

WHY ARTICA

We are considered by our customers and their end customers as one of the best tapestry producers in the world with a very extensive and exclusive collection for Christmas and all year designs. High quality and resolution of our designs make our offer a great value. We do not keep stock and produce everything by order. This allows us to be very flexible and adapt our designs, sizes and quality to your needs. Our specialized designers team and our state-of-the-art looms allow us to produce almost anything our customers need, including big panels 110" width like this realistic creation from Michelangelo, made in Jacquard Linen, viscose quality.
