ISSUE 2019

maxxsofthome.com

our story

Has begun 35 years ago for Evliyaoglu Tekstil. It was a small plant with yarn trading facility at the beginning. Then it has started to produce towels and bathrobes in 1998. In time, Evliyaoglu Tekstil has become one of the significant companies on fashion trends of Home Textile World with brand of Maxxsoft Home™. Also, Luvicci Home™ is our face in US to spread our inspiration all over the World.

Maxxsoft Home™ and Luvicci Home ™ brands are fully compliant to OekoTex-100 Standards. We believe that respect to nature is the respect to human. Also we are capable to make production under GOTS Certification for our customers who wants to enlarge their product range with exclusive organic products. All these productions are certified by BSCI. So, consumers can buy our products safely and trusting that all health and environment issues are taken care of.

As known, Denizli has strong roots in textile with almost 4.000 years history. The Area has been a home to many textile cities in the past which were known as producer of fashionable and high quality fabrics. They were used mainly for decoration of palaces and luxury wear of Kings and Queens. As of today, textile still has a high rate of total production of The Area with luxury goods.

We invite you to feel "Special" because you deserve...

NATURAL COLLECTION

The Natural Collection range is produced in harmony with the natural world, harnessing nature's benefits without exploiting her resources. We believe in responsible manufacture, from the gathering of environmentally friendly organic and Better Cotton.

Tencel fibers are exceptionally soft on your skin and have efficient moisture absorption, enabling towels to dry quickly. In comparison to cotton, TENCEL fibers remain soft over time and are able to withstand repeated wash and dry cycles, allowing fabrics to retain their softness.

Ecovero is an eco-friendly textile fiber, As soft as silk and cashmere, also three times more absorbent than cotton. Ecovero™ fibers tailor to a sustainable lifestyle, contributing to a cleaner environment.

A blend of bamboo rayon and combed cotton helps the Abundance luxury towels wick away moisture and swathe bodies with a softer feel than ordinary cotton towels. In addition to boasting antibacterial and hypoallergenic properties,towels is woven of 40% renewable bamboo, resulting in more eco-friendly towel. The bamboo bath linens also resist fading from frequent washing and maintain their softness while sitting in solitary confinement.

Summer means listening to the hypnotic sound of waves crashing against the shore, it is easy to lose yourself in your own world of relaxation. The best way to enjoy the beach, of course, is when you allow your body to rest on a soft, comfortable beach towel.

Crafted from a soft, artisan weave, many of our beach towels are made from %100 Turkish cotton yarns to ensure each towel is truly one of a kind.
