CEO Message

Asif Mahmood

Meher Industries has been in the textile industry for over 46 years and has earned its name as a quality textile manufacturer. Our core activities include manufacturing, export and distribution of complete line of institutional and home textiles. Meher Industries is known in Pakistan as a symbol of quality.

We aim to be one of the leading organizations who play a significant role in the development and construction of our national economy. We are committed to strive ardently for attaining excellence in all fields of Textile Fabrics and Made-ups activities by using high quality, top-level management and latest available technology. We are utilizing the administrative abilities of well-educated and highly skilled, as well as experienced employees to fulfill commitments with our valuable customers; always seeking confidence and honor.

Our products and offerings include a complete range of textile products at competitive prices to leading organizations and firms.

Research, design and development of our first class facilities through integrated manufacturing facilities, Technical and professional experiences allows us to offer the best possible product service in the textile sector.

A panel of selected technicians and experts whose workmanship and experience has earned a unique variation to the field of textile allows Meher Industries the advantage of having weaving, sizing and sewing departments under one roof while yarn, dyeing and finishing jobs are outsourced.

The dynamic growth of Meher Industries attributes to our energetic leading team of executives. Having strong roots in processed growth, through daily-based target achievement strategies and contributing in ongoing upward progress of our nation, we are focusing to win a respected and long lasting "Business Image" in textile sector all over the globe.

History

Meher Industries is a manufacturer and exporter of home textile and institutional items since 1970, exporting to different parts of the world. The growth and development of Meher Industries has been consistent in order to make it a sign of global success in today's world. Our mill started commercial production in 1990 situated near Lahore, Pakistan. Its production facilities are equipped with the most advanced high speed Shutless (Sulzer) and Airjet are run on conversion bases.

Its business philosophy has been to be the supplier of textile and export house in Pakistan. Over the last 26 years of operations, Meher Industries has established its reputation in Pakistan as a premier textile company apart from exporting to several foreign buyers.

To be our clients' 'first call' and preferred collaboration partner within our business area. We envision to consistently exceed clients expectations. Our objective is to establish a loyal and trustful customer base via excellent advice and services.

Vision

The experience of our highly trained staff with commitment to our customers need makes it possible for us to offer you the best in class services that would cater to your specific needs. Our assurance of quality comes from our high standards - from yarn to fabric, from sewing to packaging, compromising in quality is not an option.

To be a leading competitive global textile company delivering improved stakeholders value by being a preferred partner for our customers, suppliers and society through innovative and cost efficient quality products guided by technology and competitive workforce in a sustainable manner through continuous improvement.

To be a leading
competitive
global **textile**
company

Mission

Objectives

Meher Industries major objective has always been to aim a for diversified product portfolio and high quality assurance. Not only does Meher Industries cater home textile and industrial buyers but also buyers interested in Made-Ups. Meher Industries ascertains a healthy balance between quality and price; promoting high quality products at the lowest prices.

This **Objective** is attained with the help of Well **Experienced Textile** Employees.

Quality Assurance

Meher Industries has a well-experienced and well-equipped quality control department, which ensures to meet all the required standard and test targets, set by our valued customers throughout the production process.

- The quality team also visits different processing sites in order to check and inspect the quality standards required and thus take action accordingly.

- The customers are updated regarding quality standards on daily basis and reports are sent to them with samples.

- Pre-inspections are carried out for shipment purposes in order to achieve maximum customer satisfaction.

Company Profile

Meher Industries Pakistan has been a part of the textile sector for over 46 years now. The great experience has helped us to become part of the reputed exporters of Pakistan and obtain trust and respect from different international firms, forming a firm position in the global market.

To ensure high quality standards, Meher Industries has a separate quality assurance team having employees with an experience of over 30 years to cater expertise to clients.

Meher Industries Pakistan has expanded both internally and externally in order to offer a diversified portfolio of products (institutional and home textile) to its customers. We have an in-house weaving, sizing and stitching facility while processing and spinning facilities are out-sourced from reputed firms that help us to maintain high quality levels at competitive prices. We enjoy the honor of being an Oekotex certified firm that further justifies our high quality levels.
