Crease & lapped packing on fully automatic lapping machine.

# QUALITY Control

Quality control is the process in which all factors involved in manufacture are checked for meeting quality level requirements. In the field of textiles, the yarn and processing laboratory plays a key role. It serves as the foundation for producing a quality product. We have installed latest machinery in our laboratories to test the product from yarn to end final product.

AB Exports Pvt Ltd has one of the best textile laboratories equipped with state-of-the-art technology and staffed with highly qualified personnel. It has the capability to cover a wide range of operations from the testing of raw materials to the evaluation of finished products, according to customer specifications. As a part of quality control for online checking, the processing laboratory is well prepared to control and support the processing unit at every stage of production. For continuous improvement in the quality of the end product, research and development is also carried out in the laboratory.

At AB Exports, we offer quality control and assurance services for every stage of your apparel supply chain from source to shelf. AB exports has over 100 off-the-shelf customizable product-specific inspection checklists. In our Factory all garments are inspect on AQL level (American quality level). The quality department make sure that customer receive best quality apparel without any defects.
