

## The Sapana Story

When we first started manufacturing in 1984 our goal was to make unique products of the highest quality. We are today, as committed to excellence in our business segment as in the past. 2023 marks the company's 39th year of leadership in product quality, innovation and customer service. Today, Sapana is proud to serve the world with the industry's most complete selection of beautiful and affordable polypropylene mats.

Our products feature regularly in design blogs, international publications & TV shows.

We have adopted the best manufacturing practices and use the most modern manufacturing and testing equipment to ensure that all products meet the demanding standards of customers the world over and the local regulations in each market.

## Our products can be found at leading retailers across the world.

## Manufacturing

# Socially Responsible & Quality Conscious

We are proud to say that not only do we make the best products but the products are manufactured in a safe and clean, work environment for our workforce.

Our plants are BSCI, SMETA, GRS and Goodweave certified. Our products are also certified for Oekotex.

#### Environmental Impact

We have a strong sense of commitment to our planet and are constantly redesigning our manufacturing processes to be more energy efficient.

We are also replacing our main raw materials with recycled raw materials without compromising on the aesthetic and functionality of the product.

Our products are made using Solar energy and till date we have effectively saved 30,893 trees. All of our waste is recycled and we use flexible reusable packing for our products.

#### Inhouse Designing Facilities

We have a design team who can create a product line from the trend boards or inspirations given by the customer.

## Our Strengths

Largest capacities in the industry

Known for quality
