ABOUT US

When it comes to furnishings, Fiber N Loom keeps two things constant: Unique natural fibre and Wabi Sabi products. Being so natural and handwoven, these products are imperfectly one of its kind. Researching and developing new techniques and new blends of fibre is the driving force behind this journey.

Fiber N Loom symbolizes eco-friendly and sustainable products that can enrich environment and even heritage. We believe in paring things back to the elemental essence, and that this elemental essence is the root of true beauty.

For us, furnishings are not only practical — it s emotional, its personal.

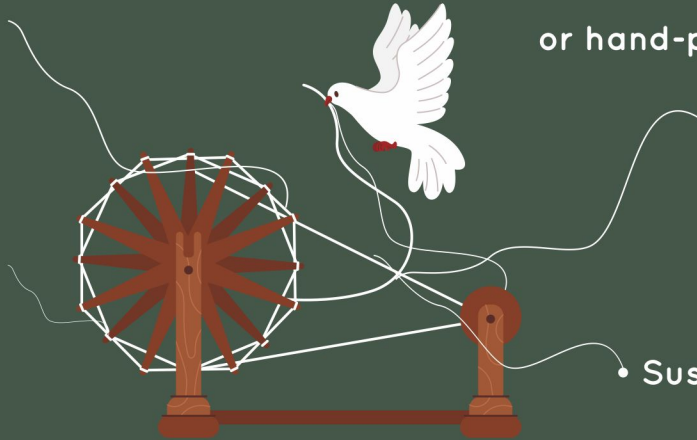

PRECISELY WHY PEOPLE LOVE US:

- Unique natural fibres

- Wabi Sabi make or hand-processed

- Eco-Friendly

- Sustainability

On Demand Customization

Weaving technique of rug and fabric has been same for centuries, but to design it, one still requires to have an idea about its process. Customers from all over the globe get their design and color implemented into a weave by sharing CADs and Pantones. It is no less than a bliss to see your idea into a final product just by exchange of your thoughts and precision of our hands.

THESE PRODUCTS ARE GREEN, NO MATTER IT'S COLOR

We are here to show that it is possible to be stylish while being environmentally thoughtful and in harmony with the natural ecosystems, we inhabit.

We are committed to creating products and services that inspire and support people who make it and people who consume it to make positive lifestyle changes, consume more sustainably, and live better everyday lives.

Sustainable Livelihood

We not only intend to keep years old state of the art, WEAVES OF INDIA alive but are also generating opportunities for men and women in rural areas to earn living by using processes that involve hands.
