

HOHENBERGER®

MANUFAKTUR FÜR TAPETEN

WE LOVE WHAT WE DO

We've been producing wallpapers for almost 90 years and are now in our third generation. They're produced exclusively at the Hohenberg an der Eger site and with the very highest standards of design, quality, sustainability and healthy living.

*„What sets us apart? Our experience?
Our sophisticated technology?
Our innovations? For sure!
But most of all our great love of the product!“*

Ralf Taubert

Managing Director and grandson of the founder

WALLPAPERS WITH STANDARD

**MADE IN
GERMANY**

MANUFACTURE QUALITY

Our wallpapers are manufactured exclusively at the Hohenberg an der Eger site to the very highest quality. Individually and sustainably. Always by hand and with great attention to detail.

WALLPAPERS WITHOUT PVC

Here at Hohenberger we produce all our wallpapers without any PVC, plasticizers and solvents. Our paint and coating systems are water-based, so they guarantee 100% healthy living.

**SUSTAIN
ABLE**

SUSTAINABILITY

Energy-efficient and resource-saving production is common practice with us. We only use paper from certified sources for manufacturing our high-quality wallpapers.

HEALTHY-LIVING WALLPAPER

MINERAL FOAMS

We use eco-foam which is free from PVC, chlorine, CFC and solvents.

WATER-BASED PAINT SYSTEMS

Our paints are environmentally friendly and not harmful to health as they're solvent-free and water-based.

FLOCK MATERIAL made from European raw materials

We always choose the shortest route for procuring our materials and source our flock exclusively from Europe.

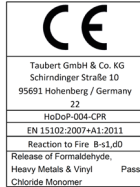

OUR QUALITY - CERTIFIED

The mark of
responsible forestry

FSC®

We use resources responsibly. Our cellulose comes from FSC® C004120 certified sources.

CE

Our products comply with the European Union's safety & health requirements.

B -s1, d0

Our wallpapers comply with the European fire safety standard EN 13501-1

B = Flame-resistant
s1 = Does not generate smoke
d0 = No dripping / falling off

Information sur le niveau d'émission de substances volatiles dans l'air intérieur, présentant un risque de toxicité par inhalation, sur une échelle de classe allant de A+ (très faibles émissions) à C (fortes émissions).

franz.VOC

Our products comply with emission class A+

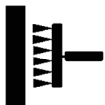

A+ = Formaldehyde emissions are very low
< 10 µg/m³ < 10 µg/m³

THE MANY BENEFITS OF NON-WOVEN WALLPAPER

NON-WOVEN WALLPAPERS are

sheets made of cellulose and textile fibres. They are ...

- + air- and vapour-permeable, allow the wall to breathe, provide a healthy indoor climate
- + quick and easy to apply - it's the wall and not the wallpaper that's pasted i.e. no soaking time, no wallpapering table necessary, no complicated folding of pasted wallpaper
- + particularly accurate in terms of dimensions, stable in shape & tear-resistant (lateral strain in wet state $< 0.3\%$). This makes them easy to work with. Any unevenness and small cracks in the wall are concealed.

- + Flame-resistant
- + Easy to remove

WALLPAPERS WITH SPECIAL EFFECTS

RELIEFS & STRUCTURES

Eco foam print finishing

Tactile effects from flat, very light to voluminous

VELVETY FEEL

Print finishing thanks to electrostatic flocking
for sensuously soft surfaces

Item no. 81253-HTM

Item no. 81254-HTM

HIGH LEVEL TECHNOLOGY

We have had a digital printing machine from DURST on site in Hohenberg since the end of 2020. We're able to combine the expertise of digital printing and wall-paper, creating completely new products. In this way, we live up to our claim of always staying up to date and being able to respond to customer wishes on an even more individual basis.

HIGH LEVEL TECHNOLOGY

TRADITION MEETS MODERN TECHNOLOGY

Digitally printed wallpapers are combined with traditional printing techniques and thus obtain f.e. soft foam structures or delicate shimmer effects. In this way we create unique products on the market. We exclusively work with water-based inks, whereby we meet our standards in terms of healthy living and sustainability.
