

# S

Sarlas is an exclusive textile editor, creating qualities and designs both for residential and contract use. Light decoration fabrics, jacquard draperies, sheers, outdoor fabrics, blackouts, and upholstery are a few of the qualities serviced.

Sarlas has been established in late 1970's in Athens, Greece. Since then, the company's status has changed drastically and Sarlas is now exporting all over the world and has successfully participated, for several years now, in the biggest textile fair in Frankfurt, Germany.

Depending on the nature of each market, Sarlas adapts accordingly and distributes its fabrics either via an exclusive distributor, an agent or even by itself, as is the case in Italy with Sarlas Italia. Worldwide customers can order cut length – desired qty or even rolls and take advantage of competitive pricing.

Sarlas is also constantly investing in new product innovations and infrastructure. Up to date warehousing systems, production forecast and on-going personnel development ensure that the service rendered to its customers is always at a premium level.

Last, Sarlas vast knowledge of the market together with the strong relations with its outsourcing mills, enable the company to closely monitor International Trends and create rich, fashionable but affordable fabrics.
